

PRIMARY 4 CULTURAL AND CREATIVE ARTS SCHEME OF WORK

FIRST TERM

Week	Topic	Breakdown (Subtopics)
1	Introduction to Art	• Meaning of art • Importance of art in daily life • Different forms of art (drawing, painting, crafts) • Safety and cleanliness in art activities
2	Nigerian Arts	• Understanding Nigerian traditional art • Examples of famous Nigerian artworks and artists • Characteristics of Nigerian traditional designs • Relationship between culture and art
3	Drawing	• Meaning and types of drawing • Materials for drawing (pencils, crayons, erasers) • Drawing from imagination and observation • Simple still-life drawing (fruits, books, objects)
4	Printing	• Meaning of printing • Materials for printing (leaves, foam, fabric, paint) • Simple block and leaf printing • Producing patterns through printing
5	MID-TERM EXAMINATION	• Assessment of Weeks 1–4
6	MID-TERM BREAK	• Holiday/Rest
7	Modelling	• Meaning of modelling • Materials used: clay, plasticine, paper

		• Making simple models (pots, fruits, animals) • Importance of modelling in art
8	Crafts and Design	• Meaning of craft • Examples of crafts: beadwork, paper craft, mat making • Designing patterns and motifs • Practical: making a simple paper flower or mat
9	Weaving	• Meaning of weaving • Materials for weaving (raffia, paper strips, wool) • Steps in simple paper weaving • Importance of weaving in Nigerian culture
10	Art Tools and Equipment	• Identification of art tools • Proper care and storage of tools • How to use brushes, pencils, scissors safely • Classroom rules for art activities
11	REVISION	• Review of all topics: Art, Drawing, Crafts, Weaving
12	EXAMINATION	• End of Term Assessment
13	CLOSING/VACATION	• Term ends

PRIMARY 4 CULTURAL AND CREATIVE ARTS LESSON NOTES

FIRST TERM

WEEK 1: INTRODUCTION TO ART

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define the term “Art” in simple words.
- State three reasons why art is important in daily life.
- List the different forms of art (drawing, painting, and crafts).
- Mention three safety and cleanliness rules to follow during art activities.

CONTENT

1. Meaning of Art: Art is a beautiful way people express their feelings, thoughts, and ideas by making things. It is like speaking with your hands instead of your mouth. When you draw a happy sun or mold a clay pot, you are making art. Anyone who creates art is called an artist. Artists can be children, teachers, or people who make beautiful things for a living.

2. Importance of Art in Daily Life: Art is everywhere around us and helps us in many ways:

- **Decoration:** Art makes our surroundings beautiful. For example, the painted walls in our classrooms, the patterned curtains at home, or the flowers drawn on a card.
- **History:** Art helps us remember our past. Statues of heroes like Dr. Nnamdi Azikiwe or pictures in museums show us how people lived long ago.
- **Communication:** We can send messages without words. A poster telling people to wash their hands or a drawing showing the way to the school library is art that communicates.
- **Employment:** Many people work as artists. They make money by selling paintings, pots, clothes, or decorations.

3. Different Forms of Art: There are many ways to make art. Here are three main forms:

- **Drawing:** Using pencils, crayons, or pens to make lines and shapes on paper. You can draw your family, your school bag, or your favorite animal.
- **Painting:** Using brushes and colors (like watercolor or poster paint) to create pictures. Painting is like drawing but with more colors and sometimes water.
- **Crafts:** Making useful or beautiful objects with your hands. Examples include:
 - Weaving a mat from palm leaves.
 - Molding a clay cup.
 - Stringing beads to make a necklace.

4. Safety and Cleanliness in Art Activities: To enjoy art and stay safe, we must follow simple rules:

- Wear an apron or an old shirt to protect your uniform from paint and glue stains.
- Never taste or eat art materials like paint, glue, or chalk. They are not food and can make you sick.
- Be careful with sharp tools like scissors or cutters. Always pass them handle-first to a friend.
- Wash your hands and brushes with soap and water immediately after painting or gluing.

EVALUATION

- What is art in your own words?

- Who is an artist?
- Name two forms of art and give one example of each.
- Why is art important for remembering history?
- Why should we wear an apron in art class?
- What should you do after using paint or glue?

ASSIGNMENT

- **Oral:** Tell your parent or guardian one reason why you think art is important.
 - **Practical:** Draw a simple picture of a cup and a spoon in your sketchpad.
 - **Written:** Write two materials used for drawing.
-

WEEK 2: NIGERIAN ARTS

OBJECTIVES By the end of the lesson, pupils should be able to:

- Explain the meaning of Nigerian traditional art.
- Identify famous Nigerian artworks (Nok, Benin, Ife).
- Describe the characteristics of Nigerian traditional designs.
- Explain the relationship between culture and art.

CONTENT

1. Understanding Nigerian Traditional Art: Nigerian traditional art refers to the artworks made by our forefathers a very long time ago, before white people came to Nigeria. These artworks were not just for beauty; they were used for important things like praying to gods, honoring kings and queens, or decorating palaces and shrines.

2. Examples of Famous Nigerian Artworks: Nigeria is famous all over the world for its ancient art. Some of the most important ones are:

- **Nok Art:** These are figures made from special clay that was baked until hard (terracotta). They were found in Kaduna State. They look like people with big eyes, noses, and mouths that have holes.
- **Benin Art:** These are beautiful metal works made from bronze and brass in the Benin Kingdom (Edo State). They often show the Oba (King) wearing a crown and coral beads.
- **Ife Art:** These are very lifelike heads made from bronze, copper, or clay. They were found in Ile-Ife, Osun State. They look so real that they seem like actual human heads.

3. Characteristics of Nigerian Traditional Designs: Most traditional Nigerian art has some common features:

- They are made from natural materials found around us: wood from trees, clay from the soil, metals like bronze from rocks.
- They often show people or animals, like elephants, leopards, or birds.
- In many carvings and statues, the head is made bigger than the body.
- Our ancestors believed that a person's spirit and wisdom live in the head.

4. Relationship Between Culture and Art: Culture is the way of life of a group of people—their language, food, dressing, and beliefs. Art is a part of culture because it shows these things. For example, a statue of an Oba tells us how kings dressed. A woven cloth shows the colors and patterns a tribe loves. Without art, we would not know the beautiful stories of our great-grandparents.

EVALUATION

- What is Nigerian traditional art?
- Name two famous Nigerian art traditions and the state where each is from.
- What material is Benin art made from?
- Why is the head often big in traditional carvings?
- How does art help us understand our culture?
- Mention one natural material used in traditional art.

ASSIGNMENT

- **Practical:** Draw a simple mask shape with two eyes and a mouth.
 - **Oral:** Ask your parents about the name of your hometown or village and share it in class.
 - **Written:** Write down the name of one modern Nigerian artist (e.g., Ben Enwonwu or Bruce Onobrakpeya).
-

WEEK 3: DRAWING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define drawing.
- List four materials used for drawing.
- Differentiate between drawing from imagination and drawing from observation.
- Draw a simple still-life composition.

CONTENT

1. Meaning and Types of Drawing: Drawing is the act of making marks, lines, or shapes on a surface like paper, using a tool like a pencil, pen, or crayon. It is the first step in making most artworks. Think of it as writing, but instead of letters, you make pictures.

2. Materials for Drawing: To draw, you need the right tools:

- **Pencils:** HB is good for writing, but 2B or 4B pencils are softer and better for drawing dark, smooth lines.

- **Sketchpad or Drawing Book:** This is your special book for drawing. It has plain, clean pages.
- **Eraser:** Used to clean mistakes and make your drawing neat.
- **Sharpener:** Keeps your pencil tip sharp for fine lines.
- **Crayons/Colored Pencils:** Used to add bright colors to your drawing.

3. Drawing from Imagination vs. Observation

- **Drawing from Imagination:** This means creating a picture from your own mind. You think of something that is not in front of you—like a dragon, a flying car, or a talking tree—and draw it. It comes from inside your head.
- **Drawing from Observation:** This means looking at a real object placed in front of you and drawing exactly what you see. You look at its shape, size, and details. For example, drawing a real mango on a table.

4. Simple Still-Life Drawing: Still-life means drawing objects that do not move. They stay still, so you can look at them carefully. Examples: a bowl of fruits, a water bottle, a book, or a pair of shoes.

- **Step 1:** Place your object on a table where you can see it clearly.
- **Step 2:** Look at its basic shape. Is it round like an orange? Square like a book?
- **Step 3:** Use light pencil strokes to draw the outline (the outside shape).
- **Step 4:** Add details like lines, patterns, or shadows to make it look real.

EVALUATION

- What is drawing?
- Which pencil is softer and darker: HB or 2B?
- If you draw a picture of a magic house from your dream, are you drawing from imagination or observation?
- What do we call the art of drawing objects that do not move?
- Name three materials you need for drawing.
- Give two examples of still-life objects.

ASSIGNMENT

- **Practical (Observation):** Place a cup on a table and draw exactly what you see.
 - **Practical (Imagination):** Draw a “Friendly Monster” with three eyes and a smile.
 - **Written:** Write the names of two colors in your crayon set.
-

WEEK 4: PRINTING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define printing.
- Identify materials used for printing.
- Demonstrate how to do simple leaf or block printing.
- Create a pattern using prints.

CONTENT

1. Meaning of Printing: Printing is a way of transferring a design from one surface to another. It is like using a stamp. When you dip a stamp in ink and press it on paper, the design appears on the paper. That is printing.

2. Materials for Printing: We can use many everyday things for printing:

- **Natural Objects:** Leaves (with strong veins), feathers, or smooth stones.
- **Vegetables:** Yam, potato, or onion cut into shapes.
- **Colors:** Poster paint, ink, or watercolor.

- **Tools:** Brush, sponge, or a plastic knife for carving.
- **Surface:** Paper, cloth, or cardboard.

3. Simple Block and Leaf Printing

- **Leaf Printing:**
 - Pick a fresh leaf with clear veins.
 - Use a brush to paint the bumpy side (the side with veins) of the leaf.
 - Place the painted side carefully onto your paper.
 - Gently press the leaf with your palm.
 - Lift the leaf slowly to see the printed pattern.
- **Yam/Block Printing:**
 - Cut a small piece of yam or potato to get a flat surface.
 - Use a plastic knife or spoon to carve a simple shape (star, circle, heart) on the flat surface.
 - Dip the carved surface into paint.
 - Press it firmly onto paper to make a print.

4. Producing Patterns: A pattern is a design that repeats itself in an orderly way. For example:

- Print circle, square, circle, square...
- Print red, blue, red, blue... Patterns make things look neat and beautiful, like on wrappers (Ankara) or tiled floors.

EVALUATION

- What is printing?
- Name two objects you can use for printing.
- Which side of a leaf is better for printing: the smooth side or the bumpy side?

- What is a pattern?
- Can you use a yam for printing? Yes or No?
- What do you put on an object before pressing it on paper?

ASSIGNMENT

- **Practical:** Use a leaf or the bottom of a shoe to create a simple pattern on paper.
 - **Written:** List three vegetables that can be used for block printing.
 - **Oral:** Explain to a friend what “pattern” means.
-

WEEK 5: MID-TERM EXAMINATION

(Assessment of topics covered in Weeks 1–4)

WEEK 6: MID-TERM BREAK

(Holiday/Rest)

WEEK 7: MODELLING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define modelling in art.
- List three materials used for modelling.
- Differentiate between clay and plasticine.
- Mention the importance of modelling.

CONTENT

1. Meaning of Modelling: Modelling is the art of shaping soft, moldable materials into objects using your hands and fingers. You can squeeze, roll, pinch, and press the material to make things like animals, pots, or figures.

2. Materials Used for Modelling

- **Clay:** A special type of soil that is sticky when wet and hard when dry. It is found near rivers or bought in art shops.
- **Plasticine:** A colorful, man-made clay that never dries out. It stays soft and can be reused many times.

- **Papier-mâché:** A paste made by soaking torn paper in water and mixing it with glue or starch. It becomes hard when dry.
- **Water:** Used to keep clay soft and workable while modelling.

Feature	Clay	Plasticine
Where from	From the ground (soil)	From the shop (man-made)
When wet	Soft and sticky	Always soft
When dry	Hardens and stays hard	Stays soft, never dries
Color	Usually brown or gray	Many bright colors

3. Making Simple Models: Let's make a simple pinch pot:

- Take a lump of clay and roll it into a smooth ball.
- Press your thumb into the center of the ball to make a hole.
- Gently pinch the walls of the hole between your thumb and fingers, turning the ball slowly.
- Use a little water to smooth the surface.

4. Importance of Modelling: Modelling is very useful:

- It is used to make household items like pots, plates, and cups.
- Artists use it to create sculptures and statues.
- It helps to develop strong fingers and hand muscles.
- It teaches patience and creativity.

EVALUATION

- What is modelling?
- Where can we find natural clay?
- What is the main difference between clay and plasticine?
- Name one object you can make by modelling.
- What is papier-mâché made from?
- Why do we use water when working with clay?

ASSIGNMENT

- **Practical:** Use clay or plasticine to mold a simple fruit like a banana or an orange.
 - **Written:** List two items in your home that are made from clay or ceramics (e.g., flower vase, drinking cup).
 - **Oral:** Describe to your teacher how you would make a clay snake by rolling.
-

WEEK 8: CRAFTS AND DESIGN

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define craft.
- Identify different types of crafts (beadwork, paper craft).
- Explain the meaning of “Motif.”
- Create a simple paper flower or fan.

CONTENT

1. Meaning of Craft: Craft is the skill of making beautiful or useful objects by hand. It involves using your hands, simple tools, and creativity. Crafts are often passed down from parents to children.

2. Examples of Crafts

- **Beadwork:** Stringing beads on thread to make necklaces, bracelets, or earrings.
- **Paper Craft:** Folding, cutting, and gluing paper to make things like cards, kites, or paper fans (this is sometimes called Origami).
- **Mat Making:** Weaving dry grasses or palm leaves to make mats for sleeping or sitting.

- **Pottery:** Molding and baking clay to make pots, bowls, and plates.

3. Designing Patterns and Motifs

- **Motif:** A motif is a single, simple design or shape that is repeated. It is like one building block of a pattern. Examples: a single star, a flower, a triangle.
- **Pattern:** When you repeat a motif in a regular order, it becomes a pattern. For example: star, circle, star, circle... Craftsmen use motifs and patterns to decorate their work and make it beautiful.

4. Practical: Making a Simple Paper Fan

- Take a rectangular sheet of paper (like from your exercise book).
- Fold a thin strip (about 2 cm) along the shorter end of the paper.
- Turn the paper over and fold another strip of the same size.
- Continue turning and folding back and forth until the whole paper is folded (like a zigzag or accordion).
- Hold one end tightly and gently pull the other end to open your fan.

EVALUATION

- What is craft?
- Give two examples of crafts.
- What is a motif?
- Which craft uses folding of paper?
- What can you make with beads?
- Is pottery a type of craft? Yes or No?

ASSIGNMENT

- **Practical:** Make a simple paper fan at home and bring it to school.
- **Drawing:** Draw a simple motif (e.g., a circle with a dot inside) and repeat it three times to create a pattern.
- **Written:** List two materials needed for beadwork.

WEEK 9: WEAVING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define weaving.
- List materials used for weaving.
- Describe the simple steps in weaving (Under and Over).
- State the importance of weaving in Nigerian culture.

CONTENT

1. Meaning of Weaving: Weaving is the process of crossing strips or threads over and under each other to make a flat or firm material like cloth, mats, or baskets. It is like crisscrossing your fingers.

2. Materials for Weaving

- **Raffia:** Dried palm leaves, soft and strong.
- **Wool/Yarn:** Thick, colored thread.
- **Paper Strips:** Long, thin strips cut from colored paper.

- **Cane/Bamboo:** Used for making strong baskets and furniture.
- **Loom:** A special frame or machine that holds threads tight for weaving cloth.

3. Steps in Simple Paper Weaving

In weaving, there are two main sets of strips:

- **Warp Strips:** These are the strips that are fixed and run vertically (up and down). They are like the pillars of a building.
- **Weft Strips:** These are the strips you move horizontally (left and right) through the warp. They are like the crossbars.

Method:

- Arrange your warp strips vertically on a table, slightly apart.
- Take a weft strip. Weave it through the warp using the “Over, Under” method:
- Go OVER the first warp strip.
- Go UNDER the next warp strip.
- Go OVER the next one.
- Continue to the end.
- Push the weft strip tight against the previous one.
- Repeat with a new weft strip, but start with UNDER if you started the last one with OVER.
- This creates a strong weave.

4. Importance of Weaving in Nigerian Culture:

Weaving is a very important traditional skill in Nigeria:

- **Aso-Oke:** Hand-woven cloth made by the Yoruba people, worn during weddings and big ceremonies.
- **Akwete Cloth:** Beautiful, patterned cloth woven by Igbo women.
- **Mats and Baskets:** Used in villages for carrying goods, storing food, or as sleeping mats.

EVALUATION

- What is weaving?
- Name two materials that can be woven.
- What is the name of the method where you go “Over and Under”?
- What is the name of the special Yoruba woven cloth?
- What do we call the machine used for weaving cloth?
- What can we make by weaving cane or bamboo?

ASSIGNMENT

- **Practical:** Cut strips from two different colored papers and weave a small square mat.
- **Oral:** Ask your parents if they have any traditionally woven cloth (like Aso-Oke) at home and describe its colors.
- **Written:** Write down the meaning of “Warp” and “Weft.”

WEEK 10: ART TOOLS AND EQUIPMENT

OBJECTIVES By the end of the lesson, pupils should be able to:

- Identify common art tools.
- Explain how to care for and store art tools.
- Demonstrate the safe use of scissors and brushes.
- State classroom rules for art activities.

CONTENT

1. Identification of Art Tools: Artists use special tools to create their work. Here are some common ones:

- **Brushes:** Used to apply paint. They come in different sizes—thick for big areas, thin for small details.
- **Palette:** A flat surface (like a plate or plastic board) for mixing different paint colors.
- **Scissors:** Used for cutting paper, cardboard, or cloth.
- **Easel:** A wooden stand that holds your drawing board or canvas upright while you work.

- **Sketchpad:** A book of plain, white paper for drawing and sketching.

2. Proper Care and Storage: If we take good care of our tools, they will last long and work well:

- **Brushes:** Wash with soap and water immediately after painting. Dry them and store with the bristles pointing up so they keep their shape.
- **Paints:** Always close the lids tightly after use so they don't dry out.
- **Scissors:** Wipe them clean and dry to prevent rust. Keep them in a safe place.
- **General Rule:** Pack all tools neatly in a box or cupboard after art class.

3. Safety in Using Tools

- **Scissors:** Always pass scissors to a friend by holding the closed blades and offering the handle. Never run with scissors in your hand.
- **Pencils:** Do not point sharp pencils at anyone's face or eyes.
- **Paint:** Do not put paint-covered fingers in your mouth or rub your eyes.

4. Classroom Rules for Art

- Cover your desk with old newspaper or a plastic sheet before starting.
- Share materials politely with your classmates.
- Clean your workspace when you finish—throw waste in the bin, wipe the table.
- Always listen to the teacher's instructions before you begin.

EVALUATION

- Which tool is used for mixing paint colors?
- How should you store a wet paintbrush?
- Why is it important to close paint lids tightly?
- What is the safe way to give scissors to your friend?
- Mention one classroom rule for art activities.
- What should you do to the table before painting?

ASSIGNMENT

- **Drawing:** Draw and label a paintbrush and a pair of scissors.
 - **Written:** Write three rules you promise to follow in your next art class.
 - **Oral:** Explain to your parent why we need to clean our art tools after use.
-

WEEK 11: REVISION

(Review of all topics: Art, Drawing, Crafts, Weaving, and preparation for examinations.)

PRIMARY 4 CULTURAL AND CREATIVE ARTS SCHEME OF WORK

SECOND TERM

Week	Topic	Breakdown (Subtopics)
1	Elements of Art	• Meaning of art elements • Line, shape, colour, texture, space, form • Identifying elements in drawings • Creating art using different elements
2	Shading	• Meaning of shading • Tools for shading: pencils, crayons, charcoal • Techniques of shading (hatching, cross-hatching, smudging) • Shading simple drawings (apple, cup, leaf)
3	Principles of Design	• Meaning of design principles • Balance, contrast, rhythm, unity, proportion • Identifying principles in artworks • Applying principles to a simple drawing
4	Carving	• Meaning of carving • Materials used (soap, wood, clay) • Simple carving exercises • Importance of carving in Nigerian tradition
5	MID-TERM EXAMINATION	• Assessment of Weeks 1–4
6	MID-TERM BREAK	• Holiday/Rest
7	Art Professionals	• Meaning of art professions • Examples: painters, sculptors, designers, photographers • Tools and work of each art professional • Importance of art in the community
8	Colour Mixing	• Primary and secondary colours

		• Colour wheel practice • Warm and cool colours • Mixing paint to produce new colours
9	Pattern and Decoration	• Meaning of pattern • Types of patterns (natural, geometric) • Creating patterns using shapes and colours • Decorating classroom art materials
10	Collage	• Meaning of collage • Materials: paper, fabric, leaves, magazines • Making simple collages • Benefits of collage making
11	REVISION	• Review: Elements, Shading, Design, Colour, Pattern
12	EXAMINATION	• End of Term Assessment
13	CLOSING/VACATION	• Term ends

PRIMARY 4 CULTURAL AND CREATIVE ARTS LESSON NOTES

SECOND TERM

WEEK 1: ELEMENTS OF ART

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define the “Elements of Art” in simple terms.
- List the major elements of art (line, shape, color, texture, space, form).
- Identify these elements in a given drawing or picture.
- Create a simple artwork using at least three elements.

CONTENT

1. Meaning of Art Elements: The elements of art are the basic parts or ingredients used to make any artwork. Just like a chef needs rice, beans, and oil to cook, an artist needs lines, shapes, and colors to create a picture.

2. List and Explanation of Elements

- **Line:** A line is a mark made by a moving point. It can be:

- Straight (like a ruler's edge)
- Curved (like a rainbow)
- Zigzag (like lightning)
- Wavy (like water)
- **Shape:** When a line joins itself, it makes a shape. Shapes are flat (2D). Examples: circle (plate), square (window), triangle (roof).
- **Color:** This is what we see when light reflects on something. Colors have names like red, blue, yellow, green.
- **Texture:** How something feels when you touch it, or how it looks like it would feel. Examples: rough (like sandpaper), smooth (like a mirror), soft (like cotton wool).
- **Space:** The empty or filled areas in a drawing. It can be the background (sky) or the space between objects.
- **Form:** A shape that has thickness and looks solid (3D). Examples: a ball (sphere), a box (cube), a tin of milk (cylinder).

3. Identifying Elements in Drawings: Look at a simple drawing of a house under a tree:

- The outlines of the house and tree are made of lines.
- The door is a rectangle (shape).
- The roof is red (color).
- The grass looks rough (texture).
- The sky around the house is empty space.
- The house looks solid, like a 3D form.

4. Creating Art Using Elements: Let's use three elements to draw a simple picture:

- Draw a circle (shape) for the sun.
- Draw straight lines coming out from the circle for sun rays.

- Color the sun yellow (color).

EVALUATION

- What are the elements of art?
- Name four elements of art.
- Which element tells us if something is rough or smooth?
- Draw a wavy line.
- What is the difference between a shape and a form?
- Look around the class and name one color you see.

ASSIGNMENT

- **Drawing:** Draw three different types of lines (straight, curved, zigzag).
- **Practical:** Place a rough leaf under a paper and rub a crayon over it to show its texture.
- **Drawing:** Draw a simple house using only squares and triangles (shapes).

WEEK 2: SHADING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define shading.
- Identify tools used for shading.
- Describe and use shading techniques (hatching, cross-hatching, smudging).
- Shade a simple drawing of an object to show light and dark.

CONTENT

1. Meaning of Shading: Shading is the art of making some parts of a drawing darker than others. It helps to show where light is shining on an object and where shadows are. Shading makes a flat drawing look round and real, like it could pop out of the paper.

2. Tools for Shading

- **Pencils:** Soft pencils like 2B, 4B, or 6B are best because they make dark, smooth marks easily.
- **Charcoal:** A black, burnt wood stick that makes very dark shades.
- **Crayons:** Can be used for shading with color.

- **Eraser:** Used to clean mistakes or to create bright spots (highlights) by removing some shading.

3. Techniques of Shading

- **Hatching:** Drawing many thin, straight lines close together, all going the same way.
- **Cross-hatching:** Drawing lines that cross over each other (like a net) to make an area even darker.
- **Smudging:** Using your finger, cotton wool, or a tissue to gently rub and blend pencil marks to make them smooth and soft.
- **Pointillism:** Making many tiny dots close together to create a shaded effect.

4. Shading Simple Drawings: Let's shade a ball:

- Imagine the light is coming from the top left corner.
- The top left part of the ball will be bright (leave it white or very light).
- Start shading from the opposite side (bottom right), making it darkest.
- Use smooth, curved strokes to follow the ball's round shape.

EVALUATION

- What is shading?
- Why do artists use shading in drawings?
- Name two tools you can use for shading.
- Describe the hatching technique.
- Which pencil is softer and better for shading: HB or 2B?
- What technique uses crossing lines?

ASSIGNMENT

- **Practical:** Draw a circle and shade it to look like a round ball.
- **Drawing:** Draw a square and fill it using the cross-hatching technique.
- **Observation:** Look around your home and list two objects that have clear shadows (e.g., a cup on a table).

WEEK 3: PRINCIPLES OF DESIGN

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define the “Principles of Design.”
- Explain the concepts of Balance, Contrast, and Unity.
- Identify these principles in a piece of art.
- Apply one principle to a simple drawing.

CONTENT

1. Meaning of Design Principles: If the elements of art are the ingredients (like salt and pepper), the principles of design are the recipe—the rules that tell us how to arrange those ingredients to make the artwork look good, organized, and pleasing to the eye.

2. Explaining the Principles

- **Balance:** This means your drawing does not look heavier on one side. It feels stable, like a seesaw with equal weights on both ends. You can balance a big tree on the left with two small houses on the right.

- **Contrast:** Using very different things side-by-side to make each stand out. Examples: black next to white, a big circle next to a tiny dot, a rough texture next to a smooth one.
- **Rhythm:** Creating a feeling of movement by repeating lines, shapes, or colors, like the repeating pattern of waves on the beach.
- **Unity:** When all parts of the artwork look like they belong together and create one complete picture.
- **Proportion:** Drawing things in the right size compared to each other. A person's head should not be bigger than their body in a normal drawing.

3. Identifying Principles in Artworks

- A poster with big, bold letters on a light background shows contrast.
- A pattern of dancing figures around a pot shows rhythm.
- A family portrait where everyone looks connected shows unity.

4. Applying Principles: To draw a good picture, think about balance. Don't put everything in one corner. Spread out your shapes and colors so the whole paper is used nicely.

EVALUATION

- What are the principles of design?
- What does "balance" mean in art?
- If you draw a white moon in a dark blue sky, what principle are you using?
- What is "proportion"?
- Why is unity important in a drawing?
- Name three principles of design.

ASSIGNMENT

- **Drawing:** Draw a simple seesaw with two objects of the same size on each end to show balance.
- **Drawing:** Create a pattern using circles and squares in a repeating order to show rhythm.
- **Written:** Write one sentence on why artists need to follow design principles.

WEEK 4: CARVING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define carving.
- List three materials used for carving.
- Perform a simple carving exercise using soap.
- State the importance of carving in Nigerian tradition.

CONTENT

1. Meaning of Carving: Carving is a way of making art by cutting, scraping, or chipping away material from a block until a shape appears. It is a subtractive process because you remove pieces. Think of it like sharpening a pencil—you remove wood to reveal the lead.

2. Materials Used for Carving

- **Soap:** Soft, safe, and easy for beginners to carve with simple tools.
- **Wood:** Used by master carvers to make masks, statues, and doors.
- **Clay:** Can be carved when it is half-dry (leather hard).
- **Calabash:** The hard shell of a gourd, carved to make bowls and decorations.

- **Stone:** Very hard material used for lasting monuments and statues.

3. Simple Carving Exercises: Safety First: Always be careful and use blunt tools like plastic knives, spoons, or popsicle sticks when you are learning. **Carving a soap bar:**

- Place a bar of soap on a flat surface.
- Use a plastic spoon to scrape away soap from the sides.
- You can carve simple shapes like a fish, a leaf, or the first letter of your name.

4. Importance of Carving in Nigerian Tradition: Carving is deeply rooted in Nigerian culture:

- It is used to create masquerade masks for festivals.
- It decorates palace doors and pillars with stories and symbols.
- It makes useful items like mortars and pestles for pounding yam.
- It preserves our history by showing how our ancestors lived and what they believed.

EVALUATION

- What is carving?
- Name two materials that can be carved.
- Is carving about adding material or removing material?
- What safe tool can a child use to carve soap?
- Name one carved object found in a Nigerian home.
- Why were masks carved in traditional societies?

ASSIGNMENT

- **Practical:** With adult supervision, use a plastic knife to carve the first letter of your name on a bar of soap.
 - **Written:** List two objects in your kitchen made of wood.
 - **Drawing:** Draw a picture of a traditional carved mask.
-

WEEK 5: MID-TERM EXAMINATION

(Assessment of topics covered in Weeks 1–4)

WEEK 6: MID-TERM BREAK

(Holiday/Rest)

WEEK 7: ART PROFESSIONALS

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define an art professional.
- List four examples of art professionals.
- Match professionals to their tools and work.
- Explain the importance of art in the community.

CONTENT

1. Meaning of Art Professions: An art professional is a person whose job is to create art. They use their skills to make beautiful or useful things and earn money from it. It is their career, just like a doctor or a teacher has a career.

2. Examples of Art Professionals

- **Painter:** Creates pictures on canvas, walls (murals), or boards.
- **Sculptor:** Shapes figures from clay, wood, stone, or metal.
- **Graphic Designer:** Uses computer software to design posters, logos, book covers, and websites.

- **Photographer:** Takes artistic and meaningful pictures with a camera.
- **Textile Designer:** Creates patterns and designs for fabrics like Ankara, lace, and Aso-Oke.

3. Tools and Work

- **Painter:** Uses brushes, paints, palette, easel, and canvas.
- **Sculptor:** Uses chisels, hammers, carving knives, clay, or wood.
- **Photographer:** Uses camera, lights, and a computer for editing.
- **Graphic Designer:** Uses a computer, tablet, and special design programs.

4. Importance of Art in the Community: Art professionals make our world better:

- They make our cities and homes beautiful with paintings and sculptures.
- They help businesses by creating attractive advertisements and product designs.
- They design the clothes, shoes, and bags we wear.
- They record important events and history through photos and monuments.

EVALUATION

- Who is an art professional?
- What does a sculptor do?
- Who designs logos for companies and advertisements?
- Name one tool used by a painter.
- What is the job of a textile designer?
- Give one reason why artists are important in a community.

ASSIGNMENT

- **Written:** Write down which art profession you like most and give one reason why.
- **Drawing:** Draw a camera, the main tool of a photographer.
- **Oral/Research:** Ask your parents or guardian to tell you the name of one famous Nigerian artist (past or present) and share it in class.

WEEK 8: COLOUR MIXING

OBJECTIVES By the end of the lesson, pupils should be able to:

- Identify Primary and Secondary colours.
- Explain how to mix primary colours to get secondary colours.
- Differentiate between Warm and Cool colours.
- Create a simple colour wheel.

CONTENT

1. Primary and Secondary Colours

- **Primary Colours:** These are the three boss colours that cannot be created by mixing other colours. They are: Red, Blue, and Yellow.
- **Secondary Colours:** These are colours we get by mixing two primary colours together. They are: Green, Orange, and Purple (Violet).

2. Mixing Paint

- Red + Yellow = Orange (Like the fruit)

- Yellow + Blue = Green (Like grass)
- Blue + Red = Purple (Like some flowers)

3. Warm and Cool Colours

- **Warm Colours:** These colours remind us of heat, fire, sunshine, and warmth. They are: Red, Orange, Yellow.
- **Cool Colours:** These colours remind us of cool things like water, grass, sky, and ice. They are: Blue, Green, Purple.

4. Colour Wheel Practice: A colour wheel is a circle that shows how colours are related. It is arranged like this: Red, Orange, Yellow, Green, Blue, Purple, and back to Red. The primary colours are equally spaced. The secondary colours sit between the two primaries that make them.

EVALUATION

- Name the three primary colours.
- Which two colours do you mix to get green?
- What colour do you get if you mix red and yellow?
- Is blue a warm or a cool colour?
- Give two examples of warm colours.
- What are secondary colours?

ASSIGNMENT

- **Practical:** On a paper, draw and color three circles: one red, one yellow, and one orange to show how orange is made.
 - **Observation:** Look outside or at home and list three things that are naturally green.
 - **Drawing:** Draw a sun using only warm colours (red, orange, yellow).
-

WEEK 9: PATTERN AND DECORATION

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define a pattern.
- List types of patterns (natural and geometric).
- Create a pattern using shapes and colors.
- Decorate a simple paper item.

CONTENT

1. Meaning of Pattern: A pattern is a design made by repeating a line, shape, or colour in a regular, orderly way. The single unit that is repeated is called a motif. Patterns make things look neat, organized, and beautiful.

2. Types of Patterns

- **Natural Patterns:** Patterns we see in nature. Examples: stripes on a zebra, spots on a leopard, the spiral of a snail's shell, veins on a leaf.

- **Geometric Patterns:** Patterns made from mathematical shapes. Examples: rows of squares, triangles, circles, or diamonds. We see these on tiles, wrappers (Ankara), and baskets.
- **Man-made Patterns:** Patterns created by people for decoration on clothes, wallpapers, plates, and carpets.

3. Creating Patterns: To create a pattern, choose a motif and repeat it.

- Shape Pattern: Circle, Square, Circle, Square...
- Colour Pattern: Red, Blue, Red, Blue...
- You can also create a pattern by alternating both shape and colour.

4. Decorating Classroom Art: Patterns are used to decorate everyday items to make them special. We can decorate a bookmark, a greeting card, or a paper cup using simple repeated shapes.

EVALUATION

- What is a pattern?
- What is a motif?
- Give one example of a pattern found in nature.
- Name one geometric shape used in patterns.
- Where in your home can you see a pattern?
- Complete this pattern: Triangle, Circle, Triangle, _____.

ASSIGNMENT

- **Drawing:** Create your own pattern using only triangles and squares on a strip of paper.
- **Observation:** Look at your school uniform or any cloth at home. Describe its pattern (e.g., “It has repeating white stripes on a blue background”).
- **Drawing:** Draw a long snake and fill its body with a zigzag pattern.

WEEK 10: COLLAGE

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define collage.
- List materials used for making collage.
- Create a simple collage using paper or leaves.
- State the benefits of collage making.

CONTENT

1. Meaning of Collage: Collage is a form of art where you stick different materials onto a surface (like paper or cardboard) to create a picture or design. The word “collage” comes from a French word meaning “to glue.” It is like making a picture with pieces instead of drawing it.

2. Materials for Collage: You can use many things you find around you:

- **Paper:** Old newspapers, magazines, colored paper, tissue paper.
- **Natural Objects:** Dry leaves, small sticks, flower petals, seeds.
- **Textures:** Sand, small stones, pieces of cloth, buttons, wool.
- **Adhesive:** Glue, gum, or homemade starch paste to stick things down.

3. Making Simple Collages: Let's make a fish collage:

- Step 1: Lightly draw the outline of a fish on cardboard.
- Step 2: Tear or cut old magazine paper into small pieces.
- Step 3: Apply glue inside the fish outline.
- Step 4: Press the paper pieces onto the glued area, overlapping them until the fish is fully covered.
- Step 5: Let it dry.

4. Benefits of Collage Making

- It teaches us to recycle by using old papers and materials.
- It encourages creativity—you can arrange pieces in many ways.
- It creates interesting textures that are different from plain drawing or painting.
- It is fun and can be done with friends and family.

EVALUATION

- What is collage?
- Name three materials you can use to make a collage.
- What do we use to stick materials onto paper?
- Can we use sand in a collage? Yes or No?
- What is the first step in making a collage?
- Mention one benefit of making collage art.

ASSIGNMENT

- **Collection:** Collect five different types of dry leaves or flower petals from around your home.
- **Practical:** Use the leaves you collected to create a “Nature Collage” on a sheet of paper.
- **Written:** Look in your waste bin and list three clean, dry items that could be used for a collage (e.g., sweet wrapper, bottle cap, piece of string).

WEEK 11: REVISION

(Review of all topics: Elements of Art, Shading, Principles of Design, Colour Mixing, Patterns, and preparation for examinations.)

PRIMARY 4 CULTURAL AND CREATIVE ARTS SCHEME OF WORK

THIRD TERM

Week	Topic	Breakdown (Subtopics)
1	Introduction to Music	• Meaning of music • Importance of music in daily life • Types of music (folk, gospel, traditional, pop) • Singing simple songs
2	Musical Instruments and Sounds	• Meaning of musical instruments • Types: string, percussion, wind • Examples: drum, flute, guitar • Producing sound with simple instruments
3	Drama	• Meaning of drama • Elements of drama (characters, setting, dialogue) • Simple classroom role-play • Importance of drama in communication
4	Introduction to Dance	• Meaning and types of dance • Traditional and modern dances • Steps and rhythm • Demonstration of a simple traditional dance
5	MID-TERM EXAMINATION	• Assessment of Weeks 1–4
6	MID-TERM BREAK	• Holiday/Rest
7	Culture	• Meaning of culture • Examples of Nigerian cultures • Features of cultural practices • Role of art and music in culture
8	Cultural Values in a Child	• Meaning of cultural values • Examples: respect, honesty, hard work

		• Importance of cultural values to a child • Ways of promoting good cultural values
9	Festival and Traditional Entertainment	• Meaning of festivals • Types of festivals in Nigeria (Argungu, New Yam, Durbar) • Role of music and dance in festivals • Benefits of participating in festivals
10	Appreciation of Art and Culture	• Meaning of appreciation • Respecting other people's art and culture • Cultural diversity and tolerance • How art promotes unity in Nigeria
11	REVISION	• Review: Music, Dance, Culture, Festivals, Values
12	EXAMINATION	• End of Term Assessment
13	CLOSING/VACATION	• Term ends

PRIMARY 4 CULTURAL AND CREATIVE ARTS LESSON NOTES

THIRD TERM

WEEK 1: INTRODUCTION TO MUSIC

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define music in simple terms.
- State three reasons why music is important in daily life.
- List different types of music found in their environment.
- Sing a simple song with correct rhythm.

CONTENT

1. Meaning of Music: Music is the arrangement of pleasing sounds in a way that we enjoy listening to. It is made by combining singing (using our voices) and playing instruments. Music is different from noise—noise is often loud and disturbing, while music is organized and can make us feel happy, calm, or excited.

2. Importance of Music in Daily Life: Music is very useful in our lives:

- **Worship:** We sing hymns in church and recite Quranic verses in mosques to praise God.
- **Celebration:** Music makes parties, weddings, naming ceremonies, and birthdays more joyful.
- **Relaxation:** Soft music can calm us down when we are tired or worried.
- **Learning:** Songs help us remember things easily, like the alphabet song or multiplication tables.
- **Work:** Farmers, traders, and workers sometimes sing to make their tasks feel easier and more enjoyable.

3. Types of Music: In Nigeria, we hear many kinds of music:

- **Folk Music:** Old, traditional songs from the villages that often tell stories about history or daily life.
- **Gospel/Religious Music:** Songs sung to worship and pray to God.
- **Traditional Music:** Music played with local instruments like drums, gongs, and xylophones during cultural festivals and dances.
- **Pop Music:** Modern, popular songs we hear on radio, TV, and smartphones.

4. Singing Simple Songs: Singing is using your voice to make musical sounds. When we sing together, we should try to follow the same tune (key) and keep the same rhythm (beat). **Class**

Activity: Let's sing the first verse of the Nigerian National Anthem together, clapping softly to keep the beat.

EVALUATION

- What is music?
- What is the main difference between music and noise?
- Give two reasons why music is important.
- Name two types of music.
- Which type of music is used for praying in churches and mosques?
- Why might a farmer sing while working on the farm?

ASSIGNMENT

- **Written:** Write down the title of your favorite song.
 - **Oral:** Ask an adult at home to sing or tell you about a traditional folk song from their childhood. Write one sentence about what the song is about.
 - **Drawing:** Draw a person singing into a microphone.
-

WEEK 2: MUSICAL INSTRUMENTS AND SOUNDS

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define musical instruments.
- Classify musical instruments into three families (String, Percussion, Wind).
- Identify examples of instruments in each family.
- Describe how sound is produced with simple instruments.

CONTENT

1. Meaning of Musical Instruments: Musical instruments are special tools or objects that people use to create musical sounds. Just as a mechanic uses a spanner, a musician uses an instrument to make music.

2. Types of Musical Instruments (Families): We group instruments by how they make sound:

- **Percussion Instruments:** You play them by hitting, shaking, or scraping. They are often used to keep the beat or rhythm. Examples: Drum, Gong, Tambourine, Shaker, Xylophone.

- **Wind Instruments:** You play them by blowing air into them. The air vibrates inside to make sound. Examples: Flute, Trumpet, Whistle, Saxophone, Oja (Igbo flute).
- **String Instruments:** They have strings (like ropes or wires) that you pluck, strum, or bow to make sound. Examples: Guitar, Violin, Goje (Hausa fiddle), Piano (inside a piano are many strings that are hit by hammers).

3. Producing Sound

- **Drum:** When you hit the skin (membrane), it vibrates and sends sound waves into the air.
- **Flute:** When you blow across the hole, the air inside the tube vibrates.
- **Guitar:** When you pluck a string, it vibrates back and forth very fast, creating sound.
- **Your Body:** You can make percussion sounds by clapping your hands or tapping your feet.

EVALUATION

- What is a musical instrument?
- Name the three families of musical instruments.
- Which family does the drum belong to?
- Which family does the flute belong to?
- How is sound produced on a guitar?
- Name one traditional musical instrument from your ethnic group.

ASSIGNMENT

- **Drawing:** Draw a simple drum and a simple flute.
- **Observation:** Look in your kitchen and list three items that could be used as percussion instruments (e.g., tapping a spoon on a pot).
- **Practical:** Make a simple shaker at home using an empty plastic bottle with a lid. Fill it with a handful of uncooked rice or small stones. Decorate the outside and bring it to class.

WEEK 3: DRAMA

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define drama.
- List the three main elements of drama (characters, setting, dialogue).
- Explain the importance of drama in communication.
- Perform a simple role-play in class.

CONTENT

1. Meaning of Drama: Drama is a story that is acted out by people. It is like pretend play or “play-acting.” The people who act are called actors (men) or actresses (women). Drama can make us laugh, cry, think, or learn a lesson.

2. Elements of Drama: Every drama needs three important parts:

- **Characters:** The people (or sometimes animals) in the story. They have roles like hero, villain, parent, teacher, etc.

- **Setting:** Where and when the story happens. Examples: in a market, in a school, in a village long ago, in a king's palace.
- **Dialogue:** The words spoken by the characters to each other. Dialogue tells us what the characters are thinking and feeling.

3. Importance of Drama in Communication

- **Education:** Drama teaches us important lessons. For example, a play about honesty teaches us to always tell the truth.
- **Information:** It can pass messages to people who cannot read or write.
- **Entertainment:** It makes us happy and is fun to watch.
- **Confidence:** Acting in front of others helps children overcome shyness and speak clearly.

4. Simple Classroom Role-Play: Let's act out a short scene: "Asking for Permission"

- **Characters:** A child and a mother.
- **Setting:** At home, in the sitting room.
- **Dialogue:**
 - Child: "Good afternoon, Mummy. Can I please go to my friend Chinedu's house to read?"
 - Mother: "Have you finished your homework?"
 - Child: "Yes, Mummy. I finished it."
 - Mother: "Alright, you may go. But be back before 6 o'clock."

EVALUATION

- What is drama?
- What do we call the people who act in a drama?
- Name the three main elements of drama.
- What is "dialogue"?
- What does "setting" mean in drama?
- Give one reason why drama is good for children.

ASSIGNMENT

- **Writing:** Write a short dialogue (3 lines) between a teacher and a pupil who is returning a lost item.
 - **Observation:** Watch a cartoon or TV show at home and write down the name of the main character.
 - **Drawing:** Draw a simple stage with curtains on both sides.
-

WEEK 4: INTRODUCTION TO DANCE

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define dance.
- Differentiate between traditional and modern dance.
- Identify the importance of rhythm in dance.
- Demonstrate a simple traditional dance step.

CONTENT

1. Meaning of Dance: Dance is the movement of the body, usually to the rhythm of music.

When you hear a beat and move your hands, legs, head, or waist in time with it, you are dancing.

Dance is a way to express joy, tell stories, or celebrate.

2. Types of Dance

- **Traditional Dance:** These dances come from our culture and have been performed for many generations. They are danced during festivals, ceremonies, and community

gatherings. Examples: Atilogwu (Igbo acrobatic dance), Bata (Yoruba ceremonial dance), Koroso (Hausa festive dance), Ekombi (Efik dance).

- **Modern Dance:** These are newer dance styles, often influenced by other countries and popular culture. They change often with new songs. Examples: Hip-hop, Ballet, Breakdance, Afrobeat dances.

3. Steps and Rhythm

- **Rhythm:** This is the steady beat or pulse in the music. It tells you when to move. You must listen carefully to the drum or song to find the rhythm.
- **Steps:** These are the specific movements that make up a dance. In traditional dances, steps often have meanings. For example, stomping feet can show strength, while gentle waist movements can show grace.

4. Demonstration of Traditional Dance: Let's learn a very simple step:

- Stand with feet slightly apart.
- Listen to a steady drum beat (1, 2, 1, 2).
- On “1,” stamp your right foot.
- On “2,” stamp your left foot.
- Add claps on each stamp. Dance is good exercise—it makes our bodies strong, flexible, and healthy.

EVALUATION

- What is dance?
- What is the difference between traditional and modern dance?
- Name one Nigerian traditional dance.
- What must you listen to before you start dancing?
- Is “Hip-hop” a traditional Nigerian dance? Yes or No?
- Why do people dance?

ASSIGNMENT

- **Oral:** Ask your parents or grandparents the name of a traditional dance from your hometown. Write it down.
 - **Written:** List three parts of your body you use when dancing.
 - **Practical:** Practice the two-step dance we learned in class and be ready to show it next time.
-

WEEK 5: MID-TERM EXAMINATION

(Assessment of topics covered in Weeks 1–4)

WEEK 6: MID-TERM BREAK

(Holiday/Rest)

WEEK 7: CULTURE

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define culture.
- Mention examples of Nigerian cultures (tribes).
- List three features of cultural practices (language, food, dressing).
- Explain the role of art and music in culture.

CONTENT

1. Meaning of Culture: Culture is the total way of life of a group of people. It includes everything they do, believe, and create. It is passed down from parents to children and includes language, food, dressing, music, art, and greetings.

2. Examples of Nigerian Cultures: Nigeria has many ethnic groups (tribes), each with its own culture. The three largest are:

- **Hausa/Fulani:** Predominantly in the Northern part of Nigeria.

- **Yoruba:** Predominantly in the South-Western part.
- **Igbo:** Predominantly in the South-Eastern part.
- **Other important groups:** Edo, Efik, Ijaw, Tiv, Kanuri, Urhobo, and many more.

3. Features of Cultural Practices: Each culture has unique features:

- **Language:** The mother tongue spoken at home (e.g., Hausa, Yoruba, Igbo).
- **Food:** The special meals they eat (e.g., Tuwo Shinkafa for Hausa, Amala for Yoruba, Fufu for Igbo).
- **Dressing:** Their traditional attire (e.g., Babban Riga for Hausa men, Agbada for Yoruba men, Isiagu top for Igbo men).
- **Greeting:** How they show respect (e.g., kneeling, prostrating, bowing, or using special greeting words).

4. Role of Art and Music in Culture

- **Identity:** Art and music help us recognize different cultures. When you hear a talking drum, you think of Yoruba culture. When you see an Uli body design, you think of Igbo culture.
- **History:** Songs, carvings, and paintings tell the stories of our past heroes, events, and beliefs.
- **Unity:** During cultural festivals, art and music bring everyone together in celebration, promoting peace and friendship.

EVALUATION

- What is culture?
- Name the three major ethnic groups in Nigeria.
- What is one special food from your culture?
- How do men in your culture dress for traditional occasions?
- Why is language an important part of culture?
- Does art help us understand our culture better? Yes or No?

ASSIGNMENT

- **Drawing:** Draw a person wearing the traditional outfit of your culture.
 - **Written:** Write “Good Morning” in your mother tongue.
 - **Listing:** List three things that are part of every culture (e.g., Food, Language, _____).
-

WEEK 8: CULTURAL VALUES IN A CHILD

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define cultural values.
- List three important cultural values (respect, honesty, hard work).
- Explain why these values are important to a child.
- Suggest ways to promote good values.

CONTENT

1. Meaning of Cultural Values: Cultural values are the good behaviors and positive beliefs that a society expects from its people, especially children. They are the rules for living well with others. Every Nigerian culture treasures good behavior.

2. Examples of Cultural Values

- **Respect for Elders:** In Nigeria, we show respect by greeting elders properly, not calling them by their first names, and listening to their advice.
- **Honesty:** Always telling the truth, even when it is difficult.
- **Hard Work:** Doing your duties (chores, schoolwork) diligently without laziness.

- **Greeting:** It is very important to greet people when you meet them. It shows good upbringing.
- **Hospitality:** Being kind and welcoming to visitors, offering them water or food.

3. Importance of Cultural Values to a Child

- Good values make people trust, love, and respect you.
- They bring peace and harmony to your family and community.
- A child with good values grows up to be a responsible and successful adult.
- They protect you from bad behaviors like stealing, fighting, and lying.

4. Ways of Promoting Good Values

- Listen and obey your parents, teachers, and elders.
- Read stories and watch shows about honest and brave heroes.
- Practice good manners every single day—say “Please,” “Thank you,” “Sorry,” and “Excuse me.”

EVALUATION

- What are cultural values?
- Give three examples of good cultural values.
- How can a child show respect to an elder in Nigeria?
- Why is hard work a good value for a pupil?
- What should you do when a visitor comes to your house?
- Is stealing a cultural value?

ASSIGNMENT

- **Written:** Write three different ways you greet your parents in the morning.
- **Practical:** List two chores you do at home that show you are hardworking.
- **Promise:** Write one sentence making a promise to be an honest child this week. (E.g., “I promise to always tell my teacher the truth.”)

WEEK 9: FESTIVAL AND TRADITIONAL ENTERTAINMENT

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define a festival.
- List three types of festivals in Nigeria.
- Describe the role of music and dance during festivals.
- State two benefits of participating in festivals.

CONTENT

1. Meaning of Festivals: A festival is a special period of celebration where a community comes together. It is a time of joy, feasting, dancing, and remembering important events like a good harvest, a historical occasion, or a religious holiday.

2. Types of Festivals in Nigeria: Nigeria is famous for its colorful festivals:

- **Argungu Fishing Festival:** Held in Kebbi State. Men compete to catch the biggest fish in the river using their bare hands.

- **New Yam Festival (Iri Ji):** Celebrated by the Igbo and other tribes to thank God for a successful harvest of new yams.
- **Durbar Festival:** Held in Northern states like Kano and Katsina. It involves a grand parade of horses, dancers, and musicians to honor the Emir.
- **Eyo Festival:** Held in Lagos. Masquerades (Eyo) dressed in white robes parade through the streets.

3. Role of Music and Dance in Festivals

- Music and dance are the heart of any festival. Loud drums, flutes, and singing call people to come out and celebrate.
- Dancers wear bright, beautiful costumes and perform special steps to entertain the king, chiefs, and visitors.
- The music sets the mood—fast and loud for excitement, slow and soft for solemn moments.

4. Benefits of Participating in Festivals

- **Tourism:** People travel from far and wide to watch, bringing visitors and money to the community.
- **Unity:** Festivals bring families, friends, and neighbors together, strengthening community bonds.
- **Education:** Children learn about their history, traditions, and cultural heritage by watching and participating.

EVALUATION

- What is a festival?
- In which state is the Argungu Fishing Festival held?
- Why is the New Yam Festival celebrated?
- Name one animal that is important in the Durbar Festival.
- Why is music very important during a festival?
- Mention one benefit of having festivals in a community.

ASSIGNMENT

- **Research:** Find out and write down the name of one festival celebrated in your state.
 - **Drawing:** Draw a simple picture of a big fish (related to the Argungu Festival).
 - **Written:** List two special foods that people eat during festival celebrations in your area.
-

WEEK 10: APPRECIATION OF ART AND CULTURE

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define appreciation.
- Explain how to respect other people's art and culture.
- Discuss the meaning of cultural diversity and tolerance.
- Describe how art promotes unity in Nigeria.

CONTENT

1. Meaning of Appreciation: Appreciation means recognizing the value, beauty, or goodness in something. To appreciate art and culture means to look at a dance, listen to a song, or observe a craft and say, "This is beautiful," "This is skillful," or "This is important."

2. Respecting Other People's Culture: Nigeria has many different cultures. We must always show respect:

- Do not laugh at how others dress, speak, or dance.
- Show respect by clapping for their performances, trying their food politely, and learning a few words in their language.

- Treat other cultures the way you want your own culture to be treated.

3. Cultural Diversity and Tolerance

- **Diversity:** This means having many different kinds of people or things living together. Nigeria is diverse because we have hundreds of languages, foods, and traditions.
- **Tolerance:** This means accepting and respecting people who are different from you, even if you don't fully understand their way of life. It means living together in peace without fighting or hatred.

4. How Art Promotes Unity

- When we watch the National Troupe of Nigeria perform, all Nigerians—Hausa, Igbo, Yoruba—feel proud together.
- Nigerian music artists like Burna Boy or Tiwa Savage have fans from every tribe.
- Their music makes everyone dance as one.
- Museums and cultural centers display art from all over Nigeria, helping us learn about and appreciate each other.

EVALUATION

- What does it mean to “appreciate” something?
- Is it good to make fun of another tribe's way of dancing? Yes or No?
- What is cultural diversity?
- What does “tolerance” mean?
- Give one example of how you can show respect for another culture.
- How can music help to unite Nigerians?

ASSIGNMENT

- **Artwork:** Write “I AM A PROUD NIGERIAN” in the center of your paper and decorate the letters with the green and white colors of the Nigerian flag.
- **Listing:** Write down the names of two Nigerian ethnic groups that are different from your own.

- **Written:** Write one clear sentence on why it is important for all Nigerians to live together in peace.
-

WEEK 11: REVISION

(Review of all topics: Music, Instruments, Drama, Dance, Culture, Festivals, and Values.
Preparation for End of Term/Session Exams.)
