

FIRST TERM - JSS 2 SOCIAL AND CITIZENSHIP STUDIES LESSON NOTES

WEEK 1: CITIZENSHIP

Topic: Citizenship

Breakdown (Subtopics):

- Meaning of Citizen and Citizenship
- Ways of Acquiring Citizenship (Birth, Registration, Naturalisation)

How to Get Your Green Passport

1. Birth

Jus Soli & Jus Sanguinis

2. Registration

3. Naturalisation

Performance Objectives: By the end of this lesson, students should be able to:

1. Define the terms "Citizen" and "Citizenship."
2. Differentiate between a citizen and a non-citizen (alien).
3. List and explain the three main ways a person can acquire Nigerian citizenship.
4. Differentiate between Jus Soli (Right of Soil) and Jus Sanguinis (Right of Blood).
5. List the conditions for acquiring citizenship by naturalisation.

Lesson Content:

1. What is a Citizen?

A **citizen** is a legally recognized member of a state or country. This legal status grants the person specific rights, protections, and privileges from the country's government. In return, the citizen is expected to perform certain duties and uphold their responsibilities to the state. A citizen is different from an **alien** (a foreigner living in the country) who may not have the same rights, such as the right to vote or hold high public office.

2. What is Citizenship?

Citizenship is the *status* or *condition* of being a citizen. It is the special relationship between an individual and a state, where the individual owes allegiance to the state, and the state, in turn, provides protection and fundamental rights to the individual.

3. Ways of Acquiring Citizenship

In Nigeria, as defined by Chapter III of the 1999 Constitution, there are three primary ways to become a citizen:

- **A. Citizenship by Birth (The most common way)** This means a person is a citizen automatically from the moment they are born. This is based on two main principles:
 1. **Jus Sanguinis (Right of Blood):** This is Nigeria's primary principle. A person is a citizen if one or both of their **parents** or **grandparents** are Nigerian citizens. It

doesn't matter where in the world the person is born (e.g., a child born in Germany to two Nigerian parents is a Nigerian citizen by birth).

2. **Jus Soli (Right of Soil):** This principle grants citizenship to anyone **born on the soil** (territory) of that country, regardless of who their parents are. This is the main method used in countries like the USA and Canada. Nigeria does *not* primarily use this method, except for cases where a child is born in Nigeria to unknown parents.

- **B. Citizenship by Registration**

This is a process for specific categories of people who have a direct link to Nigeria. They can *apply* to be "registered" as citizens. The main categories are:

1. A foreign woman who is married to a Nigerian man (she can apply after meeting residency and character requirements).
2. A person who is of "full age" (18+) and was born outside Nigeria, but their *grandparents* are Nigerian citizens.

- **C. Citizenship by Naturalisation**

This is the process for a total foreigner (an alien) who has no blood or marital ties to Nigeria but wishes to *become* a citizen. It is a long process with strict conditions.

- **Key Requirements for Naturalisation in Nigeria:**

1. The person must be of "full age" (18+).
2. They must have lived in Nigeria for a continuous period of at least **15 years**.
3. They must be of **good character** (no criminal record).
4. They must be seen as capable of contributing positively to Nigeria.
5. They must be willing to take the **Oath of Allegiance** to Nigeria.
6. They must renounce (give up) their previous citizenship, as Nigeria does not fully permit dual citizenship for naturalised persons.

Evaluation:

1. What is the difference between a "citizen" and "citizenship"?
2. What is Jus Sanguinis (Right of Blood)?
3. What is Jus Soli (Right of Soil)? Which one is Nigeria's main principle?
4. List the three main ways a person can acquire Nigerian citizenship.
5. List three requirements a foreigner must meet to become a Nigerian citizen by Naturalisation.

Assignment:

1. Define "citizen" and "alien" in your own words.
2. A child is born in London, UK, to a Nigerian father and a Ghanaian mother. Is the child a Nigerian citizen? Explain your answer using the correct principle.
3. A child is born in Lagos, Nigeria, to two French parents. Is the child a Nigerian citizen? Explain your answer.
4. What is the difference between acquiring citizenship by Registration and by Naturalisation?
5. Look up Chapter III, Section 25 of the 1999 Nigerian Constitution. What does it say about Citizenship by Birth?

WEEK 2: RIGHTS AND RESPONSIBILITIES

Topic: Rights and Responsibilities

Breakdown (Subtopics):

- Meaning of Rights and Responsibilities
- The Interdependence of Rights and Duties

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Citizen's Rights" and give at least 5 examples.
2. Define "Citizen's Responsibilities/Duties" and give at least 5 examples.

3. Explain *why* rights and duties are interdependent.
4. Provide specific examples of a right and its corresponding duty.

Lesson Content:

1. What are Rights (Fundamental Human Rights)?

Rights are the privileges, freedoms, and entitlements that are guaranteed to every citizen by the constitution. They are the things the government *must* do for you or *must not* do to you. In Nigeria, these are clearly listed in **Chapter IV of the 1999 Constitution**.

- **Examples of Your Rights as a Citizen:**

1. **Right to Life:** No one can unlawfully take your life.
2. **Right to Dignity:** You have the right not to be tortured or treated as a slave.
3. **Right to Fair Hearing:** If you are accused of a crime, you have the right to a fair trial in a court.
4. **Right to Private and Family Life:** Your home and privacy are protected.
5. **Right to Freedom of Thought, Conscience, and Religion:** You can believe in and practice any religion you choose.
6. **Right to Freedom of Expression:** You can share your opinions freely (as long as it's not slander or fake news).
7. **Right to Peaceful Assembly:** You can gather in groups (e.g., for meetings or protests) peacefully.
8. **Right to Freedom of Movement:** You can live in any part of Nigeria.
9. **Right to Freedom from Discrimination:** You cannot be discriminated against based on your tribe, religion, or gender.
10. **Right to Vote and Be Voted For:** (When you are 18).

2. What are Responsibilities (Duties)?

Responsibilities or **Duties** are the obligations and tasks that a citizen *must* perform for the good of the community and the nation. They are the "price" we pay for our rights. These are listed in **Section 24 of the 1999 Constitution**.

- **Examples of Your Duties as a Citizen:**

1. **Duty to Obey the Law:** Respect the Constitution, laws, and rules.
2. **Duty to Respect National Symbols:** Respect the Flag, National Anthem, and Pledge.
3. **Duty to Pay Taxes:** Pay your taxes honestly and promptly.
4. **Duty to Vote:** Participate in elections and choose good leaders.
5. **Duty to Defend the Country:** Be willing to protect Nigeria from harm (e.g., by serving in the army or reporting crime).
6. **Duty to be Patriotic:** Show love for your country.
7. **Duty to Help Law Enforcement:** Assist the police in their work.

3. The Interdependence of Rights and Duties (The Core Concept) This is the most important lesson: **Rights and Duties are two sides of the same coin. They cannot exist without each other.** A person's right is another person's duty.

- If we only demand our rights without performing our duties, the society will collapse.
- **Example 1: The Right to Life**
 - You have the Right to Life.
 - This means all other citizens have the Duty not to kill you.
- **Example 2: The Right to Freedom of Expression**
 - You have the Right to Freedom of Speech.
 - But you have the Duty to use that speech responsibly, *not* to slander, spread fake news, or incite violence (which would violate others' right to safety).
- **Example 3: The Right to Public Services**
 - You have the Right to use public roads, schools, and hospitals.
 - This right can only exist because citizens perform their Duty of paying taxes, which funds these services.
- **Example 4: The Right to Vote**
 - You have the Right to vote.
 - You have the Duty to vote responsibly and respect the results, even if your candidate loses.

Evaluation:

1. What is a "right"? Give two examples from the Nigerian Constitution.
2. What is a "duty" or "responsibility"? Give two examples.
3. What does it mean to say rights and duties are "interdependent"?
4. What is the citizen's *duty* that corresponds to the *right* to use public roads and hospitals?
5. What is the citizen's *duty* that corresponds to the *right* to freedom of speech?

Assignment:

1. In your own words, explain the "interdependence of rights and duties."
2. List three rights you enjoy as a student.
3. List three duties you have as a student.
4. Explain this statement: "My right to swing my fist ends where your nose begins." How does this relate to rights and duties?
5. Find and write down two (2) duties of a citizen as listed in Section 24 of the 1999 Constitution.

WEEK 3: CONSTITUTION

Topic: Constitution

Breakdown (Subtopics):

- Meaning of Constitution
- Features and Types of Constitutions
- Importance in governance

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Constitution."

2. Differentiate between a written and an unwritten constitution.
3. Differentiate between a rigid and a flexible constitution.
4. Classify the Nigerian Constitution based on these types.
5. List at least four reasons why a constitution is important.

Lesson Content:

1. What is a Constitution?

A **Constitution** is the **supreme law (the highest rulebook)** of a country. It is a special document that contains the fundamental principles, laws, and structures by which a country and its government must operate.

- It is the "mother law." All other ordinary laws, actions of the government, and even the rights of the citizens get their power from the Constitution.
- Any law or government action that *contradicts* (goes against) the Constitution is considered illegal, null, and void.
- Nigeria's current constitution is the **1999 Constitution of the Federal Republic of Nigeria**.

2. Types of Constitutions

Constitutions can be classified in several ways:

- **A. Written vs. Unwritten**
 - **Written Constitution:** The laws and principles are collected and written down in a **single, unified document**.
 - *Examples:* Nigeria (1999 Constitution), USA, Ghana, South Africa.
 - **Unwritten Constitution:** The principles and laws are *not* in a single document. They are found in various sources, such as acts of parliament, court judgments, and historical traditions.
 - *Examples:* United Kingdom (UK), Israel, New Zealand.
- **B. Rigid vs. Flexible**

- **Rigid Constitution:** The process for changing (amending) the constitution is **very difficult and complex**. It usually requires special majorities (e.g., a two-thirds vote in the legislature and approval by the states).
 - *Purpose:* To protect the constitution from being changed easily by politicians.
 - *Example:* Nigeria (our constitution is very rigid), USA.
- **Flexible Constitution:** The process for changing the constitution is **simple and easy**. It can be changed by a simple majority vote in the legislature, just like any ordinary law.
 - *Example:* United Kingdom (UK).
- **C. Federal vs. Unitary** (Based on structure)
 - **Federal Constitution:** Divides power between a central government and other state/regional governments (e.g., Nigeria, USA).
 - **Unitary Constitution:** All power is held by one central government (e.g., UK, Ghana).
- **Classification of Nigeria's Constitution:** Nigeria operates a **Written, Rigid, and Federal** constitution.

3. Importance of a Constitution (Why do we need it?)

The constitution is the most important document in any country.

1. **It defines the structure of government:** It creates the 3 arms of government (Legislature, Executive, Judiciary) and outlines their powers.
2. **It protects the rights of citizens:** It contains the "Fundamental Human Rights" (like the Right to Life) that the government cannot take away.
3. **It limits the power of the government:** It prevents any one person (like the President) or group from becoming a dictator. It ensures "rule of law" (everyone is under the law).
4. **It distributes power:** In Nigeria, it shares power between the Federal Government (Abuja) and the 36 State Governments.
5. **It is a symbol of unity and independence:** It is the single document that binds all the diverse peoples of Nigeria together as one nation.

Evaluation:

1. What is a Constitution?
2. What is the difference between a written and an unwritten constitution?
3. What is the difference between a rigid and a flexible constitution?
4. How would you classify the Nigerian Constitution? (e.g., Written/Unwritten, Rigid/Flexible).
5. List three reasons why a constitution is very important.

Assignment:

1. In your own words, explain why a constitution is called the "supreme law" or "mother law."
2. What is the full name of Nigeria's current constitution?
3. Find out one major difference between a "federal" and a "unitary" system of government.
4. Why do you think Nigeria has a *rigid* constitution instead of a *flexible* one?
5. What is the "Preamble" of a constitution? (Look it up).

WEEK 4: GOVERNMENT INSTITUTIONS

Topic: Government Institutions

Breakdown (Subtopics):

- The Three Arms of Government: Executive, Legislature, Judiciary
- Functions of each arm

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Government" as an institution.
2. List the three arms of government.
3. Explain the principle of "Separation of Powers."
4. Identify the members and primary functions of the Legislature.
5. Identify the members and primary functions of the Executive.
6. Identify the members and primary functions of the Judiciary.

Lesson Content:

1. What is Government?

Government is the group of people and the institutions that have the authority to make and enforce laws for a country or state. To prevent this authority from being abused, democratic constitutions (like Nigeria's) divide the power into three separate branches or "arms."

2. The Principle of "Separation of Powers"

This is the idea that government power must be divided among the three arms. Each arm has its own distinct job and can "check and balance" the power of the other two. This prevents any one arm from becoming a dictatorship.

3. The Three Arms of Government

• A. The Legislature (The Law-Makers)

- **Who they are:** The elected representatives of the people.
- **In Nigeria (Federal):** The **National Assembly**, which is made up of:
 1. The **Senate** (109 Senators, 3 from each state, 1 from FCT).
 2. The **House of Representatives** (360 members, based on population).
- **In Nigeria (State):** The **State House of Assembly**.
- **Primary Functions:**
 1. **Law-Making:** To debate, pass, and amend laws (called "Bills").

2. **Power of the Purse:** To approve the national budget (how government money is spent).
 3. **Oversight:** To investigate the actions of the Executive arm.
 4. **Confirmation:** The Senate must confirm major appointments (like Ministers and Judges).
 5. **Representation:** To represent the needs and views of their local constituents.
- **B. The Executive (The Law-Implementers)**
 - **Who they are:** The "government" officials who run the country day-to-day.
 - **In Nigeria (Federal):**
 1. The **President** (Head of the Executive).
 2. The **Vice-President**.
 3. The **Federal Executive Council** (The President and all the Ministers, e.g., Minister of Education, Minister of Health).
 4. The entire Civil Service, Police, and Military.
 - **In Nigeria (State):** The **Governor**, Deputy Governor, and Commissioners.
 - **Primary Functions:**
 1. **Implementation:** To enforce and carry out the laws made by the Legislature.
 2. **Administration:** To run the daily affairs of the government.
 3. **Appointments:** To appoint ministers, judges, and other high officials.
 4. **Budgeting:** To prepare the annual budget and present it to the Legislature.
 5. **Foreign Policy:** To manage relationships with other countries.
 - **C. The Judiciary (The Law-Interpreters)**
 - **Who they are:** The court system and the judges.
 - **In Nigeria:** A hierarchy of courts, including:
 1. The **Supreme Court** (the highest court).
 2. The **Court of Appeal**.
 3. The **Federal High Court**.
 4. State High Courts, Magistrate Courts, and Customary/Sharia Courts.
 - **Primary Functions:**
 1. **Interpretation:** To explain and interpret what the Constitution and other laws mean.
 2. **Settling Disputes:** To provide a place for citizens to resolve conflicts (civil cases).

3. **Punishing Lawbreakers:** To conduct trials and sentence those found guilty of crimes (criminal cases).
4. **Protecting Rights:** To protect the Fundamental Human Rights of citizens from the government or other citizens.
5. **Judicial Review:** To declare any law or executive action "unconstitutional" (null and void) if it conflicts with the Constitution.

Evaluation:

1. What are the three arms of government?
2. What is the main idea behind "Separation of Powers"?
3. Which arm of government *makes* the law?
4. Which arm of government *implements* (carries out) the law?
5. Which arm of government *interprets* the law?

Assignment:

1. In Nigeria, the National Assembly (Legislature) is made up of which two "houses"?
2. Who is the head of the Executive arm at the Federal level? And at the State level?
3. What is the highest court in the Judiciary in Nigeria?
4. Explain "Checks and Balances": Give one example of how the Legislature "checks" the Executive. (e.g., by approving the budget).
5. Give one example of how the Judiciary "checks" the other two arms. (e.g., by judicial review).

WEEK 6: CIVIC VIRTUES

Topic: Civic Virtues

Breakdown (Subtopics):

- Meaning of Civic Virtues
- Honesty, discipline, integrity, cooperation, tolerance

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Civic Virtues."
2. Define and give examples of honesty and discipline.

3. Define and differentiate between honesty and integrity.
4. Define and give examples of cooperation and tolerance.
5. Explain why these virtues are essential for national development.

Lesson Content:

1. What are Civic Virtues?

Civic Virtues are the positive personal qualities, good habits, and moral values that a citizen must possess to be a good and responsible member of a society.

- They are the "building blocks" of a good community. A nation full of citizens who lack these virtues (e.g., if everyone is dishonest and selfish) will collapse.

2. Explanation of Key Virtues

- **A. Honesty**
 - **Definition:** The quality of being truthful, sincere, and free from deceit. It means not lying, not stealing, and not cheating.
 - **Importance:** Honesty is the foundation of *trust*. Without trust, businesses cannot operate, friendships cannot last, and citizens will not believe their government.
- **B. Discipline**
 - **Definition:** The ability to control one's behavior, follow rules, and do the right thing even when it is difficult. It includes:
 - **Self-Discipline:** e.g., A student deciding to study instead of playing.
 - **Societal Discipline:** e.g., Obeying traffic laws, queuing (lining up) patiently, not littering.
 - **Importance:** Discipline creates order, efficiency, and progress. A lack of discipline leads to chaos and lawlessness.
- **C. Integrity**
 - **Definition:** This is a step *beyond* honesty. Integrity is the quality of being honest *and* having strong, consistent moral principles. It means **doing the right thing even when no one is watching**.

- **Honesty vs. Integrity:**
 - An *honest* person doesn't lie.
 - A person with *integrity* doesn't lie, and they also *refuse* to sit quietly while their friends are lying. They stand up for what is right.
- **Importance:** Integrity is the number one cure for corruption. A leader with integrity will not steal public money, even if they know they can get away with it.
- **D. Cooperation**
 - **Definition:** The act of working together with others to achieve a common goal.
 - **Importance:** No individual can build a nation alone. We need cooperation in the family (to keep the house clean), in school (to complete a group project), and in the nation (to build roads, hospitals, and a peaceful society).
- **E. Tolerance**
 - **Definition:** The willingness to accept and respect the beliefs, cultures, opinions, and practices of other people, *especially if they are different from your own*.
 - **Importance:** Tolerance is perhaps the *most* important virtue for Nigeria. Nigeria is a multi-ethnic and multi-religious country. Without tolerance (respect for Igbo, Hausa, Yoruba, Christian, Muslim, etc.), there will be constant fighting, suspicion, and war. Tolerance is the foundation of peace and unity.

Evaluation:

1. What are "civic virtues"?
2. What is the difference between honesty and integrity?
3. Why is discipline important for a society?
4. What is "cooperation"?
5. Why is "tolerance" especially important in a diverse country like Nigeria?

Assignment:

1. Define "integrity" in your own words.
2. Give one example of *honesty* in school and one example of *integrity* in school.
3. Give one example of *discipline* in school.

4. Give one example of *cooperation* in your community.
5. Explain what could happen in a country where there is no religious or ethnic tolerance.

WEEK 8: PUBLIC SERVICE

Topic: Public Service

Breakdown (Subtopics):

- Meaning of Public Service and Civil Service
- Importance of the Public Service
- Challenges facing the Public Service

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Public Service."
2. Define "Civil Service" and differentiate it from the Public Service.
3. Explain the importance of the Public Service to the nation.
4. List and explain at least four major challenges facing the Nigerian Public Service.

Lesson Content:

1. Meaning of Public Service

The **Public Service** is the broad name for *all* government employees and institutions that work on behalf of the public (the citizens). It includes everyone who is paid by the government to provide a service.

- *Examples:* Public school teachers, doctors in government hospitals, the Police, the Military, workers in government agencies (like INEC or NAPTIP), and the Civil Service.

2. Meaning of Civil Service

The **Civil Service** is a *part* of the Public Service. It is the "core" administrative body of the government. Civil servants are the permanent, non-political employees who work in the government ministries (e.g., Ministry of Finance, Ministry of Education, Ministry of Health).

- Their job is to advise the government (the President and Ministers) and *implement* their policies.
- **Difference:** A Minister is a *political appointee* (part of the Executive) and changes when the government changes. The *Permanent Secretary* in that ministry is a senior *civil servant* who stays, providing continuity. All civil servants are public servants, but not all public servants (like a soldier or a teacher) are civil servants.

3. Importance of the Public Service

The Public Service is the "engine" of the government. Without it, the country cannot run.

1. **Implements Government Policies:** When the government promises to build a new road, it is the public service (Ministry of Works) that designs, contracts, and oversees it.
2. **Provides Essential Services:** It runs public schools, public hospitals, water corporations, and power stations.
3. **Maintains Law and Order:** The police (public servants) and the courts (public servants) protect citizens and maintain peace.
4. **Generates Revenue:** It collects taxes and other revenue (e.g., through customs) to fund the government.
5. **Provides Continuity:** Governments and Presidents come and go, but the civil service remains, ensuring that the country continues to function during political transitions.

4. Challenges of the Nigerian Public Service

Despite its importance, the public service in Nigeria faces many serious challenges that make it inefficient.

The Public Servant: the State, Not Self

1. **Corruption:** This is the biggest challenge. Bribery, embezzlement (stealing public funds), and fraud mean that money meant for public services (like new hospitals) ends up in private pockets.
2. **Bureaucracy (Red Tape):** Processes are often extremely slow, complex, and frustrating. It can take months to get a simple permit.
3. **Nepotism and Tribalism:** Hiring and promoting people based on *who they know* (family, tribe) instead of *what they know* (merit and qualifications). This leads to incompetence.
4. **Poor Funding and Low Salaries:** Many public servants are not given the tools (computers, vehicles) to do their jobs, and low salaries can lead to low morale and increase the temptation for corruption.
5. **Political Interference:** Politicians often bypass rules and interfere in the neutral work of the civil service, a.k.a. "Ghost Workers."

Evaluation:

1. What is the Public Service?
2. What is the main difference between the Public Service and the Civil Service?
3. List three reasons why the Public Service is important.
4. What is "nepotism"?
5. What is the biggest challenge facing the Nigerian Public Service?

Assignment:

1. In your own words, explain the difference between a public servant (like a police officer) and a civil servant (like a director in the Ministry of Finance).
2. List four major challenges facing the Nigerian Public Service.
3. What is "bureaucracy"?
4. How does corruption in the Public Service affect your daily life as a student? (Hint: Think about roads, schools, and hospitals).
5. Suggest one way to solve the problem of corruption in the Public Service.

WEEK 9: DEMOCRACY IN PRACTICE

Topic: Democracy in Practice

Breakdown (Subtopics):

- Elections, political parties, voting process

Performance Objectives: By the end of this lesson, students should be able to:

1. Define Democracy, Election, and Political Party.
2. Explain the main functions of political parties.

3. Identify INEC and state its primary role.
4. List the main steps in the voting process in Nigeria.

Lesson Content:

1. What is Democracy?

- **Definition:** Democracy is a system of government where the *citizens* hold the supreme power. The word comes from the Greek: Demos (the people) and Kratos (rule or power).
- **Key Idea:** It is "government of the people, by the people, and for the people."
- **How:** In a large country like Nigeria, we practice **Representative Democracy**, where citizens *elect* (choose) a few people (like the President, Governors, and Senators) to represent them and govern on their behalf.

2. Political Parties

- **Definition:** A political party is an organized group of people who share similar political beliefs, ideologies, and goals. Their main aim is to **win elections** in order to control government and implement their policies.
- **Examples in Nigeria:** All Progressives Congress (APC), Peoples Democratic Party (PDP), Labour Party (LP), New Nigeria Peoples Party (NNPP), etc.
- **Functions of Political Parties:**
 1. **Nominate Candidates:** To select and present candidates for the public to vote for.
 2. **Educate Voters:** To inform the public about their goals (their "manifesto") and about political issues.
 3. **Mobilize Voters:** To encourage people to register and come out to vote.
 4. **Run the Government:** If their party wins, they form the government (President, Ministers).
 5. **Act as "Opposition":** If their party loses, they act as a "watchdog," criticizing the ruling party to keep them in check.

3. Elections

- **Definition:** An election is the formal, organized process through which citizens choose their representatives. In a democracy, elections must be **free, fair, credible, and periodic** (held at regular intervals, e.g., every 4 years in Nigeria).
- **INEC:** The **Independent National Electoral Commission**. This is the government body (public service) in Nigeria that is *independent* and responsible for organizing, conducting, and supervising all federal and state elections.

4. The Voting Process in Nigeria (Simplified Steps)

1. **Voter Registration:** A citizen who is **18 years or older** must register with INEC to get a **Permanent Voter's Card (PVC)**.
2. **Campaigns:** Political parties and candidates campaign to persuade voters.
3. **Election Day (Accreditation):** The voter goes to their designated "Polling Unit." An INEC official verifies their PVC and authenticates them (e.g., using the BVAS - Bimodal Voter Accreditation System).
4. **Election Day (Voting):** The voter receives a stamped ballot paper, goes to a secret voting cubicle, makes their choice (usually by thumbprinting), and drops the folded ballot paper into the ballot box.
5. **Counting:** After voting closes, the votes are counted *publicly* at the polling unit.
6. **Collation & Announcement:** The results from all polling units are gathered (collated), and INEC officially announces the winner.

Evaluation:

1. What is democracy?
2. What is a political party?
3. What is the main function of INEC?
4. What is a PVC, and how old must you be to get one?
5. List the 4 main steps of Election Day (Accreditation, Voting, Counting, Announcement).

Assignment:

1. What are the three main functions of a political party?

2. Why must elections in a democracy be "free and fair"?
3. What does "Separation of Powers" (from Week 4) have to do with "Democracy"?
4. What is a "manifesto"?
5. What is "voter apathy"? (Look it up and explain why it is bad for democracy).

WEEK 10: HUMAN TRAFFICKING

Topic: Human Trafficking

Breakdown (Subtopics):

- Meaning, Causes, Consequences, and Prevention

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Human Trafficking" and identify it as modern-day slavery.
2. Differentiate between human trafficking and human smuggling.
3. List and explain at least three major causes of human trafficking.
4. List and explain at least three major consequences (on the victim and the nation).

5. Identify **NAPTIP** as the key agency fighting trafficking in Nigeria and list methods of prevention.

Lesson Content:

1. What is Human Trafficking?

- **Definition:** Human Trafficking is **modern-day slavery**. It is the crime of using force, fraud (lies), or coercion (threats) to recruit, transport, or hold a person for the purpose of **exploitation**.
- **Exploitation means:**
 - Forced labour (making someone work for little or no pay).
 - Sexual exploitation (prostitution).
 - Forced begging.
 - Domestic servitude (being a house-help who is beaten, unpaid, and locked up).
 - Organ removal.
- **Trafficking vs. Smuggling:**
 - **Smuggling** is a crime against a *border* (e.g., illegally helping someone cross into Europe). The person is usually free after they cross.
 - **Trafficking** is a crime against a *person*. The person is *not* free. Their passport is taken, and they are forced into slavery.

2. Causes of Human Trafficking (Why does it happen?)

1. **Poverty:** This is the root cause. Desperate families and individuals are easily tricked by promises of a better life.
2. **Ignorance and Deception:** Victims are *tricked*. They are promised a good job, a university education, or a modelling/football contract in Europe or Asia. They go willingly, only to be trapped.
3. **Greed:** Traffickers (the criminals) make billions of dollars from this evil trade.
4. **Lack of Jobs:** High unemployment makes young people desperate for any opportunity to leave the country.

5. **Porous Borders:** It is too easy to move victims across Nigeria's borders without being caught.

3. Consequences (The Effects)

- **Consequences on the Victim:**

1. **Physical:** Beating, starvation, forced drug use, diseases (like HIV/AIDS).
2. **Psychological:** Extreme trauma, depression, fear, and shame.
3. **Loss of Freedom:** They become slaves, their passports are seized, and they live as prisoners.
4. **Death:** Many victims die during the dangerous journey (e.g., in the Sahara Desert or the Mediterranean Sea) or are killed.

- **Consequences on the Nation (Nigeria):**

1. **Bad International Reputation:** Nigeria becomes known as a source country for trafficking, which shames the nation.
2. **Loss of Human Capital:** The country's strong, talented youth are lost to slavery.
3. **Security Threat:** Trafficking gangs are linked to other organized crimes (drugs, weapons).

4. Prevention and Control

1. **NAPTIP:** The **National Agency for the Prohibition of Trafficking in Persons**. This is the main Nigerian government agency responsible for arresting traffickers, rescuing victims, and raising awareness.
2. **Public Education:** The most important tool. We must teach people (especially in villages) to be suspicious of "too good to be true" offers for travel and jobs abroad.
3. **Job Creation:** Solving the root cause of poverty by creating good jobs for young people.
4. **Stronger Laws:** Ensuring that traffickers who are caught are sent to jail for a long time.
5. **Rehabilitation:** Rescuing and helping victims with shelter, counseling, and job skills.

Evaluation:

1. In one sentence, what is human trafficking?

2. What is the main difference between human trafficking and human smuggling?
3. List three main *causes* of human trafficking.
4. List three main *consequences* for the victim.
5. What does **NAPTIP** stand for?

Assignment:

1. What is "exploitation"? Give two examples.
2. A man offers a 16-year-old girl's parents money and promises to take her to Italy for a good job. When she gets there, he takes her passport and forces her to work. Is this trafficking or smuggling? Explain why.
3. Why is "poverty" the number one cause of trafficking?
4. What is the best way to prevent yourself or your friends from becoming victims?
5. What is the consequence of human trafficking on Nigeria's reputation?

WEEK 11: REVISION

Topic: Revision

Breakdown (Subtopics):

- Comprehensive review of all topics from the term.

Performance Objectives: By the end of this lesson, students should be able to:

1. Recall and define the key concepts of the term.
2. Explain the processes of citizenship, governance, and elections.
3. Discuss the importance of civic virtues and the challenges to the nation.

Lesson Content:

1. Summary of Term 1 Topics:

- **Week 1 (Citizenship):** A citizen is a legal member of a state. Acquired by **Birth** (Jus Soli vs. Jus Sanguinis), **Registration**, or **Naturalisation**.
- **Week 2 (Rights & Duties):** **Rights** are entitlements (e.g., Right to Life). **Duties** are obligations (e.g., pay taxes). They are **interdependent** (one cannot exist without the other).
- **Week 3 (Constitution):** The supreme lawbook. Nigeria's is **Written, Rigid, and Federal**. It outlines government power and protects citizens' rights.
- **Week 4 (Govt. Institutions):** Separation of Powers into 3 arms:
 - **Legislature (National Assembly):** Makes laws.
 - **Executive (President):** Implements laws.
 - **Judiciary (Courts):** Interprets laws.
- **Week 6 (Civic Virtues):** The good qualities of a citizen.
 - **Honesty** (truthful), **Integrity** (honest when no one is watching), **Discipline** (self-control), **Cooperation** (working together), **Tolerance** (respecting differences).
- **Week 8 (Public Service):** The "engine" of government (teachers, police, civil servants).
 - **Challenges:** Corruption, Nepotism, Bureaucracy.

- **Week 9 (Democracy):** Government by the people.
 - **Political Parties** (APC, PDP) compete in **Elections** (run by INEC) where citizens **vote** (using their **PVC**).
- **Week 10 (Human Trafficking):** Modern-day slavery.
 - **Causes:** Poverty, Ignorance.
 - **Consequences:** Trauma, Death, Bad national reputation.
 - **Agency:** NAPTIP.

2. Class Activity: Rapid-Fire Review (Teacher asks quick questions to test memory).

- "What are the 3 ways to get citizenship?"
- "What is the Nigerian agency that fights trafficking?" (NAPTIP)
- "What are the 3 arms of government?"
- "What do we call the 'Right of Blood'?" (Jus Sanguinis)
- "What is the Nigerian agency that runs elections?" (INEC)
- "What is the civic virtue of respecting others' beliefs?" (Tolerance)

Evaluation: This week's evaluation is the First Term Examination.

Assignment:

1. Study all notes from Week 1 to Week 10 for the examination.
2. Create a mind map or diagram showing the 3 arms of government and listing two functions for each.
3. In your opinion, which *two* civic virtues (from Week 6) are the *most* important for Nigeria today? Explain why.

SECOND TERM – JSS 2 SOCIAL AND CITIZENSHIP STUDIES

WEEK 1: POPULATION AND SOCIETY

Topic: Population and Society

Breakdown (Subtopics):

- Meaning of Population, Census, and Population Growth
- Effects of Population Growth on Resources and Development

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Population" and "Census."
2. Explain the importance of a census for national planning.
3. Define "Population Growth" and "Overpopulation."

4. List and explain the three main causes of population growth.
5. Analyze the effects of rapid population growth (overpopulation) on resources, social services, and national development.

Lesson Content:

1. Key Definitions

- **Population:** This is the total number of people (inhabitants) living in a specific geographical area at a particular time. The area can be a town, a state, or a whole country (e.g., the population of Nigeria).
- **Census:** This is the official, systematic, and regular process of counting the *entire population* of a country and recording other important details about them (such as their age, gender, occupation, ethnicity, and religion). In Nigeria, this is supposed to happen every 10 years.
- **Population Growth:** This is the *increase* in the number of people in a population over time.
- **Overpopulation:** This is a dangerous situation where the population of a country is *too large* for the available resources (like food, water, jobs, housing, and schools) to support.

2. Importance of a Census

A census is not just "counting heads." It is the most important tool for government planning. A government needs accurate census data to:

1. **Plan for Social Services:** Know how many schools, hospitals, and houses to build and where to build them.
2. **Allocate Resources:** Decide how to share national revenue fairly among states and local governments.
3. **Economic Planning:** Help businesses decide where to set up factories (based on a large labour force) and what products to sell.
4. **Political Representation:** Determine how many representatives each state gets in the House of Representatives.

5. **Security:** Help security agencies (police, army) know how to deploy their staff to protect the people.

3. Causes of Population Growth

Population grows for three main reasons:

1. **High Birth Rate (Natality):** When the number of babies being born is much higher than the number of people dying. This can be due to cultural desires for large families, early marriage, and lack of family planning.
2. **Low Death Rate (Mortality):** When fewer people are dying. This is a good thing, usually caused by:
 - Better healthcare (new medicines, vaccines, more hospitals).
 - Better sanitation (clean drinking water).
 - Better nutrition (more available food).
3. **Migration:**
 - **Immigration:** People moving *into* a country (e.g., from neighbouring countries) to find jobs or escape war.
 - **Emigration:** People moving *out of* a country (this *reduces* population).
 - Population grows if immigration is higher than emigration.

4. Effects of Rapid Population Growth (Overpopulation)

When a country's population grows *faster* than its economy and resources, it leads to many serious problems:

1. **Pressure on Social Services:** Schools become overcrowded, hospitals are full, and there are not enough doctors or teachers.
2. **Strain on Infrastructure:** There are constant traffic jams, power (electricity) is not enough, and clean water becomes scarce.
3. **High Unemployment:** There are more people looking for jobs than there are jobs available.

4. **Increase in Crime:** When many people (especially youths) are unemployed and poor, they may turn to crime (like theft, fraud, and kidnapping) to survive.
5. **Environmental Damage:** More people means more trees are cut down for housing (deforestation), more waste is produced (pollution), and more land is over-farmed.
6. **Slows National Development:** The government has to spend all its money just to *manage* the large population, with little left over for building new industries or investing in the future.

Evaluation:

1. What is the difference between "Population" and "Census"?
2. List three reasons why conducting a census is important for Nigeria.
3. What is "overpopulation"?
4. List the three main causes of population growth.
5. Explain two ways overpopulation can affect national development.

Assignment:

1. Define "Population Growth," "Birth Rate," and "Death Rate."
2. What is the difference between "Immigration" and "Emigration"?
3. "A low death rate is a good thing, but it can contribute to overpopulation." Explain this statement.
4. How does overpopulation lead to an increase in the crime rate?
5. What are the effects of overpopulation on education and healthcare in your community?

WEEK 2: SOCIAL PROBLEMS

Topic: Social Problems

Breakdown (Subtopics):

- Meaning of Social Problems
- Drug abuse, cultism, prostitution, terrorism

Performance Objectives: By the end of this lesson, students should be able to:

1. Define a "Social Problem."

2. Define "Drug Abuse" and list its causes and consequences.
3. Define "Cultism" and list its causes and consequences.
4. Define "Prostitution" and list its dangers.
5. Define "Terrorism" and explain its effects on society.

Lesson Content:

1. What is a Social Problem?

A **Social Problem** is a condition or behaviour that is widespread in a society and is considered harmful, undesirable, or in violation of the society's shared values and norms. It is a problem that affects many people and requires a collective (group) solution, not just an individual one.

2. Major Social Problems in Nigeria

- **A. Drug Abuse**
 - **Definition:** Drug abuse is the harmful or excessive use of any drug (legal or illegal) for non-medical purposes, in a way that negatively affects a person's physical, mental, or social well-being.
 - **Examples of Abused Drugs:** Marijuana, Tramadol, Codeine (in cough syrup), Rohypnol, heroin, cocaine, sniffing glue or petrol.
 - **Causes:** Peer pressure, poverty, unemployment, frustration, and the desire to escape problems.
 - **Consequences:** Mental illness (madness), addiction, school dropout, increase in crime (as addicts steal to fund their habit), and health problems (e.g., liver/kidney failure, death from overdose).
- **B. Cultism**
 - **Definition:** Cultism is the practice of belonging to a secret, exclusive group (a "cult") that often engages in harmful, violent, or criminal activities. These groups demand secret oaths and total loyalty from their members.
 - **Locations:** Common in universities, secondary schools, and some communities.
 - **Causes:** The desire for protection, power, or a sense of belonging; peer pressure; or a bad family background.

- **Consequences:** Violent clashes between rival cults, armed robbery, kidnapping, murder, expulsion from school, and a life of crime.
- **C. Prostitution**
 - **Definition:** The act of engaging in sexual activity in exchange for money or other payments.
 - **Causes:** Extreme poverty, greed, deception (being trafficked), and a breakdown of moral values.
 - **Consequences (Dangers):** High risk of contracting STDs (like HIV/AIDS), unwanted pregnancies, low self-esteem, drug abuse, and violence from clients or pimps.
- **D. Terrorism**
 - **Definition:** The unlawful use of violence, intimidation, and fear against civilians (ordinary people) to achieve a political, religious, or ideological goal.
 - **Examples:** Bombings, kidnappings for ransom, and armed attacks on towns or villages (e.g., by groups like Boko Haram or bandits).
 - **Consequences:** Massive loss of life, displacement of people (creating refugees or IDPs), destruction of property and farmland, economic collapse (as businesses close), and widespread fear and insecurity in the nation.

Evaluation:

1. What is a "social problem"?
2. What is drug abuse? List two consequences.
3. What is cultism? List two consequences.
4. What is terrorism?
5. List three common social problems in Nigeria (you can list ones not in the lesson).

Assignment:

1. What is the difference between drug *use* and drug *abuse*?
2. What is "peer pressure," and how can it lead to drug abuse and cultism?
3. Why is terrorism such a serious problem for national development?

4. What is the main government agency in Nigeria that fights drug abuse? (Look up NDLEA).
5. Suggest two solutions to the problem of cultism in schools.

WEEK 3: CRIME AND NATIONAL SECURITY

Topic: Crime and National Security

Breakdown (Subtopics):

- Types of crime and their effects
- Security agencies in Nigeria

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Crime" and "National Security."

2. List and differentiate between at least four types of crime.
3. Explain the negative effects of crime on individuals and the nation.
4. Identify the major security agencies in Nigeria and state their primary functions.

Lesson Content:

1. Definitions

- **Crime:** A crime is any action or behaviour that is **against the law** (as defined by the Constitution or Criminal Code) and for which the state (government) can apply a punishment (like a fine or imprisonment).
- **National Security:** This is the protection of a nation's territory, citizens, economy, and institutions from threats. These threats can be *external* (like an attack from another country) or *internal* (like terrorism, crime, or cultism).

2. Types of Crime Crimes can be grouped into different categories:

1. **Crimes Against Persons:** These involve direct harm to another person.
 - *Examples:* Murder, assault (fighting), kidnapping, rape, domestic violence.
2. **Crimes Against Property:** These involve stealing or destroying property.
 - *Examples:* Theft, armed robbery, burglary (breaking into a house), arson (setting fire to property), vandalism.
3. **Financial Crimes (White-Collar Crime):** These are non-violent crimes, often committed by "educated" people.
 - *Examples:* Fraud (419), embezzlement (stealing from an employer), bribery, corruption.
4. **Cybercrimes:** Crimes committed using the internet and computers.
 - *Examples:* Internet fraud ("Yahoo-Yahoo"), hacking, identity theft.
5. **Crimes Against the State:**
 - *Examples:* Treason (trying to overthrow the government), terrorism, sabotage.

3. Effects of Crime on Society A high level of crime is devastating to a country:

1. **Insecurity and Fear:** Citizens live in constant fear for their lives and property.
2. **Loss of Life and Property:** Victims are killed, injured, or lose their hard-earned money and possessions.
3. **Discourages Investment:** Foreign and local businesspeople will not invest their money to build factories in a country where they might be kidnapped or robbed. This leads to unemployment.
4. **Negative National Reputation:** The country gets a bad name (e.g., as a place for "419"), which shames its citizens abroad.
5. **High Cost of Security:** The government has to spend billions of Naira on weapons and police that it could have spent on building schools and hospitals.

4. National Security Agencies These are the government bodies (Public Service) responsible for protecting citizens from crime and other threats:

1. **The Nigerian Police Force (NPF):** The main agency for *internal* security. Their job is to maintain law and order, prevent and detect crime, and arrest offenders.
2. **The Nigerian Armed Forces:**
 - **The Nigerian Army:** Protects the country on land.
 - **The Nigerian Navy:** Protects the country's waters (seas and rivers).
 - **The Nigerian Air Force:** Protects the country's airspace.
 - (Their main job is to fight *external* threats, but they now help the police fight internal threats like terrorism).
3. **Department of State Services (DSS):** The "secret police." Their job is *internal intelligence*. They investigate threats like terrorism, espionage (spying), and threats to national security *before* they happen.
4. **Nigeria Security and Civil Defence Corps (NSCDC):** Their job is to protect public infrastructure (like oil pipelines, power lines, and public buildings) from vandalism and to help in civil emergencies.

Evaluation:

1. What is the difference between "crime" and "national security"?

2. List three types of crime and give one example of each.
3. Explain two ways crime negatively affects Nigeria.
4. What is the main job of the Nigerian Police Force?
5. What is the main difference between the Armed Forces and the DSS?

Assignment:

1. In your own words, what is "cybercrime"? Give one example.
2. What is "arson"?
3. What is "embezzlement"?
4. What is the full meaning of DSS and NSCDC?
5. Why is it important for security agencies like the police to be free from corruption?

WEEK 4: HUMAN RIGHTS ABUSE

Topic: Human Rights Abuse

Breakdown (Subtopics):

- Review of Fundamental Human Rights
- Examples of abuse in Nigeria
- Remedies for human rights abuse

Performance Objectives: By the end of this lesson, students should be able to:

1. Recall the meaning of "Fundamental Human Rights" (from Term 1).
2. Define "Human Rights Abuse."

3. List and explain at least five common examples of human rights abuses in Nigeria.
4. List and explain the available remedies for a citizen whose rights have been abused.
5. Identify the "National Human Rights Commission" (NHRC).

Lesson Content:

1. Review: What are Human Rights? As we learned in Term 1 (Week 2), Fundamental Human Rights are the basic, non-negotiable freedoms and protections that every human being is entitled to, simply because they are human. They are guaranteed by **Chapter IV of the 1999 Nigerian Constitution**.

- *Examples:* Right to Life, Right to Dignity, Right to Fair Hearing, Right to Freedom of Expression, etc.

2. What is a Human Rights Abuse? A **Human Rights Abuse** (or violation) is any action, either by the government (e.g., the police) or by other citizens, that denies, violates, or takes away a person's fundamental rights.

3. Common Examples of Human Rights Abuses in Nigeria

1. **Extra-Judicial Killings / Police Brutality:** When security forces (like the police or army) kill or torture a suspect instead of arresting them and taking them to court. This violates the **Right to Life** and **Right to a Fair Hearing**.
2. **Child Labour:** Forcing a child under the age of 18 to do hard work (like hawking, mining, or being a house-help) that denies them an education and is harmful to their health. This violates the **Right to Dignity**.
3. **Human Trafficking:** (As seen in Term 1). This is modern-day slavery and violates the **Right to Dignity** and **Right to Freedom of Movement**.
4. **Denial of Fair Hearing:** Arresting and detaining a person in prison for many years without charging them or taking them to court.
5. **Gender Discrimination:** Denying a person (usually a girl or woman) a job, an inheritance, or an education simply because of their gender. This violates the **Right to Freedom from Discrimination**.

6. **Political Thuggery / Election Rigging:** Using violence to intimidate voters or changing election results. This violates the people's **Right to Vote** and choose their leaders.

4. Remedies for Human Rights Abuse (What can you do?) If your rights (or someone else's) are abused, you are not helpless. The Constitution provides remedies:

1. **Seek Justice in Court:** The most powerful remedy. A citizen can sue the person or government agency in the High Court to demand justice, compensation (money), and an end to the abuse.
2. **Report to the National Human Rights Commission (NHRC):** This is the main government agency in Nigeria created to *protect* and *promote* human rights. They can investigate claims of abuse and help victims.
3. **Report to Non-Governmental Organisations (NGOs):**
 - **Legal Aid Council:** A government-funded group that provides free lawyers to poor people who cannot afford one.
 - **Civil Society Organisations (CSOs):** Groups like Amnesty International, FIDA (International Federation of Women Lawyers), etc., who can help victims.
4. **Report to the Media:** Using newspapers, radio, and social media to expose the abuse to the public. This can create public pressure for the government to act.
5. **Public Protests:** (Right to Peaceful Assembly). Citizens can gather peacefully to protest against injustice.

Evaluation:

1. What is a "Human Rights Abuse"?
2. What is "child labour"? Which right does it violate?
3. What is "extra-judicial killing"? Which right does it violate?
4. List three common examples of human rights abuses in Nigeria.
5. What is the full meaning of **NHRC**, and what is its main job?

Assignment:

1. In your own words, define "Human Rights Abuse."

2. What is the difference between "gender discrimination" and "ethnic discrimination"?
3. What is the "Legal Aid Council," and who does it help?
4. How can the media (like newspapers or TV) be a remedy for human rights abuse?
5. If you see a police officer beating a suspect, what should you do? (e.g., safely record, report to NHRC, *not* intervene physically).

WEEK 6: ELECTORAL MALPRACTICES

Topic: Electoral Malpractices

Breakdown (Subtopics):

- Meaning and examples of electoral malpractices
- Effects of malpractice on democracy

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Electoral Malpractice."
2. Recall the role of INEC (from Term 1).
3. List and explain at least five common forms of electoral malpractice.

4. Explain how electoral malpractice destroys democracy and national development.
5. Suggest solutions to prevent electoral malpractice.

Lesson Content:

1. What is Electoral Malpractice?

- **Definition:** Electoral Malpractice refers to any **illegal, unethical, or fraudulent** act committed *before, during, or after* an election with the deliberate aim of influencing the results and preventing a free and fair choice.
- It is a form of corruption and a serious crime against democracy.

2. Examples of Electoral Malpractices in Nigeria

1. Rigging (Manipulation of Results):

- **Ballot-Box Stuffing:** Illegally adding fake ballot papers into the box.
- **Changing Results:** Falsifying the numbers at the collation centre.
- **BVAS/Card Reader Manipulation:** Bypassing or refusing to use the official accreditation machines.

2. Vote Buying and Selling:

- **Buying:** A politician gives money, food (like rice), or cloth to people at the polling unit to force them to vote for their party.
- **Selling:** A voter agrees to sell their vote for money. (Both the buyer and seller are criminals).

3. Intimidation and Violence:

- Using thugs, political touts, or cultists to threaten, beat, or even kill voters from the opposition, forcing them to stay away from the polling unit.

4. Underage Voting: Registering and using children (under 18) to vote.

5. Abuse of Incumbency: The person already in power (e.g., the President or Governor) uses government money, vehicles, and state-owned media (like NTA) to campaign for their own party, which is an unfair advantage.

6. Kidnapping or Bribing INEC Officials: Forcing or paying election officials to change the results.

3. Effects of Electoral Malpractice on Democracy Electoral malpractice is a "poison" that kills democracy.

1. **Leads to Bad Leadership:** When elections are rigged, the *best* and most popular candidates lose. The *worst*, most corrupt, and most violent candidates win.
2. **Loss of Public Trust (Apathy):** Citizens feel that "my vote does not count." They lose hope in democracy, stop voting, and stop participating in politics (this is called "voter apathy").
3. **Creates Illegitimate Government:** The government that comes to power through rigging is not seen as the real choice of the people. It has no "legitimacy."
4. **Leads to Post-Election Violence:** When people feel cheated, they often turn to violence, protests, and rioting, which can destroy property and lives.
5. **Slows Development:** A leader who rigged their way into office owes no loyalty to the people. They will spend their 4-year term *stealing* public money, not building schools or roads.

4. Solutions:

- A truly independent and well-funded INEC.
- Arrest and long jail terms for politicians, thugs, and INEC staff who are caught.
- Citizens refusing to sell their votes.
- Use of technology (like BVAS) to make rigging harder.

Evaluation:

1. What is electoral malpractice?
2. What is "ballot-box stuffing"?
3. What is "vote buying"?
4. Explain two major effects of electoral malpractice on Nigeria.
5. What is "voter apathy"?

Assignment:

1. List five different forms of electoral malpractice.
2. Who is an "incumbent," and how can they "abuse incumbency"?
3. Why is it wrong for a citizen to *sell* their vote?
4. How does electoral malpractice lead to bad leadership?
5. What do you think is the best solution to stop electoral malpractice in Nigeria?

WEEK 8: MEDIA AND SOCIETY

Topic: Media and Society

Breakdown (Subtopics):

- Roles of the media
- Influence of the media on citizenship

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Media."
2. List and differentiate the three main types of media.
3. Explain the four primary roles of the media in society.

4. Differentiate between the positive (e.g., watchdog) and negative (e.g., fake news) influences of the media.

Lesson Content:

1. What is the Media? The **Media** (plural of "medium") refers to all the channels of communication used to store and deliver information or news to a large audience (the public).

- The media is often called the "**Fourth Estate of the Realm**" (the 4th arm of government) because it is supposed to be a "watchdog" on the other three arms (Legislature, Executive, Judiciary).

2. Types of Media

1. **Print Media:** Mass communication in printed form.
 - *Examples:* Newspapers (e.g., *The PUNCH, Vanguard*), Magazines, Books.
2. **Broadcast Media:** Mass communication that is sent (broadcast) over the airwaves.
 - *Examples:* Radio, Television (e.g., *NTA, Channels TV, AIT*).
3. **New Media (or Social Media):** Mass communication using digital, internet-based technology.
 - *Examples:* Websites, Blogs, Social Networks (e.g., *Facebook, Twitter/X, Instagram, WhatsApp*).

3. Roles of the Media in Society The media has four main responsibilities:

1. **To Inform:** This is the primary role. To provide citizens with accurate, timely, and objective news about what is happening in the country and the world.
2. **To Educate:** To go beyond daily news and provide in-depth information and analysis.
 - *Examples:* Documentaries on history, health programs, debates on government policy.
3. **To Entertain:** To provide amusement and relaxation.
 - *Examples:* Movies, music, sports, reality TV shows.
4. **To Act as a "Watchdog" (The Agenda-Setting Role):**

- This is the most important role in a democracy. The media investigates the government, politicians, and big companies to expose corruption, human rights abuses, and incompetence.
- *Example:* An investigative journalist who discovers and reports that a politician stole public money.

4. Influence of the Media on Citizenship The media has a powerful effect (both positive and negative) on how citizens think and act.

- **Positive Influences:**

- **Accountability:** The media is the *voice of the people*. By exposing corruption (watchdog role), it holds leaders accountable.
- **Education:** It teaches citizens about their rights and duties, making them better citizens.
- **Mobilisation:** It can bring people together to solve a community problem or protest injustice.

- **Negative Influences:**

- **Fake News & Misinformation:** The rapid spread of lies (especially on Social Media) that can confuse citizens, damage reputations, and even cause violence.
- **Bias:** When a media house (e.g., a TV station owned by a politician) only shows one side of a story and is not objective.
- **Propaganda:** Using the media to spread harmful ideas or incite hatred against a tribe or religion.
- **Negative Values:** Some entertainment media can promote indecency, violence, and get-rich-quick (419, Yahoo-Yahoo) lifestyles.

Evaluation:

1. What is the media? Why is it called the "Fourth Estate"?
2. List the three main types of media and give one example of each.
3. What is the "watchdog" role of the media?
4. Explain one *positive* influence of the media on society.

5. What is "fake news," and why is it a negative influence?

Assignment:

1. Define Print Media, Broadcast Media, and Social Media.
2. List the four main roles of the media.
3. What is "media bias"?
4. How can social media (like WhatsApp) be used for both good and bad?
5. As a student, how can you protect yourself from "fake news"?

WEEK 9: INTERNATIONAL ORGANISATIONS

Topic: International Organisations

Breakdown (Subtopics):

- UN, AU, ECOWAS
- Roles in peace and security

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "International Organisation."
2. Identify ECOWAS as a regional organisation and state its key roles.
3. Identify the AU as a continental organisation and state its key roles.

4. Identify the UN as a global organisation and state its key roles.
5. Explain why Nigeria needs to be a member of these organisations.

Lesson Content:

1. What is an International Organisation?

An **International Organisation** is an organisation with members from multiple countries. These countries (called "member states") agree to work together to achieve common goals in areas like peace, security, trade, and human rights.

2. Major Organisations Nigeria Belongs To:

- **A. ECOWAS (Economic Community of West African States)**
 - **Level:** Regional (for West Africa only).
 - **Who:** A group of 15 West African countries (e.g., Nigeria, Ghana, Senegal, Cote d'Ivoire).
 - **Main Goal:** To promote **economic integration**.
 - **Roles and Achievements:**
 1. **Free Movement:** The ECOWAS Protocol allows citizens to travel, live, and work in any member state without a visa (this is why Nigerians can go to Ghana easily).
 2. **Peace and Security:** It has a peacekeeping force called **ECOMOG** (ECOWAS Monitoring Group), which famously helped to end civil wars in Liberia and Sierra Leone.
 3. **Economic:** Working towards a common currency (the "Eco").
- **B. AU (African Union)**
 - **Level:** Continental (for all of Africa).
 - **Who:** 55 member states (all countries in Africa). (It was formerly called the OAU - Organisation of African Unity).
 - **Main Goal:** To promote **unity, development, and peace** in Africa.
 - **Roles:**

1. **Peace and Security:** Deploys peacekeeping forces to stop conflicts (e.g., in Somalia, Sudan).
 2. **Development:** Works on pan-African projects like roads, trade (AfCFTA), and health (Africa CDC).
 3. **Democracy:** Promotes good governance and can *suspend* member states that have a military coup.
 4. **Solidarity:** Speaks with "one voice" for Africa on the world stage.
- **C. UN (United Nations)**
 - **Level:** Global (for the whole world).
 - **Who:** 193 member states. Formed in 1945 after World War II to prevent another world war.
 - **Main Goal:** To maintain **international peace and security**.
 - **Roles:**
 1. **Peacekeeping:** Deploys "Blue Helmet" soldiers (including many from Nigeria) to conflict zones.
 2. **Human Rights:** Promotes and protects human rights (via the Universal Declaration of Human Rights).
 3. **Humanitarian Aid:** Provides food, medicine, and shelter to victims of war and natural disasters through its specialized agencies:
 - **UNICEF:** (United Nations Children's Fund) - Cares for children.
 - **WHO:** (World Health Organisation) - Fights diseases.
 - **WFP:** (World Food Programme) - Provides food aid.

Evaluation:

1. What is an international organisation?
2. What does ECOWAS stand for, and what is its main goal?
3. What does AU stand for, and what is its main goal?
4. What does UN stand for, and what is its main goal?
5. What is UNICEF, and what does it do?

Assignment:

1. What is the full meaning of ECOMOG, and what did it do?
2. What is the name of the old organisation that came before the AU?
3. List three specialized agencies of the UN (like WHO, UNICEF).
4. Why is it important for Nigeria to be a member of the AU?
5. What is the "ECOWAS Protocol on Free Movement"?

WEEK 10: GLOBAL CITIZENSHIP

Topic: Global Citizenship

Breakdown (Subtopics):

- Meaning of Global Citizenship
- Qualities of a good global citizen

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Global Citizenship."
2. Explain the concept of the "global village."
3. Differentiate between being a citizen of a *country* and a citizen of the *world*.

4. List and explain at least four qualities of a good global citizen.

Lesson Content:

1. What is Global Citizenship?

- **Definition:** Global Citizenship is the idea that a person's identity, awareness, and responsibilities are not limited to their own local community or country. It is the belief that all human beings are part of a single "**global village**" and share a responsibility for the planet and for each other.
- **The Global Village:** This term means that because of technology (like the internet, social media, and air travel), the world is now more interconnected than ever before. A problem in one country (like COVID-19 in China or a war in Ukraine) can now affect the *entire* world very quickly.

2. National Citizen vs. Global Citizen

- A **National Citizen** (e.g., a Nigerian citizen) has legal rights and duties to *one country*. Their focus is national.
- A **Global Citizen** is a *mindset*. It is a person who:
 - Sees themselves as a member of the human race, not just one tribe or nation.
 - Cares about issues that affect the whole planet.

3. Qualities of a Good Global Citizen A good global citizen demonstrates the following:

1. **Global Awareness:** They are interested in and aware of what is happening in other parts of the world (they don't just care about their local news). They seek to understand global issues like:
 - **Climate Change:** (How pollution is warming the planet).
 - **Global Poverty:** (The gap between rich and poor countries).
 - **Human Rights:** (Fighting for the rights of people everywhere).
2. **Responsibility (Personal and Social):** They understand that their own actions can have a global impact.

- *Example:* They try to **reduce, reuse, and recycle** to help fight climate change.
- *Example:* They refuse to buy products made with child labour.
- 3. **Empathy and Tolerance:** They respect and value diversity. They are not racist or xenophobic (hateful of foreigners). They try to understand different cultures, religions, and perspectives.
- 4. **Cooperation and Action:** They are willing to act to make the world a better place. This can be:
 - *Small Actions:* Donating to a charity, correcting someone who makes a racist joke, saving water.
 - *Big Actions:* Volunteering, becoming a doctor to help poor communities, or working for an international organisation like the UN.

Evaluation:

1. What is "global citizenship"?
2. What is the "global village"?
3. What is the main difference between a *national citizen* and a *global citizen*?
4. List three qualities of a good global citizen.
5. Give one example of a global problem that requires a global solution.

Assignment:

1. Define "global citizenship" in your own words.
2. Define "xenophobia" (look it up).
3. What is "climate change"?
4. List three *small* actions you can take this week to be a better global citizen (e.g., saving water, not littering, reading news about another country).
5. Do you think it is important to be a global citizen? Why or why not?

WEEK 11: REVISION

Topic: Revision

Breakdown (Subtopics):

- Comprehensive review of all topics from the term.

Performance Objectives: By the end of this lesson, students should be able to:

1. Recall and define the key concepts of the term.
2. Explain the causes and effects of major social problems.
3. Discuss the roles of national and international agencies in solving problems.

Lesson Content:

1. Summary of Term 2 Topics:

- **Week 1 (Population):** Population (number of people), Census (counting people), Overpopulation (too many people for available resources). *Effects:* pressure on schools/hospitals, unemployment, crime.
- **Week 2 (Social Problems):** Drug Abuse (harmful use), Cultism (secret gangs), Prostitution, Terrorism (violence for political goals).
- **Week 3 (Crime):** Any act against the law. *Agencies:* NPF (internal police), Armed Forces (external threats), DSS (internal intelligence), NSCDC (infrastructure).
- **Week 4 (Human Rights Abuse):** Violating citizens' rights. *Examples:* Child labour, police brutality. *Remedies:* Courts, NHRC, NGOs (Legal Aid), Media.
- **Week 6 (Electoral Malpractice):** Illegal acts to win an election. *Examples:* Vote buying, rigging. *Effects:* Bad leadership, voter apathy.
- **Week 8 (Media):** Channels of communication (Print, Broadcast, Social). *Roles:* Inform, Educate, Entertain, Watchdog. *Problems:* Fake news, Bias.
- **Week 9 (Int'l Organisations):** ECOWAS (West Africa), AU (Africa), UN (World). Roles in peace, security, and development.

- **Week 10 (Global Citizenship):** Being a responsible member of the "global village."
Qualities: Awareness, Empathy, Responsibility (e.g., fighting climate change).

2. Class Activity: Connecting the Dots

- How does Overpopulation (Week 1) lead to Social Problems (Week 2) and Crime (Week 3)?
- How can Electoral Malpractice (Week 6) lead to Human Rights Abuses (Week 4)?
- What is the role of the Media (Week 8) in stopping Human Rights Abuses (Week 4) and Electoral Malpractice (Week 6)?
- How is the UN (Week 9) related to Global Citizenship (Week 10)?

Evaluation: This week's evaluation is the Second Term Examination.

Assignment:

1. Study all notes from Week 1 to Week 10 for the examination.
2. Define: NAPTIP, INEC, NHRC, DSS, and NSCDC.
3. In your opinion, what is the single biggest *social problem* facing Nigeria today (from Week 2) and why?

THIRD TERM – JSS 2 SOCIAL AND CITIZENSHIP STUDIES

WEEK 1: ECONOMIC VALUES

Topic: Economic Values

Breakdown (Subtopics):

- Thrift, saving, investment, entrepreneurship

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Economic Values."
2. Define "Thrift" and explain its importance.

3. Differentiate between "Saving" and "Investment."
4. Define "Entrepreneurship" and list its key characteristics.
5. Explain how these values contribute to personal and national wealth.

Lesson Content:

1. What are Economic Values?

Economic Values are the principles, habits, and beliefs that guide a person's behaviour in earning, managing, and spending money. They are the financial "civic virtues" that help individuals and nations become wealthy and stable. A society that values hard work and saving (like China or Germany) will develop faster than a society that values "get-rich-quick" schemes and wasteful spending.

2. Key Economic Values

- **A. Thrift**
 - **Definition:** Thrift is the quality of being careful, prudent, and wise with money and other resources. It means *avoiding waste*.
 - **It is not just "being cheap":** A cheap person buys the lowest quality shoe, which spoils quickly. A *thrifty* person buys a good quality shoe that lasts longer, saving money in the long run.
 - **Examples:** Turning off lights when you leave a room, mending clothes instead of throwing them away, finishing your food, and comparing prices before buying.
 - **Importance:** Thrift is the foundation of wealth. It allows you to create a "surplus" (extra money).
- **B. Saving**
 - **Definition:** Saving is the act of setting aside a portion of your current income for *future use*. It is the direct result of being thrifty.
 - **Purpose:** To have money for emergencies (e.g., unexpected illness), for planned goals (e.g., buying a phone, paying school fees), or for investment.
 - **Where to Save:** At home (piggy bank), in a bank (Savings Account), or in a cooperative society.

- **Saving is "Idle Money":** When money is in a savings account, it is safe, but it is not growing much.
- **C. Investment**
 - **Definition:** Investment is the act of using your saved money (capital) to buy something with the expectation that it will **generate more money** (a profit or return) in the future.
 - **Saving vs. Investment:**
 - You **save** money to *protect* it.
 - You **invest** money to *grow* it.
 - **Key Idea:** Investment involves *risk*. You could lose your money. Saving in a bank is very low risk.
 - **Examples:** Using your savings to buy a shop and start a business, buying shares in a company (like Dangote Cement), buying land (hoping the price goes up), or investing in education (to get a better job).
- **D. Entrepreneurship**
 - **Definition:** Entrepreneurship is the process of identifying a business opportunity, gathering the resources (money, people, ideas), and taking the *risk* to start a new business in the hopes of making a profit. (This was also covered in Term 2, Week 8, in IRS).
 - **Characteristics:** An entrepreneur is a risk-taker, creative, a problem-solver, and persistent.
 - **Importance:** This is the most active economic value. Entrepreneurs don't just save or invest; they *create* new wealth, new products, and new jobs for others.

3. How These Values Lead to Development:

- **Personal:** Thrift (avoiding waste) -> Saving (storing the surplus) -> Investment (using the surplus to grow) -> Entrepreneurship (creating a business) -> **Personal Wealth.**
- **National:** When all citizens practice these values, the nation grows. There are more businesses, more jobs, more goods produced, and more tax revenue to build roads and schools.

Evaluation:

1. What are "economic values"?
2. What is "thrift," and how is it different from "being cheap"?
3. What is the main difference between "saving" and "investment"?
4. What is "entrepreneurship"?
5. Why is "investment" considered riskier than "saving"?

Assignment:

1. Define Thrift, Saving, Investment, and Entrepreneurship in your own words.
2. "A thrifty student" and "a stingy student." Explain the difference.
3. A woman saves N5,000 in a piggy bank. A man uses N5,000 to buy chickens to sell eggs.
Who is saving, and who is investing? Explain.
4. List two characteristics of an entrepreneur.
5. How can you, as a student, practice the value of "thrift" in your daily life? (List two ways).

WEEK 2: TAXATION AND CIVIC DUTY

Topic: Taxation and Civic Duty

Breakdown (Subtopics):

- Meaning of Tax and Taxation
- Types of Taxes
- Importance of paying tax for national development

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Tax" and "Taxation."
2. Differentiate between "Direct Tax" and "Indirect Tax" and give examples.
3. Identify the agency responsible for collecting federal tax in Nigeria (FIRS).
4. Explain at least four reasons why paying tax is a crucial civic duty.
5. Analyze the consequences of tax evasion.

Lesson Content:

1. What is Tax?

A **Tax** is a **compulsory financial payment** (money) that citizens and businesses are required to pay to the government. It is *not* optional and it is *not* a payment for a specific service. It is a civic duty (as seen in Term 1, Week 2).

Taxation is the *system* or *process* by which the government collects taxes from the people. The main agency for this at the federal level is the **Federal Inland Revenue Service (FIRS)**.

2. Types of Taxes

There are two main categories of tax:

- **A. Direct Tax**

- **Definition:** This is a tax paid *directly* by the person or company to the government. The person feels the burden directly.
- **Examples:**
 1. **Personal Income Tax (PAYE - Pay As You Earn):** A portion of a worker's salary paid to the government every month.
 2. **Company Income Tax:** A tax on the profits made by companies (like banks, MTN, Dangote).
 3. **Tenement Rate:** A tax paid by property (house) owners to the local government.

- **B. Indirect Tax**

- **Definition:** This is a tax that is *hidden* in the price of goods and services. The tax is collected by the seller, who then pays it to the government. The buyer (citizen) pays the tax without often realizing it.
- **Examples:**

1. **Value Added Tax (VAT):** A small tax (7.5% in Nigeria) that is added to the price of goods and services you buy (e.g., in a supermarket, a restaurant, or for your phone data).
2. **Customs Duty (Tariffs):** A tax paid on goods *imported* into the country. This tax is included in the final price of the imported car or phone.

3. Importance of Paying Tax (Why must we pay?) Tax is the *lifeblood* of a nation. It is the main way a government gets the money to function and develop the country.

1. **Provision of Social Services:** Tax money is used to build and maintain public schools, government hospitals, and universities.
2. **Development of Infrastructure:** Tax money pays for building roads, bridges, airports, dams, and ensuring electricity and clean water supply.
3. **National Security:** Tax pays the salaries of the police, army, navy, and other security agencies to protect the citizens.
4. **Running the Government:** Tax pays the salaries of all public servants (teachers, doctors, civil servants) and the costs of running the government.
5. **Redistribution of Wealth:** The government uses taxes from the rich to provide services for the poor, bridging the gap.

4. Consequences of Tax Evasion

- **Tax Evasion** is the *illegal* act of not paying your taxes. It is a serious crime.
- **Consequences:**
 1. **Lack of Development:** If people don't pay tax, the government will not have money to build roads or schools. The country will collapse.
 2. **Increased Foreign Debt:** The government will be forced to borrow money from other countries (like China or the World Bank), putting the nation in debt.
 3. **Legal Penalties:** If caught, the tax evader must pay heavy fines and can be sent to jail.

Evaluation:

1. What is "tax"?

2. What is "taxation"?
3. What is the main difference between a Direct Tax and an Indirect Tax?
4. What does "VAT" stand for? Is it direct or indirect?
5. List three reasons why it is important for citizens to pay their taxes.

Assignment:

1. What is "tax evasion," and why is it a crime?
2. What is the full meaning of FIRS?
3. "PAYE" is an example of what kind of tax?
4. "Customs Duty" is an example of what kind of tax?
5. Explain how the money you pay for your phone data (VAT) can be used to pay your teacher's salary.

WEEK 3: ENVIRONMENTAL CITIZENSHIP

Topic: Environmental Citizenship

Breakdown (Subtopics):

- Sanitation, waste management, protection of the environment

ENVIROMENTAL CITIZENSHIP

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Environment" and "Environmental Citizenship."
2. Define "Sanitation" and list 3 good sanitation practices.
3. Define "Waste Management" and explain the "3 Rs" (Reduce, Reuse, Recycle).
4. Explain the dangers of a poor environment (e.g., pollution, flooding).

5. Describe the role of a good citizen in protecting their environment.

Lesson Content:

1. Key Definitions

- **The Environment:** This is our total surroundings. It includes all living things (people, animals, plants) and non-living things (air, water, soil, sunlight) that make up our world.
- **Environmental Citizenship:** This is the *responsibility* of every citizen to protect, preserve, and improve their environment. It is the understanding that our actions have a direct impact on the health of our planet and our community.

2. Sanitation

- **Definition:** Sanitation refers to the public health practices related to providing clean, safe living conditions. It focuses on the prevention of disease by:
 1. Providing clean drinking water.
 2. The safe disposal of human waste (urine and faeces).
 3. The general cleanliness of the home and community.
- **Good Sanitation Practices:**
 - Not urinating or defecating in public ("open defecation").
 - Washing hands with soap and water after using the toilet.
 - Covering food to protect it from flies.
 - Keeping gutters and drainages clear of refuse.
- **Dangers of Poor Sanitation:** Leads to diseases like **Cholera**, **Typhoid**, and **Dysentery**.

3. Waste Management

- **Definition:** Waste Management is the *process* of collecting, transporting, processing, and disposing of waste (refuse, garbage, "pure water" sachets, etc.).
- **Poor Waste Management (Dangers):**
 - **Flooding:** When people dump refuse in gutters, it blocks the flow of water, causing floods when it rains.

- **Pollution:** Waste pollutes the land, air (when burned), and water, killing fish and spreading disease.
- **Ugliness:** It makes the environment look ugly and unwelcoming.

• **The 3 Rs (A Good Citizen's Role):**

1. **REDUCE:** Use less. (e.g., Use a reusable water bottle instead of buying 10 "pure water" sachets).
2. **REUSE:** Use an item again. (e.g., Use an old ice cream container to store food; donate old clothes).
3. **RECYCLE:** Convert waste into a new product. (e.g., Plastic bottles, cans, and paper can be recycled).

4. Role of an Environmental Citizen A good environmental citizen does not just wait for the government. They take action:

1. **Disposes of waste properly:** Bags all refuse and puts it in the designated waste bin (e.g., for LAWMA in Lagos).
2. **Does not litter:** Never throws waste on the street or out of a car window.
3. **Clears drainages:** Participates in community and state sanitation days to clear gutters.
4. **Plants trees (Afforestation):** Plants trees and flowers to fight erosion, provide shade, and make the environment beautiful. Does not cut down trees (deforestation).
5. **Reports pollution:** Reports activities like oil spills or industries dumping chemical waste into rivers.

Evaluation:

1. What is "Environmental Citizenship"?
2. What is "Sanitation"?
3. List three dangers of poor waste management.
4. What are the "3 Rs" of waste management?
5. List three actions a good environmental citizen should take.

Assignment:

1. What is the difference between "deforestation" and "afforestation"?
2. What is "open defecation," and what disease can it cause?
3. Explain how dumping refuse in the gutter can lead to flooding.
4. Give a practical example of "Reducing," "Reusing," and "Recycling" in your home.
5. What is the name of the government agency responsible for waste management in your state? (e.g., LAWMA in Lagos).

WEEK 4: HUMAN RIGHTS INSTITUTIONS

Topic: Human Rights Institutions

Breakdown (Subtopics):

- National Human Rights Commission (NHRC)
- Legal Aid Council
- Non-Governmental Organisations (NGOs)
- Roles of these institutions

Performance Objectives: By the end of this lesson, students should be able to:

1. Identify that these institutions are "remedies" for human rights abuse (from Term 2, Week 4).
2. Explain the primary role of the National Human Rights Commission (NHRC).
3. Explain the primary role of the Legal Aid Council.
4. Define "NGO" and explain the role of human rights NGOs.
5. Differentiate between a government institution (NHRC) and a non-governmental one (NGO).

Lesson Content:

1. Introduction: What are Human Rights Institutions? As we learned in Term 2, when a citizen's fundamental rights (like the Right to Life or Fair Hearing) are abused, they are not helpless. Human Rights Institutions are the **places a citizen can go to seek help, protection, and justice**. They are the "referees" that protect citizens from abuse.

2. Government Institutions (Statutory Bodies)

- **A. The National Human Rights Commission (NHRC)**
 - **Who they are:** A **government** institution established by law (the NHRC Act). It is independent, but funded by the government.
 - **Primary Roles:**
 1. **Investigation:** To receive and investigate *all* complaints of human rights abuses from any person or group.
 2. **Monitoring:** To monitor prisons, police cells, and other places of detention to ensure they meet human rights standards.
 3. **Advising:** To advise the government on laws and policies related to human rights.
 4. **Education:** To educate the public (like students) about their fundamental rights.
 - **Power:** They can order compensation for victims and work with the police to get abusers arrested.
- **B. The Legal Aid Council of Nigeria**

- **Who they are:** A **government** agency.
- **Primary Role:** To provide **free legal services (lawyers)** to poor Nigerian citizens who cannot afford to hire one.
- **Why it is important:** The Constitution guarantees the "Right to a Fair Hearing," which includes the right to a lawyer. But lawyers are expensive. If a poor person is arrested, they might go to jail simply because they cannot afford a lawyer. The Legal Aid Council provides that lawyer for free, ensuring that poverty does not deny justice.
- **Who they help:** They focus on serious criminal cases (like robbery, murder) and civil cases (like a widow being kicked out of her home).

3. Non-Governmental Organisations (NGOs)

- **Definition:** An NGO is a **non-profit, private organisation** that is *not* part of the government. They are run by private citizens and are funded by public donations.
- **Role in Human Rights:** Human rights NGOs (also called Civil Society Organisations) are crucial "watchdogs." Their roles include:
 1. **Advocacy:** They are a loud voice for the voiceless. They protest, use the media, and pressure the government to stop abuses.
 - **Legal Support:** Some (like FIDA) have their own lawyers who take on cases for free.
 - **Research and Reports:** They investigate and publish detailed reports on abuses, which are used by the media and the UN.
- **Examples of Human Rights NGOs in Nigeria:**
 - **Amnesty International (Nigeria):** A global group that campaigns against torture and unfair imprisonment.
 - **FIDA (Federación Internacional de Abogadas / International Federation of Women Lawyers):** An NGO of female lawyers who fight for the rights of women and children.
 - **Civil Liberties Organisation (CLO):** One of Nigeria's oldest human rights groups.

Evaluation:

1. What is the main purpose of a human rights institution?
2. What is the full meaning of NHRC?
3. What is the main job of the Legal Aid Council?
4. What is an NGO? How is it different from the NHRC?
5. What does FIDA stand for, and who do they primarily help?

Assignment:

1. Explain the main roles of the National Human Rights Commission (NHRC).
2. Why is the Legal Aid Council necessary for ensuring a "fair hearing"?
3. List two government-run human rights institutions and two non-governmental (NGO) ones.
4. How do human rights NGOs use "advocacy" to help victims?
5. If you witness a human rights abuse, which of these organizations would you report to first, and why?

WEEK 6: CORRUPTION AND ACCOUNTABILITY

Topic: Corruption and Accountability

Breakdown (Subtopics):

- Meaning of Corruption and Accountability
- Transparency and Whistleblowing
- Anti-corruption agencies

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Corruption" and give at least 3 examples.
2. Define "Accountability" and "Transparency."

3. Define "Whistleblowing" and explain its importance.
4. Identify the main anti-corruption agencies in Nigeria (EFCC, ICPC).
5. Explain the effects of corruption on national development.

Lesson Content:

1. Key Definitions

- **Corruption:** This is the **abuse of public office or entrusted power for private gain**. It is a dishonest and fraudulent act committed by a person in a position of power.
 - **Examples:**
 1. **Bribery:** A police officer demanding N1,000 from a driver; a student giving money to a teacher for marks.
 2. **Embezzlement:** A politician stealing money from the government account meant for building a hospital.
 3. **Nepotism/Favouritism:** A manager hiring his unqualified cousin instead of a qualified stranger.
 4. **Extortion:** A customs officer refusing to release goods unless a "fee" is paid.
- **Accountability:** This is the opposite of corruption. It is the principle that a person (especially in public office) is **responsible and answerable** for their actions and decisions. It means a leader *must* be able to explain their actions and accept the consequences (good or bad).
- **Transparency:** This means "openness." It is the act of doing things in a way that is *visible* and *understandable* to the public.
 - *Example:* A transparent government publishes its budget so all citizens can see how their tax money is being spent.
 - **Transparency is the *antidote* to corruption.** Corruption thrives in secrecy.

2. Whistleblowing

- **Definition:** A **whistleblower** is a person (usually an insider, like an employee) who **exposes** and **reports** secret illegal, corrupt, or dishonest activities happening in their organization (a government ministry or a private company).

- **Importance:** Whistleblowers are essential for accountability. They take a huge personal risk (they may be fired or attacked) to expose the truth for the public good. They are heroes in the fight against corruption.

3. Anti-Corruption Agencies These are specialized government agencies (Public Service) created to fight corruption.

1. EFCC (Economic and Financial Crimes Commission):

- **Main Focus:** To fight *financial* crimes ("money crimes").
- **Their Job:** They investigate and prosecute people involved in money laundering, internet fraud (Yahoo-Yahoo), 419, bank fraud, and public embezzlement. They are known for their "EFCC" red vests.

2. ICPC (Independent Corrupt Practices and Other Related Offences Commission):

- **Main Focus:** To fight *public service* corruption (corruption *within* the government).
- **Their Job:** They investigate bribery, nepotism, and other corrupt acts by public servants. They also work on *preventing* corruption by educating the public and closing loopholes in the system.

4. Effects of Corruption on National Development (This is the link to Week 8) Corruption is the single biggest obstacle to Nigeria's development.

1. **Destroys Public Services:** Money for hospitals, schools, and roads is stolen. This leads to bad healthcare and poor education.
2. **Discourages Investment:** Foreign companies will not invest in a country where they have to pay bribes to get permits.
3. **Increases Poverty:** Public funds meant to help the poor are stolen by the rich elite.
4. **Promotes Incompetence:** When people get jobs through nepotism (not merit), the best people are not in charge, and the public service fails.
5. **Leads to Injustice:** People lose trust in the police and courts, believing that only "big men" can get justice.

Evaluation:

1. What is "corruption"? Give two examples.
2. What is the difference between "accountability" and "transparency"?
3. What is a "whistleblower"?
4. What is the full meaning of EFCC? What is their main job?
5. What is the full meaning of ICPC? What is their main job?

Assignment:

1. Define Embezzlement and Nepotism.
2. How does "transparency" help to fight "corruption"?
3. Why is being a whistleblower often a dangerous job?
4. What is the difference between the main focus of the EFCC and the ICPC?
5. Explain two ways corruption has negatively affected your own community.

WEEK 8: NATIONAL DEVELOPMENT

Topic: National Development

Breakdown (Subtopics):

- Meaning of National Development
- Indicators of Development
- The Citizen's Role in National Development

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "National Development."
2. Differentiate between "economic growth" and "national development."

3. List at least four "indicators" (signs) of a developed nation.
4. List and explain at least three roles of a citizen in promoting national development.

Lesson Content:

1. What is National Development?

- **Definition:** National Development is the process by which a country improves the **overall quality of life** of *all* its citizens.
- It is *not* just about money. It is about positive change in the economic, social, political, and technological life of a nation.

2. Economic Growth vs. National Development

- **Economic Growth:** This just means the country's *money* is increasing (e.g., the GDP is growing). A country can have high economic growth (e.g., from selling oil) but still be "undeveloped" if the money is stolen by a few and the majority are poor.
- **National Development:** This means the *people's lives* are getting better. It is "growth + progress."
 - *Example:* Nigeria in the 1970s had a massive "Oil Boom" (Economic Growth), but it did not lead to sustainable National Development because of corruption.

3. Indicators of Development (How do we know a country is developed?) You can measure a country's development by looking at these signs:

1. **High Standard of Living:** Citizens have access to basic needs like clean water, stable electricity, good housing, and enough food.
2. **Good Infrastructure:** The country has well-maintained roads, bridges, railways, and fast internet.
3. **Good Social Services:** There are high-quality, affordable public schools and hospitals for everyone.
4. **Low Unemployment:** Most citizens who want a job can find one that pays a good wage.

5. **Low Poverty and Crime Rates:** Most people are not poor, and the society is safe and secure.
6. **High Life Expectancy:** People live longer, healthier lives (e.g., to 70 or 80 years old).
7. **Political Stability:** The country is peaceful and has a stable, democratic government.

4. The Citizen's Role in National Development A country cannot develop if its citizens are not involved. The government cannot do it alone. A citizen's roles include:

1. **Practicing Civic Virtues:** Being honest, disciplined, and tolerant (Term 1, Week 6). An honest workforce is productive. A tolerant society is peaceful and stable for investment.
2. **Paying Taxes:** (Week 2). This provides the *money* (funds) that the government needs to build the infrastructure (roads, hospitals) for development.
3. **Education and Skill Acquisition:** Getting a good education and learning a useful skill (like IT, plumbing, medicine). A skilled and educated population is the most important resource for development.
4. **Entrepreneurship:** (Week 1). Starting new businesses (even small ones) that create jobs, solve problems, and produce goods.
5. **Protecting Public Property:** (Week 3). Being a good environmental citizen, not vandalizing pipelines, and not littering.
6. **Being Accountable:** Holding leaders accountable (Week 6), fighting corruption, and voting for good leaders.

Evaluation:

1. What is "National Development"?
2. What is the main difference between "Economic Growth" and "National Development"?
3. List four "indicators" (signs) of a developed country.
4. List three roles a citizen must play in national development.
5. How does paying tax (Week 2) contribute to national development?

Assignment:

1. In your own words, explain why a country can have "economic growth" but not "national development."
2. List two indicators of development related to *health* and two related to *infrastructure*.
3. How does corruption (Week 6) *stop* national development?
4. How does entrepreneurship (Week 1) *promote* national development?
5. As a JSS2 student, what is the *most important* role you can play *right now* to help Nigeria's future development? (Hint: Education).

WEEK 9: SOCIAL INSTITUTIONS

Topic: Social Institutions

Breakdown (Subtopics):

- Meaning of Social Institutions
- The Family, Religion, Education
- Their civic functions

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Social Institution."
2. Identify the family as the primary social institution and state its civic functions.

3. Explain the civic functions of religious institutions (mosques, churches).
4. Explain the civic functions of educational institutions (schools, universities).

Lesson Content:

1. What is a Social Institution?

A **Social Institution** is a major, organized system of social norms, values, and practices that is designed to meet the basic needs of a society and maintain order.

- They are the "pillars" that hold a society together. They are not just buildings; they are the *systems* that shape our behaviour.
- The five main social institutions in every society are: **Family, Religion, Education, Government, and Economy**. This lesson focuses on the civic functions of the first three.

2. The Family

- **Definition:** The family is the **primary and most basic** social institution. It is the first group a child belongs to.
- **Civic Functions (How it builds a good citizen):**
 1. **Procreation and Rearing:** The family produces and raises the *next generation* of citizens.
 2. **First Agent of Socialisation:** The family is the *first school*. It teaches the child basic social norms, values, and language.
 3. **Teaching Basic Civic Virtues:** The family is where a child first learns honesty, discipline, respect, and obedience to rules (family rules).
 4. **Emotional Security:** A stable family provides the love and security a child needs to grow into a confident and law-abiding adult.
 - *A breakdown in the family (e.g., bad parenting) is a major cause of social problems like crime and cultism.*

3. Religious Institutions

- **Definition:** These are the systems of belief and worship (e.g., Islam, Christianity) and their organizations (e.g., mosques, churches).
- **Civic Functions:**
 1. **Teaching Morality:** Religion provides a strong moral code (e.g., "Thou shalt not kill," "Do not steal") that teaches citizens to be good and just.
 2. **Promoting Civic Virtues:** It teaches virtues like honesty, integrity, tolerance, and cooperation.
 3. **Providing Social Services:** Many religious bodies build and run schools, hospitals, and orphanages, which helps national development.
 4. **Social Control:** It helps maintain order by teaching followers to fear God and be accountable for their actions (e.g., Belief in the Day of Judgment).

4. Educational Institutions

- **Definition:** These are the formal systems for teaching and learning (e.g., primary schools, secondary schools, universities, technical colleges).
- **Civic Functions:**
 1. **Transmitting Knowledge and Skills:** This is the main function. It creates the skilled workforce (doctors, engineers, teachers, entrepreneurs) needed for national development.
 2. **Teaching Citizenship:** This is where you formally learn about your rights, duties, and how the government works (e.g., in this Social Studies class).
 3. **Promoting National Unity:** In school, children from different tribes and religions (Igbo, Yoruba, Hausa, etc.) are brought together to learn and play, which helps to break down prejudice and promote tolerance.
 4. **Promoting Innovation:** Universities and research centres develop the new science and technology that solve society's problems.

Evaluation:

1. What is a "social institution"?
2. What is the "primary" (first) social institution?

3. List two civic functions of the family.
4. List two civic functions of religious institutions.
5. List two civic functions of educational institutions.

Assignment:

1. Define the three social institutions discussed (Family, Religion, Education).
2. What does it mean to say the family is the "first agent of socialisation"?
3. How do religious institutions help to *control crime*?
4. How do schools (educational institutions) help to promote *national unity*?
5. In your opinion, which social institution has the *most* important job in building a good citizen? Explain your answer.

WEEK 10: CIVIC CHALLENGES IN NIGERIA

Topic: Civic Challenges in Nigeria

Breakdown (Subtopics):

- Poverty, illiteracy, unemployment

CIVIC CHALLENGES IN NIGERIA

Performance Objectives: By the end of this lesson, students should be able to:

1. Define "Poverty," "Illiteracy," and "Unemployment."
2. Explain the main causes of poverty in Nigeria.
3. Explain the relationship between illiteracy and poverty.
4. Explain the relationship between unemployment, poverty, and crime (from Term 2).

5. Suggest a citizen's role in helping to solve these challenges.

Lesson Content:

1. What are Civic Challenges? Civic Challenges are major, widespread problems that threaten the well-being of citizens and the stability of the nation. They are the *obstacles* to national development. This lesson focuses on three of the biggest, which are all interconnected.

2. The Three Challenges

A. Poverty

- **Definition:** Poverty is a state where a person or family lacks the *basic human needs* to live a decent life. This includes:
 - Lack of food (hunger and malnutrition).
 - Lack of clean water and sanitation.
 - Lack of access to basic healthcare.
 - Lack of adequate housing (living in slums).

Causes in Nigeria:

1. **Corruption:** (Week 6). Money meant for the poor is stolen.
2. **Unemployment:** (See below). No job = no income = poverty.
3. **Poor Governance:** Failure to provide stable electricity, good roads, and security, which prevents businesses from growing.
4. **Illiteracy:** Lack of education or skills means a person can only get low-paying jobs.

B. Illiteracy

- **Definition:** Illiteracy is the inability to **read and write** in any language.
- **Impact:** In the modern world, illiteracy is a major disability. An illiterate person:
 - Cannot participate fully in democracy (cannot read a manifesto).
 - Cannot get a good, high-paying job.

- Is easily cheated, scammed, or tricked.
- Is more likely to be poor.
- **Connection:** Illiteracy traps families in a *cycle of poverty*. Illiterate parents cannot get good jobs, so they cannot afford to send their children to school. The children then grow up to be illiterate, and the cycle continues.

C. Unemployment

- **Definition:** Unemployment is the situation where a person is *actively* looking for a job but cannot find one.
- **Causes in Nigeria:**
 0. **Overpopulation:** (Term 2, Week 1). More graduates leaving school every year than there are new jobs.
 1. **Economic Problems:** Lack of electricity and high corruption make it hard for businesses to start and grow.
 2. **Skills Mismatch:** Universities produce graduates with "book knowledge" but not the *practical skills* (like IT, mechanics, plumbing) that employers need.
- **The Connection (The Vicious Triangle):**
 - Unemployment leads to Poverty.
 - Poverty leads to Illiteracy (parents can't afford school).
 - Illiteracy leads to Unemployment (can't get a job).
 - **This triangle is the root cause of Crime and Social Problems (Term 2).**

3. The Citizen's Role in Solving These Challenges We cannot wait for the government.

1. **Break the Cycle of Illiteracy:** As a student, your *most important* role is to **take your education seriously**. This is your personal fight against your own future poverty and unemployment.
2. **Embrace Entrepreneurship (Week 1):** Instead of just waiting for a job ("unemployment"), citizens should aim to *create* jobs, even in a small way.

3. **Pay Taxes (Week 2):** To give the government the funds to fight poverty and build schools.
4. **Fight Corruption (Week 6):** Hold leaders accountable so that money for poverty alleviation is not stolen.

Evaluation:

1. Define Poverty.
2. Define Illiteracy.
3. Define Unemployment.
4. Explain the "cycle of poverty" (how illiteracy leads to poverty).
5. Explain how unemployment leads to crime.

Assignment:

1. List three main causes of poverty in Nigeria.
2. List three main causes of unemployment in Nigeria.
3. Draw the "Vicious Triangle" that connects Poverty, Illiteracy, and Unemployment.
4. What is the *most important* thing *you* can do right now, as a JSS2 student, to break this cycle in your own future?
5. How can entrepreneurship (Week 1) help solve the problem of unemployment?

WEEK 11: REVISION

Topic: Revision

Breakdown (Subtopics):

- Comprehensive review of all topics from the term.

Performance Objectives: By the end of this lesson, students should be able to:

1. Recall and define the key concepts of the term.
2. Explain the relationship between economic values, taxation, and development.
3. Discuss the roles of citizens and institutions in solving national challenges.

Lesson Content:

1. Summary of Term 3 Topics:

- **Week 1 (Economic Values):** The habits needed for wealth.
 - Thrift (no waste) → Saving (storing) → Investment (growing) → Entrepreneurship (creating).
- **Week 2 (Taxation):** Compulsory payment to government.
 - Direct (Income Tax) vs. Indirect (VAT).
 - Collected by FIRS. Used to fund development.
- **Week 3 (Environmental Citizenship):** Protecting our surroundings.
 - Sanitation (health/cleanliness) and Waste Management (The 3 Rs: Reduce, Reuse, Recycle).
 - Prevents flooding and disease.
- **Week 4 (Human Rights Institutions):** "Referees" who protect citizens.
 - NHRC (investigates all abuse).
 - Legal Aid Council (free lawyers for the poor).
 - NGOs (advocacy, e.g., FIDA, Amnesty Int'l).
- **Week 6 (Corruption):** Abuse of power for private gain.
 - *Opposites:* Accountability (being answerable) & Transparency (openness).

- *Agencies:* EFCC (financial crimes) & ICPC (public sector corruption).
- **Week 8 (National Development):** Improving the *quality of life* for all citizens.
 - *Indicators:* Good schools, hospitals, roads, low crime.
 - *Role:* Paying taxes, getting an education, entrepreneurship.
- **Week 9 (Social Institutions):** The "pillars" of society.
 - Family (first socialisation), Religion (moral codes), Education (skills and knowledge).
- **Week 10 (Civic Challenges):** The "Vicious Triangle."
 - Poverty, Illiteracy, and Unemployment all cause each other and lead to crime.

2. Class Activity: Connecting the Dots (The Big Picture)

- How do Economic Values (Wk 1) and Taxation (Wk 2) lead to National Development (Wk 8)?
- How does Corruption (Wk 6) *prevent* National Development (Wk 8)?
- How do the Social Institutions (Wk 9) help solve the Civic Challenges (Wk 10)?
- Why are Human Rights Institutions (Wk 4) necessary in a society with Corruption (Wk 6)?
- How does a good Environmental Citizen (Wk 3) help National Development (Wk 8)?

Evaluation: This week's evaluation is the Third Term Examination.

Assignment:

1. Study all notes from Week 1 to Week 10 for the examination.
2. Define: EFCC, ICPC, NHRC, and FIRS.
3. Draw the "Vicious Triangle" (Poverty, Illiteracy, Unemployment) and explain how it is the root of many of Nigeria's social problems (from Term 2).
