

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES SCHEME OF WORK

FIRST TERM

Week	Topic	Breakdown/Subtopics
1	Being a Good Citizen	• What does it mean to be a citizen? • We are all citizens of Nigeria • Being a good person in our community • Understanding our rights: Right to learn, play, be safe, be treated fairly • Understanding our responsibilities: Being kind, helping others, following rules, respecting everyone • Making good choices every day • Treating everyone fairly (social justice) • Speaking up when something is wrong • Taking care of our community • Being proud to be Nigerian • Activity: "What makes a good citizen?" class discussion • - Drawing: "Me as a good citizen"
2	Our Community	• What is a community? • People living and working together • Our community is part of who we are (identity) • Types of communities: Urban (city/town) - busy, many buildings, markets • Rural (village) - farms, quiet, close to nature • How communities are different but connected • Appreciating diversity in communities • How different communities help each other • Our role in making community better • Community values: Sharing, helping, cooperating

		• Social responsibility in our community • Activity: Drawing and describing our community • Discussion: What makes our community special? • - Sharing: Special things about our community
3	Leaders in our Community	• What is leadership? • Leaders help guide and serve people • Qualities of good leaders: Honest, kind, fair, brave, helpful, good listener • Types of community leaders: Traditional leaders (Oba, Emir, Chief, Village Head) • Religious leaders (Pastor, Imam) • Community leaders (Baale, Chairman) • School leaders (Head Teacher, Class Captain, Prefects) • Family leaders (Parents, Grandparents) • How leaders serve the community (civic responsibility) • Respecting and supporting our leaders • Everyone can be a leader in small ways • Leadership skills for children: Speaking clearly, listening to others, being fair, helping solve problems • Activity: Class leadership roles assignment • - Practice: Leading a group activity
4	Understanding Our World	• Learning about people and places • Understanding ourselves and others • Why we study about communities and cultures • Learning about our environment • Learning about families and relationships • Understanding our country Nigeria • Nigeria has many cultures and languages

		• Learning about other countries too • We are all part of the world (global citizenship) • Appreciating differences and similarities • Building social skills and values • Critical thinking: Asking questions and finding answers • Activity: Exploring different cultures through pictures • - Discussion: What we want to learn about the world
5	Mid-Term Examination	• Assessment of Topics covered in Weeks 1-4
6	Mid-Term Break	• -
7	Our Physical Environment	• What is our physical environment? • Everything around us we can see and touch • Natural features: Mountains, rivers, trees, plants, animals • Man-made features: Houses, roads, schools, bridges, markets • How environment affects how we live • People adapting to different environments • Taking care of our environment (sustainability) • Not destroying trees and plants • Protecting animals and nature • What is sustainability? Using resources wisely so they last • Our actions affect the environment • Being responsible environmental citizens • Activity: Identifying natural and man-made things • - Project: Simple environment care plan for our class
8	Foods We Eat in our Culture	• What is culture? Our way of life and traditions • Food is part of our cultural identity • Nigerian foods we eat: Jollof rice, fried rice, beans,

		yam, plantain • Soups: Egusi, okro, ogbono, efo riro, pepper soup • Swallow foods: Eba, fufu, amala, tuwo, pounded yam • Breakfast foods: Akara, moi-moi, pap, bread and tea • Snacks: Chin-chin, puff-puff, plantain chips, groundnut • Fruits: Orange, mango, banana, pawpaw, watermelon • Different foods from Nigerian cultures (Yoruba, Igbo, Hausa, others) • Appreciating cultural diversity through food • Respecting others' food choices and cultures • Sharing meals brings people together • Activity: Sharing our family's special meals • - Discussion: How food connects us to our culture
9	Importance of Good Nutrition	• Why we need to eat good food • Food gives us energy to learn and play • Food helps us grow strong and healthy • Types of food nutrients (simple): Body-building foods (protein) - fish, meat, eggs, beans • Energy foods (carbohydrates) - rice, yam, bread, garri • Protective foods (vitamins) - fruits and vegetables • Making healthy food choices (decision-making) • Eating balanced meals • Drinking clean water for health • Consequences of poor eating habits • Global issue: Some children don't have enough food • Being grateful and not wasting food • Social responsibility: Sharing with those who need

		• Activity: Creating a balanced meal plate • - Sorting foods into nutrient groups
10	Greetings and Respect in our Culture	• Culture shapes how we interact with others • Social values: Respect, courtesy, kindness • Importance of greeting others • Greetings show respect and build relationships • Nigerian cultural greetings: Yoruba (prostrating for boys, kneeling for girls) • Igbo (bowing slightly with respect) • Hausa (handshake and bowing) • Other ethnic greetings in Nigeria • Using respectful words: "Sir", "Ma", "Please", "Thank you" • Why respecting elders matters in our culture • Interpersonal skills: Listening when others speak • Helping elders and being obedient • Appreciating cultural diversity in Nigeria • Respecting different cultures and traditions • Global citizenship: Respect is valued everywhere • Activity: Practicing greetings from different cultures • - Role-play: Showing respect in various situations
11	Revision	• Comprehensive review of all topics covered in First Term
12	Examination	• End of First Term Assessment
13	Closing	• -

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES LESSON NOTES

FIRST TERM

WEEK 1: BEING A GOOD CITIZEN.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define who a citizen is.
- Mention two rights of a citizen.
- List three responsibilities of a good citizen.
- Explain how to treat people fairly.

CONTENT

RIGHTS AND RESPONSIBILITIES

Who is a Citizen?

A citizen is a member of a country. Just like you are a member of your family and a member of this school, you are also a member of our country, Nigeria. We are all citizens of Nigeria. Being a citizen means we belong here, we have a home here, and we care about our country.

Our Rights

As citizens, we have rights. Rights are things that we should have or be allowed to do.

- **Example:** Every child has the right to learn in school. You have the right to play and be happy.
- You have the right to be safe and protected from harm.
- You also have the right to be treated fairly by everyone. Rights are like promises the country makes to take care of us.

Our Responsibilities Because we have rights, we also have duties or responsibilities. To be a good citizen, you must:

- Be kind to your neighbors and friends.
- Help others when they are in need.
- Follow rules at home, at school, and in public places.
- Respect everyone, no matter who they are.
- Keep your community clean. Think of it like this: if you have the right to play in a clean park, you have the responsibility not to litter there.

Treating People Fairly A good citizen treats everyone with fairness and justice. This means we do not cheat others or treat some people better because they are our friends.

- **Example:** If two friends are arguing over a toy, a fair person would find a way to share or take turns.
- If we see something wrong happening, like someone being bullied, we should speak up and tell a trusted adult.
- We should take care of our community by keeping it clean and being proud to be Nigerian.

EVALUATION

1. Who is a citizen?
2. Mention one right you have as a child.
3. Is it good to break the rules?
4. Mention two responsibilities of a good citizen.

5. What should you do if you see something wrong?
6. Should we treat everyone fairly?
7. What country are you a citizen of?

ASSIGNMENT

1. Draw a picture of yourself doing something good for your community (like picking up litter or helping a friend).
 2. Write down two rules you must follow at school.
 3. Mention one way you can help your parents at home today.
-

WEEK 2: OUR COMMUNITY.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define a community.
- Differentiate between urban (city) and rural (village) communities.
- Mention two community values.
- State why different communities need each other.

CONTENT

What is a Community?

A community is a group of people living and working together in the same place. People in a community help one another, celebrate together, and solve problems together. Our community is part of who we are. It gives us our identity and a sense of belonging.

Types of Communities

There are different types of communities.

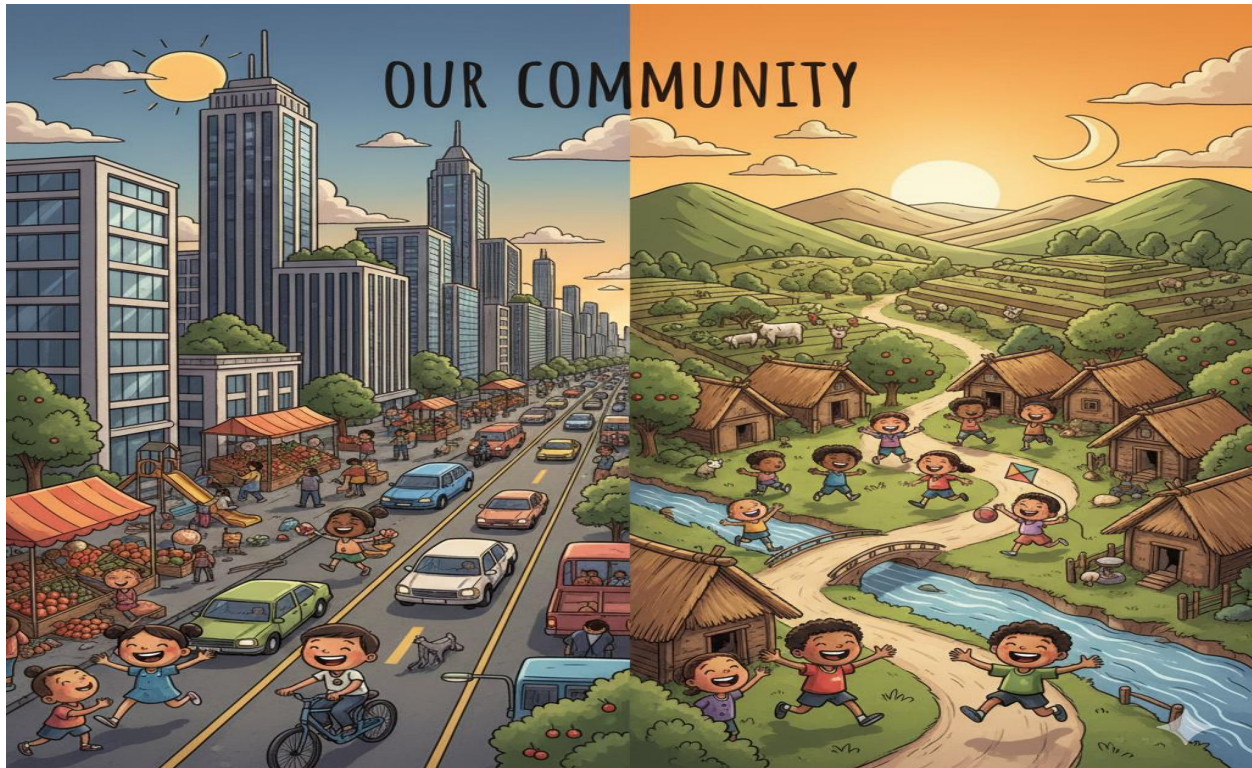

- **Urban Community:** This is a city or a big town. In an urban community, there are many tall buildings, many cars, busy markets, big hospitals, schools, and lots of people.
- **Example:** Lagos or Abuja.
- **Rural Community:** This is a village or countryside. It is usually quieter, has many farms, forests, and fresh air. The houses may be smaller and spread out.
- **Example:** A typical Nigerian farming village.

Community Values Even though communities are different, they all share important values.

Values are good behaviors that everyone agrees are important.

- **Sharing:** Sharing things with neighbors, like food or tools.
- **Helping:** Helping each other when someone is sick, building a house, or during a celebration.

- **Cooperation:** Working together to solve problems, like cleaning the village square or building a road.

How Communities Connect

Different communities depend on each other. The rural community (village) grows food like yam, cassava, and vegetables and sends it to the urban community (city). The city makes things like clothes, medicines, books, and electronics to send to the village. This exchange helps everyone. We must appreciate all types of communities.

EVALUATION

1. What is a community?
2. What do we call a community with many big buildings and cars?
3. What do we call a community with many farms and quiet areas?
4. Mention one thing a village provides for a city.
5. Mention one value that is important in a community.
6. What does cooperation mean?

ASSIGNMENT

1. Write down the name of the community (town or area) where you live.
 2. List two things you can see in a city.
 3. Ask your parents if they grew up in a city or a village and write their answer.
-

WEEK 3: LEADERS IN OUR COMMUNITY.

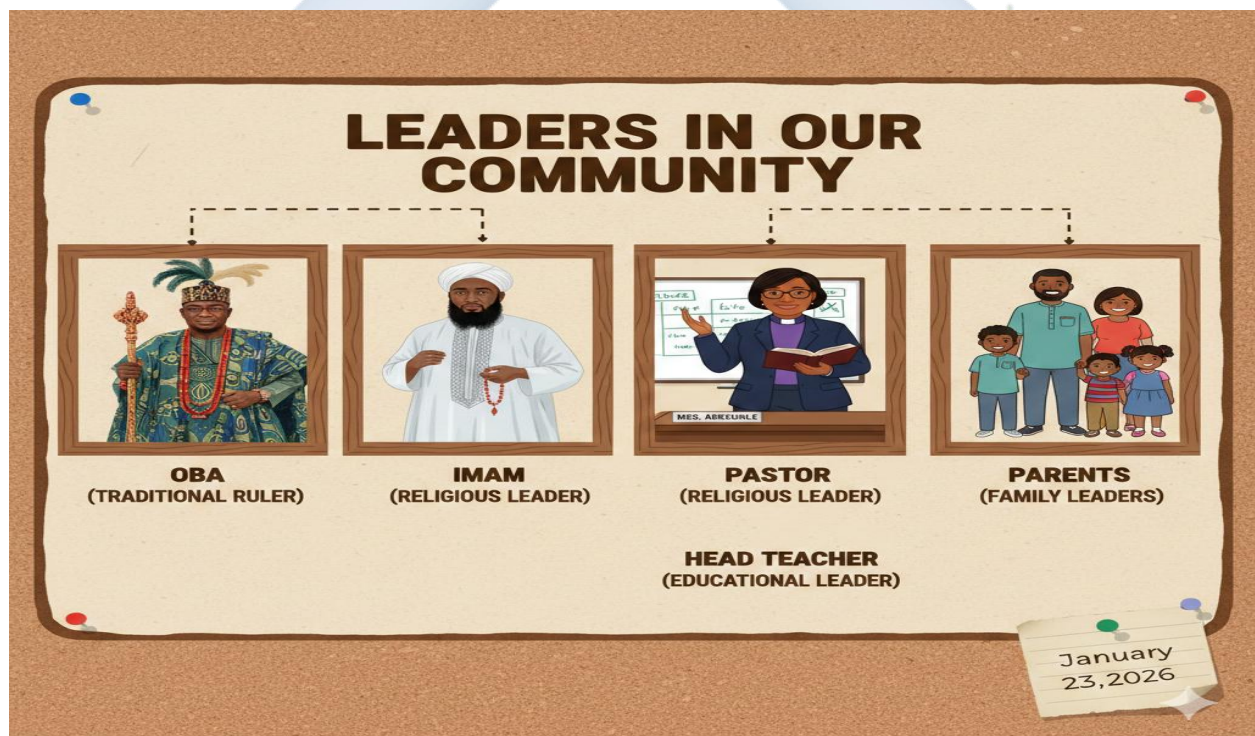

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define leadership.
- Mention three qualities of a good leader.
- Identify four types of leaders in the community.
- List two ways a child can be a leader.

CONTENT

What is Leadership?

Leadership means guiding, directing, and serving people. A leader is someone who shows others the right way to do things, makes decisions, and helps them solve problems. A leader is like the captain of a football team.

Qualities of Good Leaders

A good leader must have certain qualities:

- **Honest:** Always tells the truth.

- **Fair and Kind:** Treats everyone equally, not just their friends.
- **Brave and Helpful:** Not afraid to do what is right and ready to help others.
- **Good Listener:** Hears what people need and considers their opinions.

Types of Leaders

We have many leaders around us in different places:

- **Traditional Leaders:** These include the Oba, Emir, Obi, Chief, or Village Head. They take care of our culture, traditions, and settle disputes.
- **Religious Leaders:** These are Pastors, Imams, and priests who guide us in our faith and knowing God.
- **School Leaders:** The Head Teacher, teachers, Class Captains, and Prefects are leaders in school. They help us learn and keep the school orderly.
- **Family Leaders:** Your parents and grandparents are the leaders of your family. They take care of you and teach you right from wrong.

Leaders

/ | \
/ | \

Traditional Religious School/Family

Being a Leader We must respect and support our leaders. However, you can be a leader too!

You can be a leader by:

- Speaking clearly and politely.
- Listening to your friends and helping them.
- Helping to solve a quarrel between friends peacefully.
- Being the first to obey rules and encouraging others to do the same.

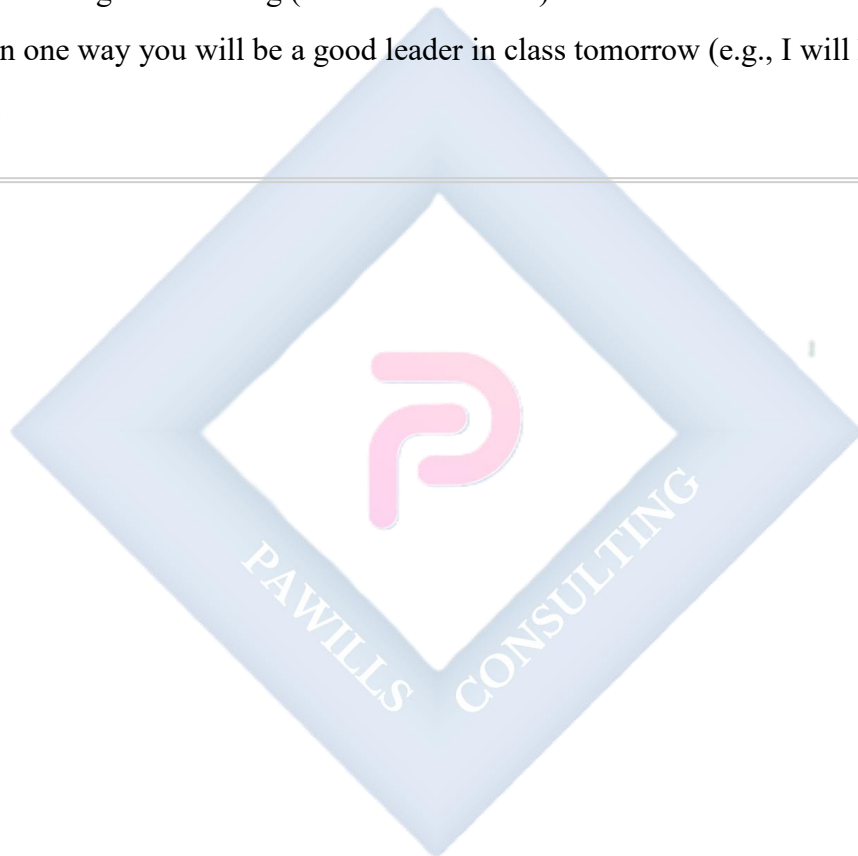

EVALUATION

1. Who is a leader?
2. Mention two qualities of a good leader.
3. Who is the leader of a school?

4. Who is a traditional leader?
5. Who leads the family?
6. Can a child be a leader?
7. How can you be a leader to your friends?

ASSIGNMENT

1. Write the name of your Class Captain or Head Teacher.
 2. Draw a stick figure of a King (Traditional Leader) with a crown.
 3. Mention one way you will be a good leader in class tomorrow (e.g., I will help tidy up the books).
-

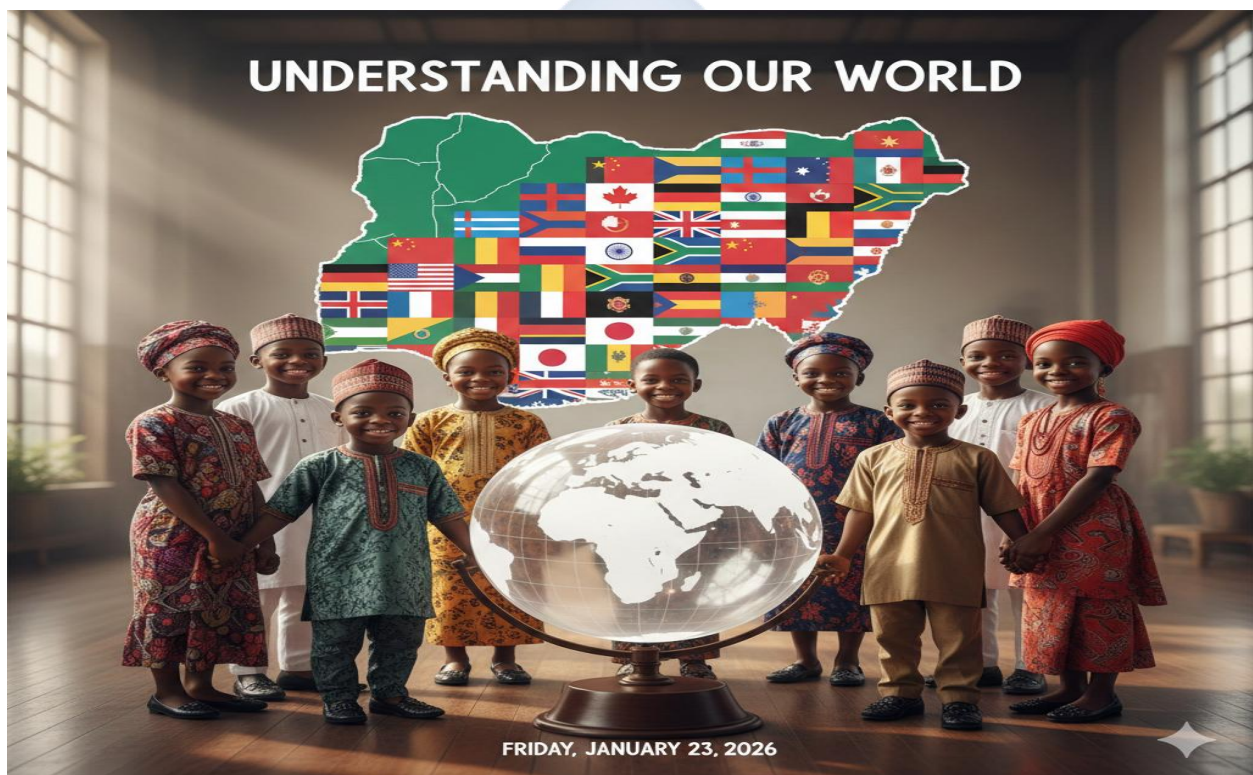

WEEK 4: UNDERSTANDING OUR WORLD.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Explain why we learn about other people and places.
- Identify that Nigeria is made up of many cultures.
- Define global citizenship simply.
- State one way we can be friends with the world.

CONTENT

Learning About People and Places

We learn about people and places so we can understand ourselves and others better. When we know about our environment and other cultures, we learn how to live happily with everyone. We also learn about families, friendships, and how to have good relationships with neighbors.

- **Example:** Learning about a festival from another tribe makes it more fun and less strange.

Understanding Nigeria

Our country, Nigeria, is very special because it is a tapestry of many different cultures and languages. Some people speak Yoruba, some speak Igbo, some speak Hausa, and there are over 250 more languages! Even though we are different in food, dress, and language, we live together as one country. Our diversity is our strength.

Global Citizenship

We are not just citizens of Nigeria; we are also citizens of the world. This is called *global citizenship*. It means we recognize that there are other countries (like Ghana, America, China) with people who may look, speak, or dress differently from us, but they are also our neighbors on planet Earth.

Appreciating Differences

We must appreciate that people are different, and being different is good! The world would be boring if everyone was the same. We build social skills by being friendly, curious, and respectful to everyone, no matter where they come from. We should ask polite questions to learn about others instead of making fun of them.

EVALUATION

1. Why do we learn about other people?
2. Does Nigeria have only one culture?
3. What is global citizenship?
4. Is it good that people are different?
5. How should we treat people from other countries?
6. Mention one language spoken in Nigeria.

ASSIGNMENT

1. Ask your parents to name one other country in the world apart from Nigeria.
2. Find a picture of a person from another culture (in a newspaper, book, or with parents' help online) and look at their clothes. What is different?
3. Write down: "I am a citizen of Nigeria and the world."

WEEK 5: MID-TERM EXAMINATION.

WEEK 6: MID-TERM BREAK.

WEEK 7: OUR PHYSICAL ENVIRONMENT.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define physical environment.
- Mention three natural features of the environment.
- List three man-made features of the environment.
- Explain the meaning of sustainability.

CONTENT

What is Our Physical Environment?

Our physical environment is everything around us that we can see, touch, and feel. It includes the land, the water, the air, the weather, and all the things built on the land. It is our home.

Natural Features Natural features are things made by nature (or God). People did not build them. Examples are:

- Mountains and hills.
- Rivers, lakes, and oceans.
- Trees, plants, and forests.
- Animals, birds, and insects.

Man-Made Features

Man-made features are things built or made by human beings. Examples are:

- Houses, schools, and markets.
- Roads, bridges, and airports.
- Cars, bicycles, and furniture.
- Toys, books, and computers.

Caring for the Environment (Sustainability) We must take care of our environment so it stays clean, healthy, and beautiful for us and for children in the future. This is called *sustainability*. It means using things wisely so they don't run out or get destroyed.

- We should not cut down trees unnecessarily.
- We should not kill animals for fun.
- We should not throw rubbish on the ground (litter).
- We should turn off taps and lights when not using them. When we use resources wisely, we are being responsible environmental citizens.

EVALUATION

1. What is the physical environment?
2. Mention two things that are natural features.
3. Is a school a natural or man-made feature?
4. Who made the rivers and trees?
5. Who built the roads and cars?
6. What does sustainability mean?
7. Why should we not destroy trees?

ASSIGNMENT

1. Look outside your house or through a window and list two natural things you can see.
 2. List two man-made things you can see in your classroom.
 3. Draw a tree (natural) and a house (man-made) side-by-side.
-

WEEK 8: FOODS WE EAT IN OUR CULTURE.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define culture simply.
- List four common Nigerian foods.
- Mention three Nigerian soups.
- Explain why sharing meals is important.

CONTENT

Food and Culture

Culture is our way of life. It includes our language, our clothes, our music, our festivals, and especially our food. The food we eat often tells people where we come from and what our traditions are. Food is a delicious part of our identity!

Nigerian Foods

In Nigeria, we are blessed with many delicious and nutritious foods. Here are some examples:

- **Rice dishes:** We eat Jollof rice, fried rice, coconut rice, and white rice with stew.

- **Swallow foods:** These are usually eaten with soup. We have Eba (made from garri), Fufu, Amala, Tuwo Shinkafa, and Pounded Yam.
- **Soups:** We eat our swallow with tasty soups like Egusi, Okro, Ogbono, Efo Riro, and Pepper Soup.
- **Breakfast:** We enjoy Akara (bean cakes), Moi-moi, Pap (akamu), or Bread and Tea.
- **Snacks:** We have treats like Chin-chin, Puff-puff, Boli (roasted plantain), and Plantain chips.

Fruits

We also have many sweet fruits like Orange, Mango, Banana, Pawpaw, Pineapple, and Watermelon. Fruits are nature's sweets!

Respecting Food Culture

Different tribes and regions have their own special foods.

- **Example:** The Efik are known for Edikanikong soup, while the Hausa have Tuwo Shinkafa. We must respect what other people eat. Sharing meals brings people together, builds friendship, and helps us appreciate our beautiful diversity.

EVALUATION

1. What is culture?
2. Mention two foods made from rice.
3. List two types of "swallow" food.
4. Mention two popular Nigerian soups.
5. Identify one Nigerian snack.
6. Why is sharing food good?

ASSIGNMENT

1. Write down your favorite Nigerian food.
2. Ask your parents to tell you the name of a food from another tribe in Nigeria.
3. Draw a plate of food (like rice) with a fruit (like a mango) next to it.

WEEK 9: IMPORTANCE OF GOOD NUTRITION.

OBJECTIVES By the end of the lesson, pupils should be able to:

- State why we need to eat good food.
- Mention the three main groups of food.
- Define a balanced diet.
- Explain why we should not waste food.

CONTENT

Why We Need Food

We need to eat good food because:

- It gives us *energy* to run, play, think, and learn in school.
- It helps us *grow* tall and strong.
- It helps our bodies *fight sickness* and heal when we are hurt. If we do not eat well, we can get sick, feel weak, and not grow properly.

Types of Food Nutrients

To be healthy, we need to eat different types of food, each with a special job:

- **Body-building foods (Protein):** These help us grow muscles and repair our bodies.
- **Examples:** Fish, meat, chicken, eggs, beans, and milk.
- **Energy foods (Carbohydrates):** These give us power to work and play all day.
- **Examples:** Yam, rice, bread, garri, maize, and potatoes.
- **Protective foods (Vitamins & Minerals):** These fight sickness and keep our eyes, skin, and bones healthy.
- **Examples:** Fruits (orange, mango) and vegetables (spinach, tomatoes, carrots).

Eating Well (Balanced Diet) A meal that has a little bit of food from all these groups is called a *balanced diet*.

- **Example:** A plate of rice (energy) with fish (body-building) and vegetables (protective) is a balanced meal. We must also drink plenty of clean water every day.

Not Wasting Food

Many children in the world do not have enough food to eat. Therefore, we should be grateful for the food we have. We must not waste it by taking more than we can eat or throwing good food away. We should share with those who are hungry.

EVALUATION

1. Why do we eat food?
2. Which foods give us energy?
3. Which foods help us grow?
4. What do fruits and vegetables do for the body?
5. What is a balanced diet?
6. Why should we not waste food?

ASSIGNMENT

1. List what you ate for breakfast or lunch today. Can you identify which food group each item belongs to?
 2. Mention one fruit you like to eat.
 3. Write "I will not waste my food" in your notebook and draw a happy plate.
-

WEEK 10: GREETINGS AND RESPECT IN OUR CULTURE.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Explain why we greet people.
- Describe how to greet in two different Nigerian cultures.
- Mention three respectful words we should use.
- State why we must respect elders.

CONTENT

Why We Greet

Greeting is very important in our culture. It is the first step in social interaction. It shows *respect, kindness, and friendliness*. When you greet someone, it shows you have good manners, you acknowledge them, and you wish them well. It makes people feel happy and valued.

RESPECT

How We Greet in Nigeria

Different tribes have different respectful ways of greeting elders:

- **Yoruba:** Boys often *prostrate* (lie flat on the ground) to greet elders, and girls *kneel down*. They say "E kaaro" (Good morning).
- **Igbo:** People often *bow slightly* or *bend their knees* with a respectful nod. They say "Kedu" (How are you?) or "Ndewo."
- **Hausa:** People may *squat slightly* or bow and shake hands while saying "Sannu" (Hello) or "Ina kwana?" (Good morning?).

Using Respectful Words

Apart from actions, we use special words to show respect:

- We should always say "Sir" to men and "Ma" or "Madam" to women.
- We must use *magic words* like "Please," "Thank you," "Sorry," and "Excuse me."

Respecting Elders

In our culture, elders have wisdom from living many years. They have taken care of us. We must:

- Listen quietly when they speak.
- Help them when they need it (e.g., carry something for them).
- Be obedient and follow their good advice. Respect is a universal value that is important all over the world.

EVALUATION

1. Why do we greet people?
2. How do Yoruba boys greet elders?
3. How do Yoruba girls greet elders?
4. Mention two respectful words (magic words).
5. Who should we say "Ma" to?
6. Why should we respect elders?

ASSIGNMENT

1. Demonstrate how to greet your parents or grandparents properly when you get home today.

2. Write down three magic words that show respect.
 3. Ask your parents how to say "Good Morning" in your local language and practice saying it.
-

WEEK 11: REVISION.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Recall the definition of a citizen and a community.
- Identify natural and man-made features.
- List the three food groups.
- Demonstrate respectful greetings.

CONTENT

Review of First Term Work We will review all the important topics we have learned this term:

- **Citizenship:** We are members of Nigeria with rights (to safety, education) and responsibilities (to be kind, obey rules, keep clean).
- **Community:** We live in urban (city) or rural (village) communities that work together and share values like cooperation.
- **Leaders:** We have traditional, religious, school, and family leaders who guide us. We can all be leaders by being helpful and fair.
- **Our World:** Nigeria has many cultures. We are also global citizens who should be friendly to all people.
- **Environment:** We have natural things (trees, rivers) and man-made things (houses, roads). We must care for our environment sustainably.
- **Food & Culture:** We eat delicious Nigerian foods from different tribes. We need a balanced diet from three food groups (Body-building, Energy, Protective) to be healthy.
- **Respect:** We show respect through proper greetings and using polite words, especially to our elders.

Let's practice and remember these lessons to become better citizens!

EVALUATION

1. Who is a citizen?
2. Give one example of a natural feature.

3. What food gives us energy?
4. How do you show respect to an elder in your culture?
5. What is the difference between a city and a village?

ASSIGNMENT

1. Study your notes to prepare for the end of term tests.
2. Ensure your notebook is neat and up to date.
3. Practice being a good citizen during the holiday by helping at home and in your community.

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES SCHEME OF WORK

SECOND TERM

Week	Topic	Breakdown/Subtopics
1	Keeping our Environment Clean	• What is our environment? • Home, school, and community surroundings • Why environmental cleanliness matters • Clean environment = healthy people • Sustainability: Taking care so environment lasts • Dirty environment causes diseases • Our civic responsibility to keep environment clean • Ways to maintain cleanliness: Using dustbins, sweeping, no littering • Proper waste disposal • Reducing waste (using less) • Reusing items when possible • Recycling materials • Working together for clean community • Leadership in environmental care • Activity: Classroom cleaning project organization • - Creating recycling bins for class
2	Environmental Health and Protection	• How dirty environment affects health • Diseases from unclean environment: Malaria, cholera, typhoid • How diseases spread in dirty places • Preventing diseases through cleanliness • Community sanitation and cooperation • Taking initiative in keeping things clean • Making our environment beautiful • Planting trees and flowers (sustainability) • Protecting water sources from pollution

		• Not throwing waste in drains and gutters • Global environmental issues (simple): Pollution, too much waste • Being responsible global citizens • Social justice: Everyone deserves clean environment • Activity: Environmental awareness poster making • - Project: "Keep it Clean" campaign planning
3	Safety at Home and School	• Understanding safety and why it matters • What are accidents? • Common accidents: Falls, burns, cuts, injuries • Identifying dangerous situations (critical thinking) • Accidents at home: Slippery floors, hot objects, sharp items, electricity • Accidents at school: Playground injuries, running in class, fighting • Causes of accidents: Carelessness, not following rules, not paying attention • Personal responsibility in staying safe • Making safe choices (decision-making skill) • Being aware of surroundings (mindfulness) • Looking out for others' safety (empathy) • Social responsibility: Warning others of danger • Activity: Safety inspection in classroom • - Identifying potential hazards
4	Accident Prevention and Response	• How to prevent accidents (problem-solving) • Safety rules at home: Walk don't run, be careful with heat, keep sharp things away, don't touch electrical outlets • Safety rules at school: Follow teacher's instructions, don't push or fight, play carefully and safely • Self-discipline in following safety rules

		• Taking care of ourselves and others • What to do when accidents happen: Stay calm (emotional control), call for help immediately, tell an adult, don't move injured person • Basic first aid awareness: Cleaning small cuts, applying bandages • Communication skills in emergencies • Being responsible and helpful in crisis • Compassion for accident victims • Activity: Creating classroom safety rules chart • - Practice: Emergency response role-play
5	Mid-Term Examination	• Assessment of Topics covered in Weeks 1-4
6	Mid-Term Break	• -
7	Understanding Medicines	• What are medicines/drugs? • Medicines help cure sickness and reduce pain • Types of medicines: Tablets, syrups, injections, capsules • Where medicines come from: Doctors, pharmacies, hospitals • Who gives us medicines: Doctors, nurses, parents • Common medicines children know: Paracetamol, cough syrup • Proper use of medicines • Following instructions carefully (discipline) • Only adults should give children medicine • Never taking medicine without permission • Trusting medical professionals • Decision-making: Asking when unsure • Social responsibility: Not sharing medicines • Activity: Identifying medicine containers safely

		• - Discussion: Why we need adult permission
8	Drug Abuse and Making Good Choices	• What is drug abuse? • Using medicines wrongly or dangerously • Taking medicine without permission • Taking too much medicine • Taking someone else's medicine • Understanding consequences (critical thinking) • Why drug abuse is very dangerous: Serious sickness, poisoning, death • Peer pressure: When friends ask you to do wrong things • Emotional intelligence: Recognizing dangerous situations • Self-control and making good choices • Assertiveness: Saying "No" confidently • Being brave to refuse wrong things • Reporting concerning behavior to adults • Social responsibility: Helping friends make good choices • Activity: "Just Say No" practice scenarios • - Building confidence in refusing
9	Identifying Harmful Substances	• What are harmful substances? • Dangerous things that can hurt or kill us • Types of harmful substances: Poisons (rat poison, insecticides), Cleaning products (bleach, detergent) • Chemicals (kerosene, petrol, spirits) • Unknown plants and berries • Expired or spoiled food and drinks • Understanding dangers (risk awareness) • Why accidents happen with harmful substances • Critical thinking: Identifying dangerous items

		• Warning labels and danger symbols • Skull and crossbones means poison • Consequences of taking harmful substances • Personal responsibility in safety • Being cautious and careful • Activity: Identifying warning symbols on products • - Creating safety warning posters
10	Avoiding Harmful Substances	• How to avoid harmful substances (decision-making) • Never eat or drink anything unknown • Always ask an adult first • Don't smell, taste, or touch chemicals • Stay away from cleaning products • Don't pick and eat unknown berries or plants • Wash fruits and vegetables before eating • Check food expiry dates with adults • Drink only clean, safe water • What to do if you swallow harmful substance: Tell adult immediately (don't hide it), Go to hospital quickly, Stay calm • Communication skills in emergencies • Courage to speak up when scared • Social responsibility: Helping siblings stay safe • Leadership: Teaching younger children safety • Activity: Safety rules poster competition • - Role-play: Responding to dangerous situations
11	Revision	• Comprehensive review of all topics covered in Second Term
12	Examination	• End of Second Term Assessment
13	Closing	• -

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES LESSON NOTES

SECOND TERM

WEEK 1: KEEPING OUR ENVIRONMENT CLEAN.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define the term "environment."
- Explain why a clean environment is important for our health.
- List three ways to keep the environment clean.
- Differentiate between reducing, reusing, and recycling.

CONTENT

What is our Environment?

Our environment is everything around us. It includes our home, our school, the playground, the roads, the air we breathe, and the community we live in. It is our shared home.

Why Cleanliness Matters

We must keep our environment clean because a dirty environment is unhealthy. It attracts flies, mosquitoes, rats, and germs that cause diseases like cholera and malaria. A clean environment makes us healthy, happy, and proud of where we live. It is also more beautiful!

Ways to Keep the Environment Clean

To be good citizens, we must take care of our surroundings by:

- **Sweeping and Cleaning:** We sweep our rooms, classrooms, and compound every day.
- **Using Dustbins:** We must never throw litter like sweet wrappers, plastic, or paper on the floor. Always put them in a dustbin.
- **Proper Waste Disposal:** We should cover our dustbins and dispose of rubbish properly, not in gutters or rivers.
- **Weeding:** Cutting overgrown grass around the house and school.

The 3 Rs: Reduce, Reuse, Recycle

We can help the environment even more by following the "3 Rs":

- **Reduce:** Use less of something to create less waste.
- **Example:** Use a reusable water bottle instead of buying many small plastic bottles.
- **Reuse:** Use an item again instead of throwing it away.
- **Example:** Use an old plastic bottle as a flower pot, pencil holder, or toy.
- **Recycle:** Gather old papers, cans, plastic bottles, and glass so they can be taken to a factory and made into new things.
- **Example:** Old newspapers can be recycled into new paper.

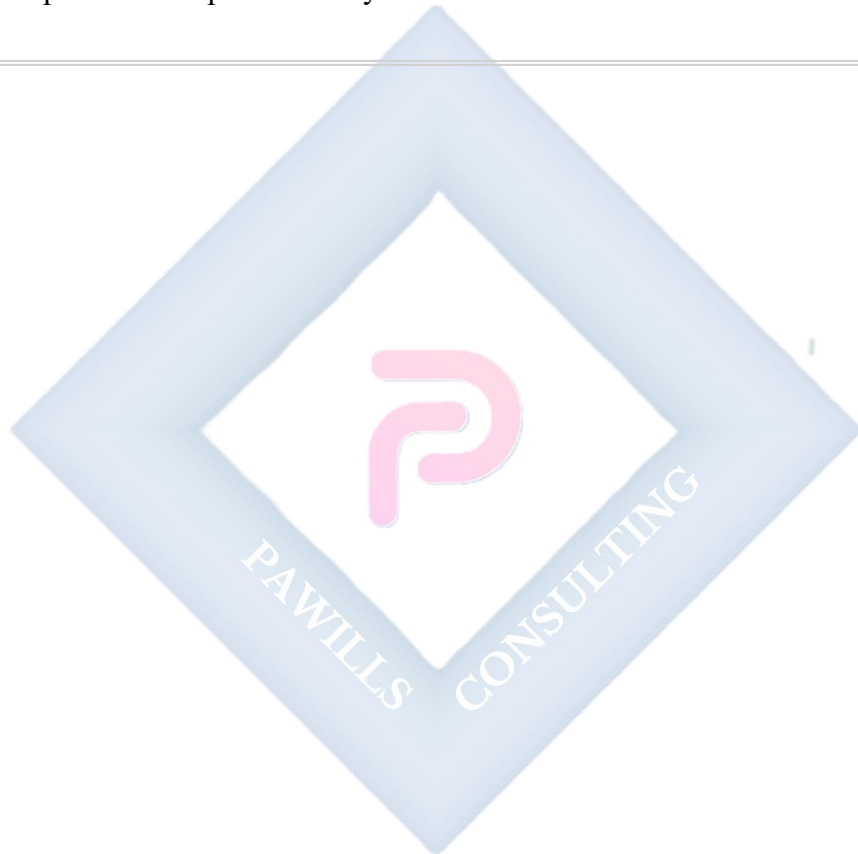

EVALUATION

1. What is the environment?
2. Why is a dirty environment bad?
3. Where should we throw our rubbish?

4. Mention one tool we use to clean the floor.
5. Give one example of reusing an item.
6. True or False: We should throw trash out of the car window.

ASSIGNMENT

1. Draw a picture of a broom and a dustpan.
 2. List three waste items you throw in the dustbin every day.
 3. Help your parents sweep a room in your house.
-

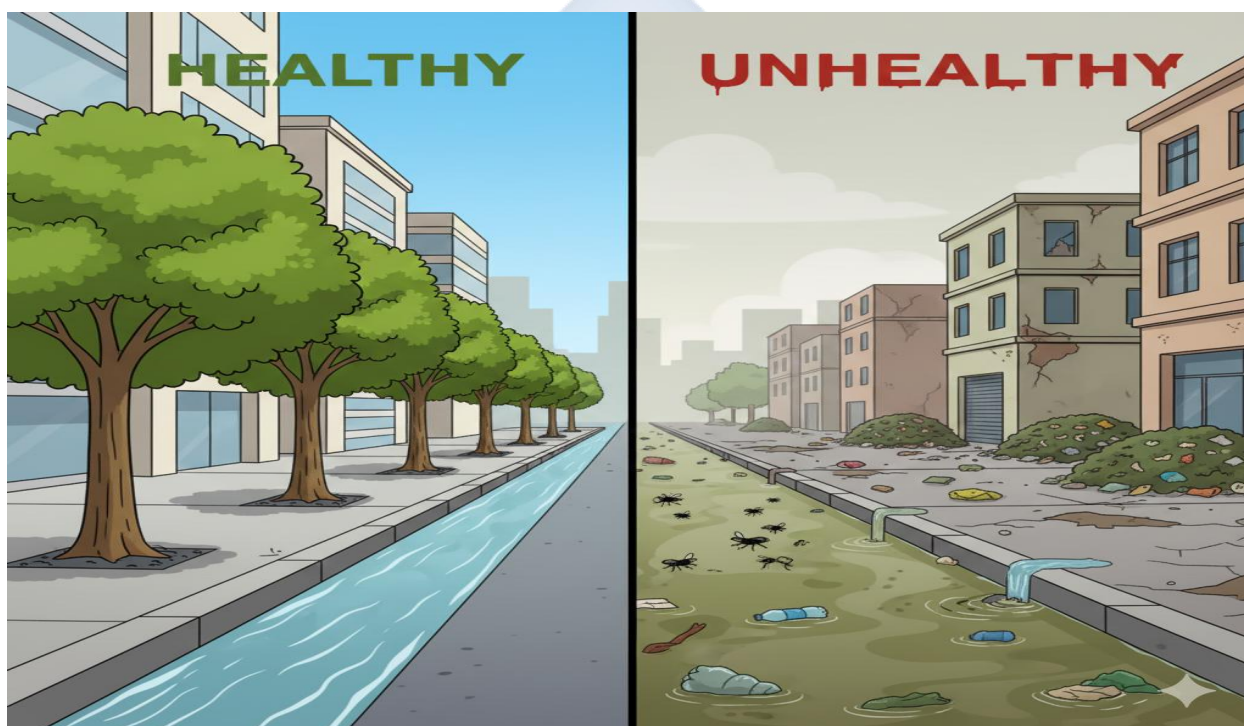

WEEK 2: ENVIRONMENTAL HEALTH AND PROTECTION.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Mention three diseases caused by a dirty environment.
- Explain how diseases spread in dirty places.
- State two ways to protect our water sources.
- Describe how planting trees helps the environment.

CONTENT

Diseases from a Dirty Environment

When we leave our environment dirty, we invite sickness. Germs and pests thrive in dirt.

- **Malaria:** Caused by mosquitoes that breed in stagnant (standing) dirty water in gutters, empty cans, or old tyres.
- **Cholera and Typhoid:** Caused by germs from dirty water, unwashed food, or flies that land on rubbish and then on our food.
- **Lassa Fever:** Spread by rats that come to eat uncovered rubbish or food left out.

Preventing Diseases

We can stop these diseases by practicing good hygiene:

- Cover food and water.
- Clean gutters and drains so rainwater can flow and not become stagnant.
- Do not throw rubbish into rivers or streams where people get drinking water.
- Wash hands with soap after using the toilet and before eating.

Making our Environment Beautiful and Healthy

We can protect and improve our environment by:

- **Planting Trees and Flowers:** Trees give us fresh oxygen to breathe, provide shade from the sun, and make our community look beautiful. Flowers attract butterflies and make us happy.
- **Keeping it Clean:** A clean community is a healthy community. Everyone deserves a clean and safe place to live, play, and learn.

EVALUATION

1. Name one disease caused by a dirty environment.
2. What insect causes malaria?
3. Where do mosquitoes like to lay their eggs?
4. Why should we not throw rubbish in the gutter?
5. How do trees help us?
6. True or False: Rats like clean places.

ASSIGNMENT

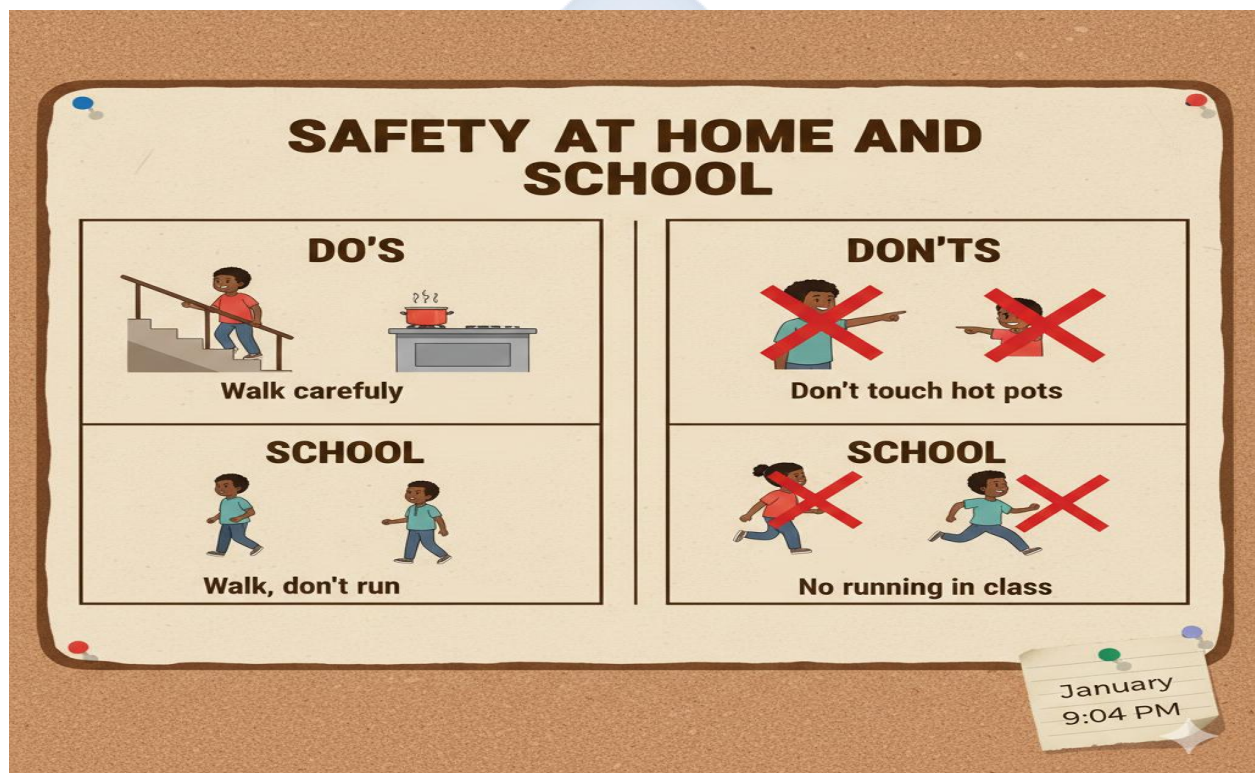

1. Draw a beautiful garden with a tree and flowers.
2. Look around your house for any standing water (in containers, old buckets) and tell your parents (to prevent mosquitoes).
3. Write one sentence: "I will keep my water clean and covered."

WEEK 3: SAFETY AT HOME AND SCHOOL.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define an accident.
- List three common accidents that happen at home.
- List three common accidents that happen at school.
- Identify the causes of these accidents.

CONTENT

What is an Accident?

An accident is something bad that happens suddenly and unexpectedly, causing pain, injury, or damage. It happens when we are not careful.

Common Accidents at Home

Home should be safe, but accidents can happen if we are not careful:

- **Falls:** Slipping on a wet floor or tripping over toys left on the floor.

- **Burns and Scalds:** Touching a hot pot, iron, stove, or spilling hot water/tea.
- **Cuts:** Playing with sharp knives, scissors, or stepping on broken glass.
- **Electric Shock:** Putting fingers or objects into electrical sockets, or touching plugs with wet hands.
- **Poisoning:** Swallowing harmful substances like kerosene, detergent, or medicines.

Common Accidents at School

We must also be safe at school:

- **Playground Injuries:** Falling from a swing, slide, or seesaw.
- **Collisions:** Running in the classroom or hallway and bumping into another pupil or furniture.
- **Puncture Wounds:** Being poked by a sharp pencil, compass, or scissors.
- **Sports Injuries:** Getting hurt during football or other games.

Causes of Accidents

Accidents are usually caused by:

- **Carelessness** (not paying attention to what we are doing).
- **Disobeying Rules** (running where we should walk).
- **Rough Play** (fighting, pushing, or shoving).
- **Untidiness** (leaving toys, shoes, or bags on the floor where people can trip).

EVALUATION

1. What is an accident?
2. Mention one object that can cause a cut.
3. Mention one object that can cause a burn.
4. Why is it dangerous to run in the classroom?
5. What should you do with your toys after playing?
6. Is fighting a cause of accidents?

ASSIGNMENT

1. List three sharp objects found in your kitchen (ask your parents for help).
 2. Draw a picture of a knife with a big "X" over it to show it is dangerous for children to play with.
 3. Write down one safety rule for your bedroom (e.g., "I will not jump on the bed").
-

WEEK 4: ACCIDENT PREVENTION AND RESPONSE.

OBJECTIVES By the end of the lesson, pupils should be able to:

- List three safety rules to prevent accidents.
- Explain what to do immediately when an accident happens.
- Describe simple first aid for a small cut.
- Demonstrate how to call for help.

CONTENT

ACCIDENT PREVENTION AND RESPONSE

1. CALL FOR HELP

2. CLEAN THE WOUND

3. COVER WITH PLASTER

FRIDAY, JANUARY 23, 2026

Safety Rules to Prevent Accidents

We can prevent most accidents by following simple safety rules:

- **At Home:** Do not play in the kitchen. Keep away from fire, hot objects, and electricity sockets. Put toys away after use. Do not touch unknown liquids or medicines.
- **At School:** Walk, do not run in the hallways and classrooms. Listen to the teacher's instructions. Do not push or shove friends on the playground. Use equipment properly.

What to do when Accidents Happen

If you or a friend gets hurt:

- **Stay Calm:** Do not panic. Take a deep breath.
- **Call for Help Immediately:** Shout for a teacher, parent, or any trusted adult nearby. Do not try to handle serious injuries yourself.
- **Do Not Move the Injured Person:** If someone has fallen and might have a broken bone or neck/back injury, do not try to lift them. Wait for an adult.

Basic First Aid *First aid* is the first and immediate help given to an injured person before a doctor comes. For a small cut or scrape:

- Tell an adult.
- Wash the cut gently with clean water.
- Cover it with a clean plaster or bandage.

For a minor burn:

- Tell an adult.
- Gently pour cool (not ice-cold) water over the burn for a few minutes.
- Do not put butter, oil, or toothpaste on a burn.

EVALUATION

1. Should we run or walk in the classroom?
2. Who should you call if a friend gets hurt?
3. What is the first thing you should do for a small cut (after telling an adult)?
4. Why should you not play in the kitchen?
5. True or False: You should hide if you break something and get cut.
6. What is "First Aid"?

ASSIGNMENT

1. Draw a First Aid Box (a box with a red cross on it).
2. Write down the emergency phone number for your parents or guardian. Memorize it.
3. Practice walking slowly and carefully from your room to the kitchen (no running!).

WEEK 5: MID-TERM EXAMINATION.

WEEK 6: MID-TERM BREAK.

WEEK 7: UNDERSTANDING MEDICINES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define medicine.
- Mention two forms of medicine (e.g., tablets, syrup).
- Identify who is allowed to give children medicine.
- Explain why we take medicine.

CONTENT

What are Medicines?

Medicines (also called drugs) are special substances we take when we are sick or hurt. They help to cure sickness, kill germs, reduce pain (like headache or stomach ache), or control long-term illnesses. Medicines are helpful when used correctly but can be dangerous if used wrongly.

Common Forms of Medicines

Medicines come in different forms:

- **Tablets/Pills:** Small, hard round or oval solids that we swallow with water.

- **Syrups:** Liquid medicine that usually tastes sweet or fruity. We take it with a spoon or measuring cup.
- **Injections:** Medicine given with a needle by a nurse or doctor at the clinic or hospital.
- **Capsules:** Medicine inside a small gel shell that we swallow.
- **Ointments/Creams:** Medicine we rub on our skin for rashes or cuts.

Proper Use of Medicines

Medicines are powerful. We must use them safely:

- Only take medicine given to you by your **Parents**, a **Doctor**, or a **Nurse**.
- Never take medicine from a stranger, a friend, or by yourself.
- Never take medicine just because it looks like sweet or candy. Medicine is not candy.
- Always follow the instructions: how much to take (one spoon, half a tablet) and when to take it (morning, night, after food).
- Store medicines in a safe, high place away from children.

EVALUATION

1. Why do we take medicine?
2. Mention two types (forms) of medicine.
3. Who is the only person who should give you medicine at home?
4. Should you take medicine if you are not sick?
5. Is medicine candy?
6. Where do we buy medicines from? (Pharmacy/Chemist).

ASSIGNMENT

1. Ask your parents to show you where they keep medicines at home (do not touch them).
2. Draw a bottle of cough syrup or a tablet.
3. Write a sentence: "I will only take medicine from my parents or a doctor."

WEEK 8: DRUG ABUSE AND MAKING GOOD CHOICES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define drug abuse simply.
- List three examples of drug abuse.
- Explain the dangers of drug abuse.
- Demonstrate how to say "No" to bad peer pressure.

CONTENT

What is Drug Abuse?

Drug abuse means using medicines in the wrong way, for the wrong reason, or using bad, illegal substances that hurt the body and mind. It is a very dangerous behavior.

Examples of Drug Abuse

- Taking medicine when you are not sick.

- Taking someone else's medicine.
- Taking too much medicine (overdose).
- Taking medicine without asking or telling an adult.
- Smoking cigarettes, sniffing glue, or taking illegal drugs like marijuana (Indian hemp).

Dangers of Drug Abuse Using drugs wrongly can:

- Make you very sick, vomit, or have a stomach ache.
- Damage your brain, heart, and other organs.
- Make you behave in a strange or violent way.
- Lead to addiction (when you can't stop even if you want to).
- Cause serious injury or even death.

Making Good Choices (Saying NO to Peer Pressure) Sometimes friends or older children might try to persuade you to try something bad, like taking a pill or sniffing something. This is called *Peer Pressure*. You must be brave and say "**NO!**" loudly and clearly.

- You can say: "No, that's dangerous," "No, I don't want to," or "My parents said I should never do that."
- Walk away from that person or situation immediately.
- Tell a trusted adult (parent, teacher) right away. A real friend will never ask you to do something that can hurt you.

EVALUATION

1. What is drug abuse?
2. Is it okay to take your friend's medicine?
3. What can happen if you take too much medicine?
4. What should you say if a friend asks you to take strange pills?
5. Who should you report to if you see drug abuse?
6. Does drug abuse make you healthy or sick?

ASSIGNMENT

1. Practice saying "No!" in a strong, clear voice in front of a mirror.
 2. Write down the names of three adults you trust to talk to if you are pressured (e.g., Mom, Dad, Teacher, Aunt).
 3. Draw a big "Stop" sign () in your notebook to represent stopping drug abuse.
-

WEEK 9: IDENTIFYING HARMFUL SUBSTANCES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define harmful substances.
- List three common harmful substances found at home.
- Identify the danger symbol for poison.
- Explain why expired food is harmful.

CONTENT

What are Harmful Substances?

Harmful substances are dangerous things that can hurt our bodies, make us very sick, or even kill us if we eat, drink, touch, or breathe them. They are not meant for the human body.

Common Harmful Substances at Home

Many homes have these substances for cleaning or other uses, but they are NOT for children:

- **Cleaning Products:** Bleach, detergent, toilet cleaner, oven cleaner.

- **Poisons:** Rat poison, insecticides (fly and mosquito spray), weed killer.
- **Fuels and Chemicals:** Kerosene, petrol, diesel, methylated spirit, paint thinner.
- **Medicines (if misused):** As we learned, medicines can be harmful if taken wrongly.

Spoiled Food and Drinks Food or drinks that have *expired* (passed their safe-to-eat date) can grow bad germs. Food that smells bad, looks moldy, or has changed color is harmful.

Identifying Danger We must be very careful and learn to identify danger:

- Look at bottles and containers carefully. Do not touch them.
- Many dangerous bottles have a **Skull and Crossbones** ☠ symbol on them.
- This means **POISON** or **DANGER**.
- Some have words like "DANGER," "POISON," "KEEP OUT OF REACH OF CHILDREN."
- Never put any liquid from an unmarked bottle into your mouth.
- **Example:** Kerosene in a water bottle looks like water but is very dangerous.

EVALUATION

1. What is a harmful substance?
2. Is kerosene safe to drink?
3. Mention one cleaning product that is harmful if swallowed.
4. What symbol shows that something is poison?
5. What does "expired" mean for food?
6. Should we play with rat poison?

ASSIGNMENT

1. Draw the "Skull and Crossbones" (☠) danger symbol in your notebook.
2. With your parent's permission, look at one cleaning item in your house (like a detergent bottle) and read the warning label together.
3. List two liquids in your house that are NOT for drinking (e.g., kerosene, bleach).

WEEK 10: AVOIDING HARMFUL SUBSTANCES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- List three rules to avoid harmful substances.
- Explain what to do if a harmful substance is swallowed.
- Demonstrate how to check if food is safe (washing/asking).
- Mention why we should wash fruits.

CONTENT

AVOIDING HARM

HEALTHY HABITS

**ASKING BEFORE
TASTING**

WASHING FRUITS

**AVOIDING HARMFUL
SUBSTANCES**

How to Avoid Harm

We can keep ourselves safe by following these important rules:

- **Never Taste Unknown Things:** If you don't know what it is, never put it in your mouth, even if it looks like juice or candy.
- **Ask First, Always:** Always ask a parent or guardian before eating or drinking anything that wasn't given to you at the table.

- **Do Not Touch:** Do not play with bottles, containers, or packets of cleaning products, fuels, or medicines.
- **Wash Before Eating:** Always wash fruits and vegetables with clean water before eating them. This removes dirt, germs, and chemicals from the farm.
- **Check Dates:** Ask an adult to check the *expiry date* on packaged food like biscuits, milk, and drinks. Do not eat food that is expired.

What to do in an Emergency

If you or a sibling accidentally swallows something harmful:

- **Tell an Adult IMMEDIATELY:** Do not hide it because you are scared. Time is very important.
- **Bring the Bottle/Container:** Show the adult exactly what was swallowed so they know what it is and can tell the doctor.
- **Do Not Make the Person Vomit:** Unless a doctor says so, do not try to make them drink anything or vomit.
- **Go to the Hospital Quickly:** The adult will take the person to the hospital or clinic right away.

EVALUATION

1. What is the most important rule about unknown liquids or substances?
2. Why do we wash fruits and vegetables?
3. What should you do if you or someone swallows something harmful by mistake?
4. Should you hide if you make a mistake and drink something bad?
5. Who should check the expiry date on food?
6. Why should you not touch cleaning products?

ASSIGNMENT

1. Wash a fruit (like an apple or orange) properly under running water before eating it today.
2. Write down in your notebook: "I will always ask an adult before I taste anything new."

3. Create a small "Danger" poster: draw a bottle with a "☠" symbol and write "DO NOT TOUCH" on it.
-

WEEK 11: REVISION.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Recall the rules for keeping the environment clean.
- Identify safety rules for home and school.
- Explain the difference between medicine and harmful substances.

CONTENT

Review of Second Term We will review all the important topics we have learned this term:

- **Cleanliness:** Sweeping, using dustbins, the 3 Rs (Reduce, Reuse, Recycle), and preventing diseases like Malaria by removing stagnant water.
- **Safety at Home & School:** Common accidents (falls, burns, cuts) and their causes. Safety rules to prevent them (walk, don't run; put things away).
- **First Aid & Response:** What to do when an accident happens (stay calm, call an adult), and simple first aid for cuts and burns.
- **Medicines:** What they are for, their forms (tablets, syrup), and the crucial rule: only take medicine from parents/doctors.
- **Drug Abuse:** The wrong use of medicines/drugs, its dangers, and how to say NO to peer pressure.
- **Harmful Substances:** Identifying poisons, cleaners, fuels, and expired food. Knowing the skull and crossbones symbol ☠ and rules to avoid them.

Remember, the goal is to keep ourselves and others healthy, safe, and happy!

EVALUATION

1. What causes Malaria?
2. Mention one safety rule at school.
3. Who can give you medicine?
4. What symbol means poison?
5. What should you do first if you have a small cut?

6. Why must we wash our hands?

ASSIGNMENT

1. Study your notes to prepare for the examination.
2. Check your home for one safety hazard (e.g., a toy on the stairs) and tell your parents.
3. Organize your school bag and keep it clean and tidy.

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES SCHEME OF WORK

THIRD TERM

Week	Topic	Breakdown/Subtopics
1	Understanding Danger and Security	• What is security? Being safe and protected • What is danger? Things that can harm us • What is insecurity? When we are not safe • Understanding personal safety (critical thinking) • Sources of danger at home: Fire, electricity, sharp objects, hot things, strangers • Sources of danger at school: Bullies, broken equipment, unsafe play areas • Sources of danger in community: Bad roads, open gutters, fast vehicles, crime • Natural dangers: Floods, storms, lightning • Emotional intelligence: Recognizing when you feel unsafe • Trusting your instincts about danger • Civic responsibility: Reporting dangers to adults • Activity: Creating a danger awareness map • Discussion: What makes us feel safe or unsafe?
2	Personal Safety Strategies	• How to stay safe (problem-solving skills) • Fire safety: Don't play with matches, know exit routes, "stop-drop-roll" if clothes catch fire • Electrical safety: Don't touch outlets, keep away from wires • Stranger danger awareness: Never follow strangers, Don't accept gifts from strangers, Don't enter stranger's car or house, Scream "Help!" and run if approached

		• Road safety: Look left-right-left before crossing, Use zebra crossings, Don't play on the road • Dealing with bullies (conflict resolution): Tell a teacher or parent, Don't fight back, Stay with friends, Walk away calmly • Emotional intelligence: Managing fear appropriately • Assertiveness: Speaking up for yourself • Decision-making under pressure • Knowing important information: Full name, parents' phone numbers, home address • Activity: Safety scenario practice • Role-play: What to do in emergencies
3	People Who Protect Us - Police	• Understanding security agencies • People whose job is to keep us safe • Why we need people to protect us • The Nigeria Police Force • Police uniform: Black or blue • What police do: Catch criminals and thieves, Protect people and property, Control traffic and maintain order, Help people in danger and emergencies • Police maintain law and order • Police stations in our community • Police emergency numbers: 112, 767 • When to call the police • Social values: Respecting police officers • Civic responsibility: Cooperating with police • Obeying laws and rules • Being honest with police • Activity: Drawing police officers at work • Discussion: How police help our community
4	People Who Protect	• Nigerian Army: Uniform (camouflage - green and

	Us - Armed Forces	brown) • Army duties: Protect our country from enemies, Defend Nigeria's borders, Fight wars if needed, Help during emergencies and disasters • Nigerian Navy: Uniform (white) • Navy duties: Protect our seas and rivers, Stop pirates and criminals on water, Patrol coastlines • Nigerian Air Force: Uniform (blue-grey) • Air Force duties: Protect our skies, Fly military planes, Watch over Nigeria from the air • Understanding national security • Why protecting our country matters • Courage and sacrifice of military personnel • Appreciating those who serve (gratitude) • National pride and patriotism • Social justice: Everyone deserves to be safe • Activity: Matching uniforms to agencies • - Discussion: Why people serve their country
5	Mid-Term Examination	• Assessment of Topics covered in Weeks 1-4
6	Mid-Term Break	•
7	People Who Protect Us - Safety Services	• Nigerian Civil Defence Corps (NSCDC): Uniform (green), Duties: Protect government buildings, Help during disasters, Protect important facilities • Federal Road Safety Corps (FRSC): Uniform (white and green), Duties: Keep roads safe, Control traffic on highways, Check vehicles for safety, Help accident victims, Teach road safety • Our responsibility as road users • Following traffic rules as pedestrians • Being careful on the road

		• Civic duty in promoting safety • Cooperation with safety officials • Respect for authority and rules • Understanding rules protect everyone • Activity: Road safety role-play • - Creating road safety awareness materials
8	People Who Protect Us - Emergency Services	• Fire Service: Uniform (yellow or red), Duties: Put out fires, Rescue people from burning buildings, Teach fire safety, Respond to disasters • Fire safety education • What to do if there's a fire: Get out quickly, Call for help, Don't go back inside • Ambulance/Emergency Medical Services: Help sick and injured people, Take people to hospital quickly, Provide emergency medical care • Importance of emergency response • How to call for help: Stay calm, Speak clearly, Give correct location, Explain the emergency • Working together in emergencies (teamwork) • Social responsibility in emergencies • Compassion for people in danger • Activity: Mock emergency call practice • - Discussion: How we can help during emergencies
9	Understanding Money	• What is money? • Money is what we use to buy things • Nigerian currency: Naira (₦) and Kobo • Nigerian coins: 50 kobo, ₦1, ₦2 • Nigerian notes: ₦5, ₦10, ₦20, ₦50, ₦100, ₦200, ₦500, ₦1000 • Why we need money: To buy food, clothes, pay for school, buy things we need

		• Where money comes from: Parents work to earn money • Different jobs people do to earn money • Simple buying and selling: Going to the market, paying for items, receiving change • Being careful with money • Not wasting money on unnecessary things • Saving money for future needs • Financial responsibility (life skill) • Activity: Identifying Nigerian currency • Simple money counting games • - Role-play: Buying and selling in a pretend shop
10	Using Money Wisely	• Making smart choices with money (decision-making) • Needs vs. wants: Things we need (food, clothes, books), Things we want (toys, sweets) • Prioritizing needs over wants • Saving money in a piggy bank or savings box • Why saving is important: For emergencies, For future goals, To buy important things later • Not begging for everything we see • Being grateful for what we have • Sharing and giving to those in need (charity) • Introduction to digital money (simple): Some people use cards or phones to pay, Money can be kept in banks • Banks keep money safe • Financial literacy as life skill • Social responsibility with money • Global citizenship: Using resources wisely • Activity: Creating a simple savings goal

		• Making a "needs and wants" chart • Discussion: How to be responsible with money
11	Revision	• Comprehensive review of all topics covered in Third Term and entire year
12	Examination	• End of Third Term/Annual Assessment
13	Closing	• -

PRIMARY 2 SOCIAL AND CITIZENSHIP STUDIES LESSON NOTES

THIRD TERM

WEEK 1: UNDERSTANDING DANGER AND SECURITY.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define security and danger in simple terms.
- Identify three sources of danger at home and at school.
- Mention one natural danger.
- State who to report to when they feel unsafe.

CONTENT

What is Security and Danger? *Security* means being safe, protected, and free from harm or threat. *Danger* means anything that can hurt us, cause us pain, or make us unsafe. When we are not safe, it is called *insecurity*.

Sources of Danger at Home Even in our homes, which should be safe, dangers can exist if we are not careful:

- **Fire:** Playing with matches, lighters, candles, or gas cookers.
- **Electricity:** Touching naked wires, putting objects into sockets, or using appliances with wet hands.
- **Sharp Objects:** Knives, scissors, razor blades, and broken glass.
- **Hot Objects:** Boiling water, hot pots, pressing irons, and hot food oil.

Sources of Danger at School and Community

- **Bullies:** Older children who beat, threaten, or steal from others.
- **Bad Roads & Open Gutters:** Holes in the ground or open drains where one can fall.
- **Fast Vehicles:** Cars, motorcycles (okada), and trucks driving too fast, especially near schools.
- **Strangers:** People we do not know who try to talk to us, touch us, or persuade us to go with them.

Natural Dangers Sometimes nature itself can be dangerous. These are called natural disasters or hazards:

- **Heavy Rains & Floods:** Too much water that can carry people away or damage houses.
- **Storms & Strong Winds:** Can break tree branches or blow off roofs.
- **Lightning:** During thunderstorms, lightning can strike and cause fire or injury.

Staying Safe and Reporting We must learn to listen to our feelings. If a situation or a person makes you feel scared, nervous, or uncomfortable, *trust your instincts*. Your feeling is a warning. Always run to a **parent, teacher, police officer, or any trusted adult** and tell them immediately. Do not keep it a secret.

EVALUATION

1. What is danger?
2. Mention two dangerous things found in the kitchen.

3. Is a bully a source of danger at school?
4. Give one example of a natural danger.
5. Who should you tell if you feel unsafe?
6. What is the opposite of safety?

ASSIGNMENT

1. List three dangerous items you must not play with at home.
 2. Draw a picture of a sharp object (like a knife or scissors) and mark a big "X" over it.
 3. Write the name of one adult you trust to tell if you are in danger (e.g., "My teacher, Mrs. Ahmed").
-

WEEK 2: PERSONAL SAFETY STRATEGIES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Demonstrate the "Stop, Drop, and Roll" rule for fire safety.
- List three rules for staying safe from strangers.
- Describe how to cross the road safely.
- State what to do if bullied.

CONTENT

STOP-DROP-ROLL

CROSSING THE ROAD

STRANGER DANGER

DEALING WITH BULLIES

Fire Safety: Stop, Drop, and Roll

If your clothes ever catch fire:

- **STOP** immediately. Do not run, because running makes the fire bigger.
- **DROP** gently to the ground.
- **ROLL** over and over, covering your face with your hands, until the flames are out.
- Shout for help. This method smothers the fire by cutting off its air.

Stranger Danger Rules

A stranger is anyone you do not know well, even if they seem nice.

- **Never** go anywhere with a stranger, even if they say your parents sent them.
- **Never** accept gifts, sweets, money, or a ride from a stranger.
- If a stranger tries to grab you or makes you feel scared, scream "**HELP! THIS IS NOT MY PARENT!**" as loud as you can.
- Run away to a safe place like a shop, a police station, or back to your school/home.

Road Safety: The Green Cross Code Before crossing any road:

- **THINK** about where you will cross. Find a safe spot, preferably at a zebra crossing or pedestrian bridge.
- **STOP** at the edge of the kerb.
- **LOOK LEFT**, then **RIGHT**, then **LEFT** again.
- **LISTEN** for the sound of cars or motorcycles.
- If the road is clear and no vehicles are coming, **WALK** straight across quickly. Do not run.
- Always hold an adult's hand when crossing.

Dealing with Bullies If someone is bullying you (calling you names, hitting you, taking your things):

- Stay calm. Do not hit them back.
- Be brave and tell them firmly to "**STOP.**"
- **WALK AWAY** from them calmly.
- **REPORT** them to a teacher, your parents, or the school prefect immediately. Telling is not snitching; it is getting help to stop bad behavior.

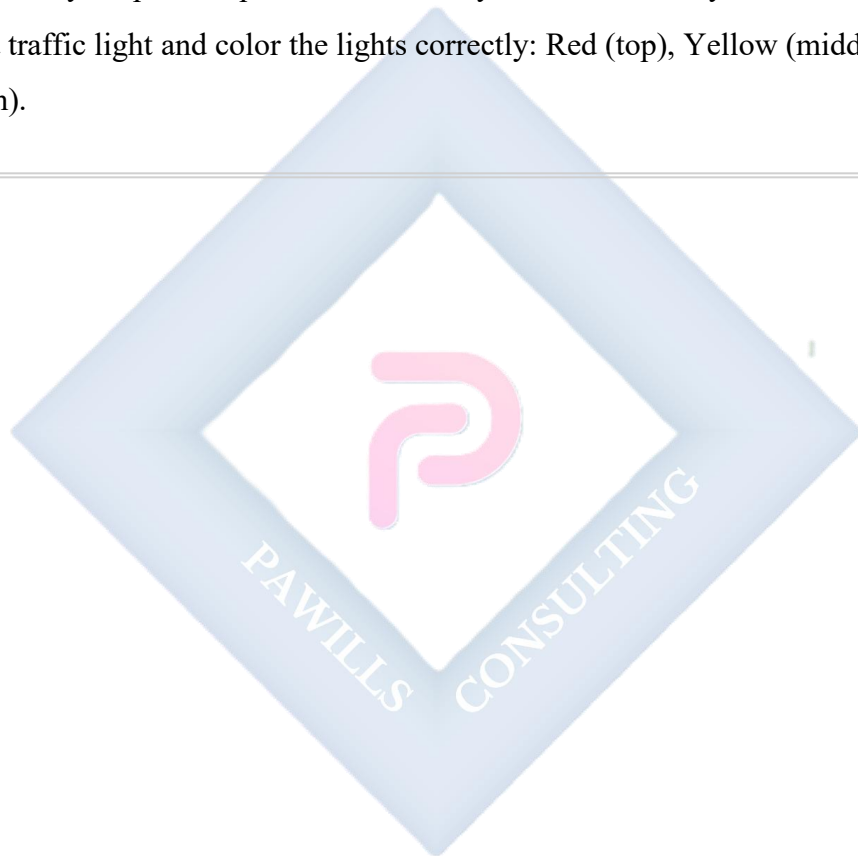

EVALUATION

1. What should you do if your clothes catch fire?
2. Should you take sweets from a stranger?
3. What should you shout if a stranger grabs you?

4. Before crossing the road, where should you look first?
5. Who should you talk to if you are being bullied?
6. Is it safe to play on the road?

ASSIGNMENT

1. Practice the "Stop, Drop, and Roll" technique at home on a mat or carpet and tell your parents you learned it.
 2. Write down your parents' phone numbers in your notebook. Try to memorize one.
 3. Draw a traffic light and color the lights correctly: Red (top), Yellow (middle), Green (bottom).
-

WEEK 3: PEOPLE WHO PROTECT US - POLICE.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Identify the Nigeria Police Force by their uniform color.
- List three duties of the police.
- Mention the emergency numbers to call the police.
- Explain why we should respect the police.

CONTENT

Who are the Police?

The police are men and women whose job is to protect citizens, enforce the law, and maintain peace and order in our community. They are our friends in uniform. They usually wear **black or dark blue** uniforms, and sometimes a black beret or cap.

What the Police Do

The police have many important duties:

- **Catch Criminals:** They arrest thieves, robbers, and other bad people who break the law.
- **Protect Life and Property:** They make sure our houses, shops, and streets are safe.
- **Control Traffic:** Traffic wardens (a part of the police) help to direct cars and motorcycles, especially during traffic jams, to keep the roads orderly.
- **Maintain Peace:** They stop fights, riots, and help to settle quarrels.
- **Help Lost People:** They help children or adults who are lost to find their way home.

Calling the Police

If we are in danger, see a crime happening, or need help, we can call the police using these emergency numbers: **112** (the general emergency number) or **767** (Police emergency line). When you call, speak clearly, say your name, what happened, and your location.

Our Responsibility Towards the Police

We should help the police by being good, law-abiding citizens. If we see something suspicious or wrong, we should tell our parents or a police officer. We must obey the laws, be honest, and show respect to police officers because they work hard, sometimes risking their lives, to keep us all safe.

EVALUATION

1. What is the common color of the police uniform?
2. Mention two things the police do.
3. What number can you call in an emergency?
4. Should we be afraid to ask the police for help?
5. What do police do to thieves?
6. Why do we need police in our community?

ASSIGNMENT

1. Draw a police officer standing next to a police car. Color the uniform blue or black.
2. Write down the emergency number **112** in big, bold numbers in your notebook.
3. Mention one way you can help the police (e.g., by telling the truth if I see something).

WEEK 4: PEOPLE WHO PROTECT US - ARMED FORCES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Mention the three branches of the Nigerian Armed Forces.
- Match each force to where they operate (Land, Sea, Air).
- Identify the uniform colors for Army, Navy, and Air Force.
- State why national security is important.

CONTENT

The Nigerian Armed Forces

These are the brave soldiers who protect our entire country from external enemies, terrorism, and wars. They defend Nigeria's sovereignty. There are three main branches:

- **The Nigerian Army:**
 - **Uniform:** Camouflage (patterns of green, brown, and black to blend with the land).
 - **Duty:** They protect the **land** and borders of Nigeria. They fight on the ground.
- **The Nigerian Navy:**
 - **Uniform:** Crisp **white** uniforms for ceremonies, and sometimes blue or camouflage for work.
 - **Duty:** They protect Nigeria's **seas, oceans, and rivers**. They use ships and boats to stop pirates, oil thieves, and enemies coming by water.
- **The Nigerian Air Force:**
 - **Uniform:** **Blue-Grey** uniforms, like the color of the sky.
 - **Duty:** They protect the **sky and airspace**. They use fighter jets, helicopters, and other aircraft.

PEOPLE WHO PROTECT US: ARMED FORCES

ARMY (LAND)

NAVY (SEA)

AIR FORCE (AIR)

FRIDAY, JANUARY 23, 2026

Why They Are Important (National Security)

The Armed Forces show great courage and sacrifice. They work day and night, often far from their families, to keep our country safe from big attacks and to maintain peace within. Because of them, we can sleep safely, go to school, and live in peace. We should be grateful, proud of them, and proud of our country, Nigeria.

EVALUATION

1. Which force protects the land?
2. Which force wears white uniforms?
3. Which force flies airplanes and helicopters?
4. What color is the Army's camouflage uniform?
5. Who protects the sea?
6. Why are the Armed Forces important for Nigeria?

ASSIGNMENT

1. Match the force to their area of operation (Correct the following):
 - Army - [Sky]
 - Navy - [Land]
 - Air Force - [Water] (Pupils to draw lines to correct: Army-Land, Navy-Water, Air Force-Sky).
 2. Draw a soldier in a green/brown camouflage uniform.
 3. Write in your notebook: "Thank you to the Nigerian Armed Forces for protecting us."
-

WEEK 5: MID-TERM EXAMINATION.

WEEK 6: MID-TERM BREAK.

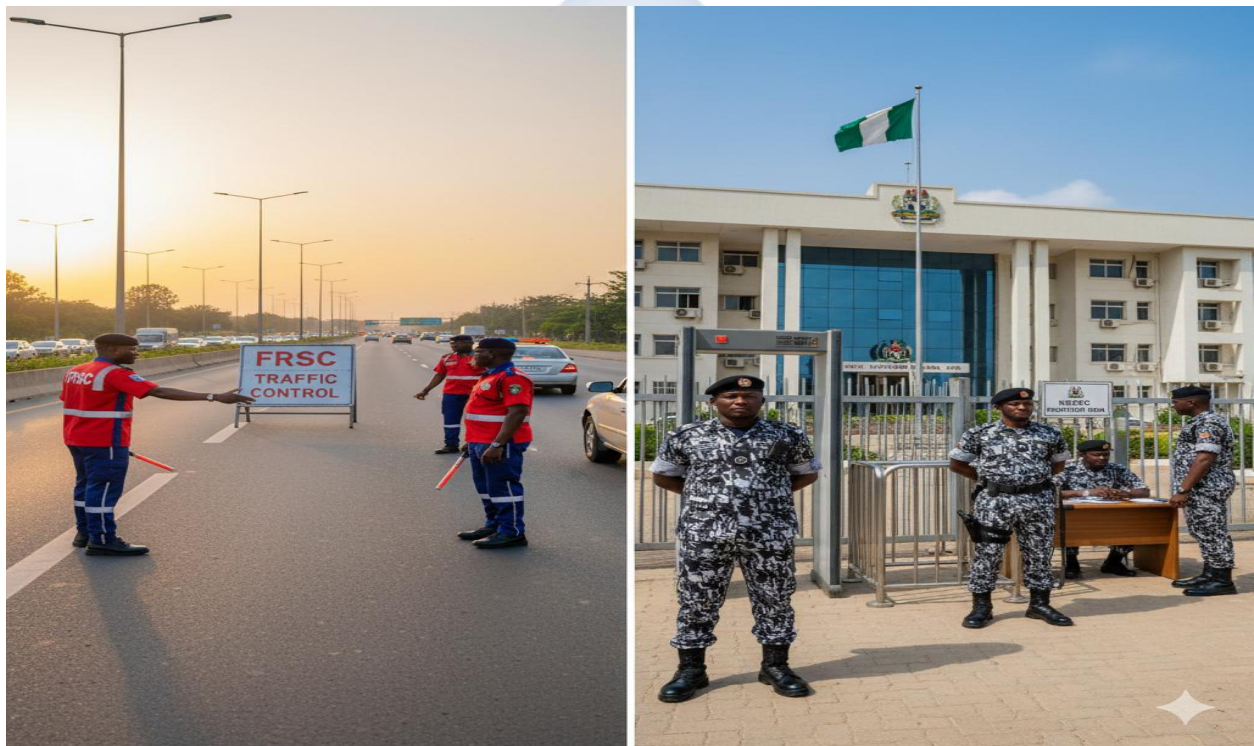

WEEK 7: PEOPLE WHO PROTECT US - SAFETY SERVICES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Identify the full meaning of FRSC and NSCDC.
- Describe the duties of the Federal Road Safety Corps.
- Mention the duties of the Nigerian Civil Defence Corps.
- State one way to cooperate with safety officials.

CONTENT

Federal Road Safety Corps (FRSC)

- **Full Meaning:** Federal Road Safety Corps.
- **Uniform:** Officers often wear **White and Black** uniforms. Their vehicles and logos are usually **Yellow and Black**.
- **Duties:** They keep our roads and highways safe. They:
 - Check if vehicles are roadworthy (good condition).
 - Ensure drivers have a valid license.

- Help people who have accidents on the highway.
- Educate people about road safety rules.
- Control traffic during special events or accidents.

Nigerian Security and Civil Defence Corps (NSCDC)

- **Full Meaning:** Nigerian Security and Civil Defence Corps.
- **Uniform:** They often wear **Blue** or **Camouflage** uniforms.
- **Duties:** They have a wide range of protective duties:
 - Protect government buildings, pipelines (oil and gas), and critical infrastructure.
 - Help during disasters like floods, fires, or building collapses (disaster management).
 - Protect schools and children from attacks.
 - They also have an anti-vandalism squad.

Our Duty to Cooperate

We must obey traffic rules and regulations. We must not damage government property. When FRSC or NSCDC officers give us instructions (like during an emergency or traffic control), we must listen and cooperate to ensure everyone's safety. They are here to help us.

EVALUATION

1. What does FRSC stand for?
2. What is the main job of the FRSC?
3. What does the Civil Defence (NSCDC) protect?
4. If an FRSC officer signals a car to stop, what should the driver do?
5. Who helps accident victims on the highway?
6. Why should we obey safety rules given by these officers?

ASSIGNMENT

1. Write down in full: "FRSC means Federal Road Safety Corps."
2. Draw a simple car stopping at a traffic light, with an FRSC officer nearby.
3. Mention one thing you should NOT do on the road (e.g., run across without looking).

WEEK 8: PEOPLE WHO PROTECT US - EMERGENCY SERVICES.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Identify the Fire Service and Ambulance Service.
- State the main duty of a fire fighter.
- Explain what an ambulance is used for.
- Describe how to make an emergency call.

CONTENT

The Fire Service

- **Uniform:** Firefighters wear heavy protective jackets, trousers, helmets, and boots. These are often **Yellow, Red, or Black** to protect them from heat, fire, and falling debris.
- **Duties:** Their main job is to **put out fires**. They use big red trucks with long water hoses, ladders, and other tools. They also:
 - Rescue people and animals trapped in burning buildings or cars.
 - Educate people about fire prevention.
 - Respond to other emergencies like road accidents to cut people out of wrecked cars.

The Ambulance / Medical Emergency Services

- **Duties:** They provide urgent medical care and transport. An **Ambulance** is a special van equipped like a small mobile hospital. It has a siren and flashing lights.
- They carry very sick or badly injured people to the hospital very quickly.
- Paramedics and nurses inside the ambulance can give first aid and life-saving treatment on the way.
- They work closely with hospitals.

How to Call for Help in an Emergency

In any serious emergency (fire, serious accident, someone collapsing):

- Stay as calm as you can.
- Call the emergency number: **112**.
- **Speak clearly** to the operator.
- Tell them:
- **WHERE** you are (your address or a landmark).
- **WHAT** happened (e.g., "There's a fire," "Someone is badly hurt").
- **WHO** needs help.
- Do not hang up until the operator tells you to.

EVALUATION

1. Who puts out fires?
2. What vehicle takes very sick people to the hospital quickly?
3. What should you do if you see a big fire?
4. Why does an ambulance have a siren and flashing lights?
5. Mention one thing you must say when calling 112 for help.
6. Is it good to play with or make fake calls to the emergency number?

ASSIGNMENT

1. Draw a big red fire truck with a ladder.
 2. Write down: "Fire fighters are brave heroes who save lives."
 3. Ask your parents where the nearest hospital or fire station is to your house.
-

WEEK 9: UNDERSTANDING MONEY.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Define money.
- Identifying the Nigerian currency (Naira and Kobo).
- List three denominations of Nigerian notes.
- Explain why we need money.

CONTENT

What is Money?

Money is what we use to buy things (goods) and pay for services. Long ago, people used a system called *Trade by Barter* (exchanging goods for other goods, like a yam for a fish). This was difficult, so money was invented as a common thing everyone agrees has value.

Nigerian Currency

In Nigeria, our official money is called the **Naira (₦)** and **Kobo (k)**.

- 100 Kobo = 1 Naira.

- **Coins:** We have metal coins like 50k (kobo), ₦1, and ₦2. They are less common now.
- **Notes:** We have paper/polymer (plastic) banknotes. They come in different colors and values: ₦5, ₦10, ₦20, ₦50, ₦100, ₦200, ₦500, and ₦1000.
- Each note has a picture of an important Nigerian hero or landmark.

Why We Need Money

We need money for almost everything in modern life:

- To buy **food, clothes, and shoes.**
- To pay for **school fees, books, and uniforms.**
- To pay for a **house** to live in (rent) and **electricity/water** bills.
- To pay for **transport** (bus fare, taxi).
- To pay for **medical care** when we are sick.

How to Get Money Money comes from **hard work and honest labour.** Parents and guardians go to work (as teachers, doctors, traders, farmers, etc.) or run businesses to **earn** money. We should appreciate their hard work.

EVALUATION

1. What is the name of Nigerian money?
2. Mention three Nigerian bank notes you know.
3. What do we use money for? (Give two examples).
4. Do we get money by being lazy or by working hard?
5. What is the highest Naira note?
6. Is ₦5 a coin or a note?

ASSIGNMENT

1. Draw a rectangle to represent a ₦100 note. Write "100" and "Naira" on it.
2. Ask your parents to show you a real Naira note (any denomination). Look at the pictures and colors.
3. List three things your parents use money to buy for your family.

WEEK 10: USING MONEY WISELY.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Differentiate between "Needs" and "Wants."
- Explain the importance of saving money.
- Mention where we can keep money safe.
- State why we should not waste money.

CONTENT

USING MONEY WISELY

FINANCIAL LITERACY

SAVING MONEY

CHOOSING BOOKS

NEEDS BEFORE WANTS

Needs vs. Wants

Learning the difference is the first step to using money wisely:

- **Needs:** These are things we **must** have to live and be healthy, safe, and educated.
- **Examples:** Food, water, clothes, a safe home, medicine, school books and uniforms.
- **Wants:** These are things we **like** or desire but can live without. They are for fun or extra comfort.

- **Examples:** Toys, video games, ice cream, fancy shoes, expensive dolls. We should spend money on **Needs first**. If there is money left, then we can buy some of our Wants.

The Importance of Saving Money

Saving means keeping some money aside for later, instead of spending it all now. **Why Save?**

- To buy something important or expensive later (like a bicycle or a special gift).
- For emergencies (like when someone is suddenly sick).
- To help others in need.
- To learn the good habit of planning for the future.

Where to Keep Money Safe

- **At Home:** In a **Piggy Bank** (or **Kolo**). This is a special box for saving coins and notes.
- **In a Bank:** A bank is a secure building where people keep their money. Parents can open a savings account for you. Money in the bank is very safe and can even grow a little (interest).

Being Responsible with Money

We must not waste money on unnecessary things or beg for everything we see. We should be grateful for what our parents provide. When we are given money (like pocket money or gifts), we should think carefully before spending it.

EVALUATION

1. Is food a Need or a Want?
2. Is a toy car a Need or a Want?
3. Which one should you buy first: School shoes or Ice cream?
4. Where can you save your money at home?
5. Why is saving a good habit?
6. Should we waste money by losing it or buying silly things?

ASSIGNMENT

1. List two "Needs" and two "Wants."
 2. Draw a small box or a piggy bank to represent a savings box.
 3. Write down one thing you would like to save money to buy for yourself or your family.
-

WEEK 11: REVISION.

OBJECTIVES By the end of the lesson, pupils should be able to:

- Recall sources of danger and safety rules.
- Identify security agencies and their duties.
- Recognize Nigerian currency and good money habits.

CONTENT

Review of the Term We will review all the important topics we have learned this term:

- **Safety & Danger:** Sources of danger at home, school, and in nature. Personal safety strategies like "Stop, Drop, Roll," stranger danger rules, and road safety (Look Left-Right-Left).
- **Security Agencies:**
- **Police:** (Black/Blue uniform) catch criminals, keep peace.
- **Armed Forces:** **Army** (Land/Camouflage), **Navy** (Sea/White), **Air Force** (Air/Blue-Grey) protect Nigeria.
- **FRSC:** (Road Safety) keep our highways safe.
- **Fire Service & Ambulance:** (Emergency Services) put out fires and take the sick to hospital.
- **Money:** Naira and Kobo are our currency. We spend on **Needs** (food, clothes) before **Wants** (toys). *Saving* money (in a piggy bank or bank) is a smart and responsible habit.

Being a safe, secure, and responsible person makes you a better citizen!

EVALUATION

1. What number do you call for general emergencies?
2. Who wears a white uniform and protects the sea?
3. Mention one road safety rule.

4. What is the Nigerian currency called?
5. Give an example of a "Need."

ASSIGNMENT

1. Study your notes for the end-of-term examination.
2. Check your school bag to ensure you have all your pencils, books, and lunch box (showing responsibility).
3. Tell your parents one important safety rule you learned this term.
